The objections of the Governor and his veto to the contrary notwithstanding.

(For bill see House Journal of February 4).

The objections of the Governor and his veto are as follows, viz.:

VETO MESSAGE

SENATE BILL No. 17

So important and useful an office as Commissioner of Pardons, created by a Democratic Legislature in 1926, at the instance of Governor William J. Fields, a Democrat, and which office has now worked out a system of handling applications for pardons and commutations that keeps the public advised and prevents the prepetration of fraud and the extension of Executive clemency in cases having no merit, should not be abolished.

If justice is not our aim, why maintain courts; or, why go to great expense in time and money trying and convicting persons charged with crime if a pardon is to be granted on false grounds, or denied without full investigation? The only preventive of injustice in such cases is impartial and fair investigation which a Commissioner of Pardons with no other duties to perform, alone can give. The onerous and increasing demands upon the office of the Governor are so great that he has and can give but very little time to the consideration

of applications for pardons or commutations, and this being so, many of the hundreds of applications now on file, or which may be there later, cannot and will not get that individual, careful, thorough investigation to which they are entitled, and which would enable the Governor to confidently grant or refuse the application. Many thousands of persons, not charged with crime, are interested one way or another in applications for pardons and unless the State provides some way by which those who feel they have a just cause may be fully and completely heard, the equivalent of a denial of justice results.

Our fathers who founded this Republic and gave us our beloved Commonwealth, believed in pardons and rested the power in each case with the Chief Executive. This is an American principle, the propriety of which we all acknowledge. It is the last safeguard which the Constitution gives the accused in criminal cases against impulsive, emotional, ill-considered, hasty and unjust judgments, and but for which, under our system, many wrongs inflicted under excitement or through malice would never be corrected.

Far from being against the granting of pardons in proper cases, I revault at the thought of allowing the innocent to suffer a penalty. I am however unqualifiedly and irrevocably opposed to the abuse of the pardoning power. It is my purpose to grant relief in every case in which there is a miscarriage of justice, and to refuse all applications which have no merit. But, how can we discover such cases except through careful investigation of the facts found in the records in the office of Commissioner of Pardons, at the Capitol, and by visiting the scene of the crime and interrogating witnesses and unearthing the facts?

Every good Kentuckian must hang his head in shame when past records of pardons are brought to public attention. In years gone by many of the worst criminals, murderers, rapists, robbers, thieves, gamblers and professional crooks of

all kinds have, without publicly known reasons, been granted pardons to the detriment as well as disgrace of the Commonwealth. All this has been changed completely and for the first time in the history of the State fixed rules for the government of pardon applications and hearings thereon, have been established and strictly adhered to, with the result that every citizen can look his neighbor in the face and say that no fear need be entertained of back-door commutations or questionable pardons. Both the system and the results accomplished have been approved and applauded by law-abiding people throughout the Nation no less than in Kentucky. This, in part, is due to the office of the Commissioner of Pardons. With this good record, why deliberately upset the system? Does anyone desire to return to the old rule of political pardons, and pardons for preference, for friendship, for votes, for political services, for legislation and as consideration for other corrupt bargains? For one, I do not and will not go back to that false basis or that corrupt system.

It would be utterly impossible for the Governor to do this work as it should be done and take care of all the other important duties which devolve upon him.

At first glance many cases, as stated, seem to justify clemency, but careful investigation often disclose them to be wholly without merit. In such cases the Governor, without sufficient time to go into a complete sift of the evidence, may innocently abuse the power and defeat the ends of justice. Other cases, dismissed lightly without thorough investigation, may warrant favorable action and some unfortunate person, for want of thorough investigation, may suffer irreparable injury. This the State cannot allow and must carefully guard against.

Applications are so many that it takes all the time of an industrious Commissioner to keep up with the work. There are between 600 and 800 active cases at all times, letters by the dozens, telegrams, long distant calls, and delegations are

daily occurrences. There are more than 3,000 inmates in the two major penal institutions of the State, besides the cases which come from the jails of the 120 counties and Reform school for boys and girls. Practically every person that is incarcerated in any institution makes or contemplates making an application for pardon or commutation.

It often happens that the family and friends of the unfortunate person travel a long way at great expense for the purpose of having a personal interview with the Pardon Commissioner or Governor and to present newly discovered evidence, proving innocence, and it would be cruel—nothing less than inhuman—to turn them away without hearing their plea. A failure to get the facts may defeat justice. Delegations often take hours to present a case.

Human beings, all, no matter how guilty, are entitled to patient consideration and a fair hearing on their final appeal. It is their Constitutional right to make application and to be heard and they should know that some one is protecting their rights. This satisfaction and peace of mind should not be denied them.

Upon the many death cases that are continually coming to the attention of this office, special diligence must be exercised to prevent the possibility of miscarriage of justice. No hurried or careless decision should ever be made in such cases. Some of these take weeks and even months to investigate. Neither the people nor the Governor can afford to take a chance on an error or injustice in a death case.

The power to pardon is a very important as well as sacred one, and must not be prostituted or abused. This I have tried to guard against by the establishment of rules for government of all cases. In order to find out who is entitled to Executive clemency, it is necessary to carefully scrutinize each and every application.

Before an investigation will be made the applicant is required to fill out and file a formal application using a blank

which is furnished free of charge by the Commissioner. This application must give the name of the applicant, crime for which convicted, sentence imposed, court in which convicted, date, name of trial Judge, Commonwealth's Attorney, County Attorney, Defense Attorney, name and address of the jurors, when an appeal was prayed, if any; when applicant entered the prison; grounds relied upon for clemency, all of which must be verified according to law. A blank notice is furnished to all applicants which must be filled out and served upon the attorney who prosecuted the case. This puts the public upon notice that an application for pardon is filed. It gives the Commissioner a basis upon which to work. If the case was appealed, the Commissioner secures the record from the Clerk of the Court of Appeals and reads it entirely to familiarize himself with all the facts. If the Commissioner deems it wise he will go upon the ground and talk to the Court officials, jurors, witnesses and citizens, to get all the facts and the sentiment of the community; he will investigate all petitions and recommendations to see that they are genuine and not forgeries. The Governor in former times has been imposed upon by forged or substituted petitions.

After all facts connected with the application have been reviewed and considered, the Commissioner briefs the case, writing his comments thereon for the attention of the Governor. No power or authority is delegated to the Commissioner except to gather all the facts and to present them in logical order for final consideration by the Governor.

When a case is found which in the opinion of the Commissioner has merit he, before same is presented to the Governor, causes a notice or advertisement to be inserted in a newspaper published in the county in which the crime is charged to have been committed, calling attention of the public to the fact that the Commissioner is about to make a favorable recommendation and calling upon those who want to protest to file the same with the Commissioner within a cer-

tain named time. If a protest is filed, it is investigated to see what merit, if any, it has. In this way no slip or mistake can take place.

Undoubtedly a very large per cent of the applications are without merit, but where there are hundreds of persons convicted in the State each year of one crime or another, it stands to reason that some miscarriages of justice may eventuate, and in order to find these cases and to grant the relief which justice demands, it is imperative that each case presented be thoroughly examined in order that we may know which has merit and which is without merit, hence the work of the Commissioner of Pardons is just as great whether few or many pardons are granted, for he is not called upon to grant pardons or commutations but merely to logically and orderly assemble the facts, brief the cases and offer his recommendations which may not be followed. It takes as much time and effort to investigate a case which has no merit as one that deserves executive clemency. Moreover, it is not a question of whether a pardon has or has not been granted but whether the application made by the unfortunate person under conviction has been carefully, fairly and sympathetically examined and determined. None must be denied a hearing, for if this be done, resentment on the part of the applicant and his friends against the government and organized society will result.

The sad and pathetic scenes attending the performance of the duties of this office are heartrending, yet they must be courageously met, heard and performed and performed carefully and rightly, and this can be done only by one whose other duties are not so numerous as to interfere with a thorough and fair investigation. All this takes much time and great patience.

Created in order that every unfortunate person who may be convicted of crime may have some public official upon whom he may confidently call, without expenditure, to make a thorough investigation of their cases and guarantee protec-

tion to them against wrong, the office of Commissioner of Pardons serves a great purpose and should be continued. Without funds and without friends, as many of them are, applicants for Executive clemency have no one to intercede in their behalf and a great wrong may thus be done which all the wealth of Kentucky could not right nor the prayers of all blot out.

To deal with the most sacred relations of live, even life itself, as must the Commissioner of Pardons, he should be constantly on the job, active, industrious, sympathetic and just. Every right of the applicant should have careful consideration and be jealously guarded. No greater responsibility than this could rest upon an official.

No person, no matter how humble should be deprived of his life or liberty without a full opportunity to invoke the aid of every guarantee given him by the Constitution.

Giving due consideration to the splendid system and plan adopted for handling applications for pardons and commutations, the protection it affords the people, the small cost—less than one-fifth (1/5) of a cent per capita, per year—and immense benefits of the office, the good accomplished in peace and order, of justice to the millions of law-abiding citizens who are demanding that every case be carefully examined and correctly decided, the law enforced, the innocent protected and the guilty made to suffer, I deem Senate Bill No. 17, abolishing the office of Commissioner of Pardons, ill-advised, an obstruction to the course of justice and wholly detrimental to the best interest of Kentucky. I cannot, therefore approve it. For the reasons indicated and others, said measure is vetoed and returned with this veto message to the Senate where it originated.

FLEM D. SAMPSON, Governor,
Commonwealth of Kentucky.

Mr. Via moved that the vote by which said bill was passed as amended, be reconsidered and that said motion lie on the table.

Said last named motion was agreed to.

The House took up for consideration from the Orders of the Day a bill entitled:

S. B. 141. An Act concerning the manner of commitment of incompetent Veterans of the World War who are beneficiaries of World War Veterans' Act as amended; and regulating the appointment, defining the duties, and governing the actions of guardians and committees for beneficiaries of the World War Veterans' Act, as amended, and the World War Adjusted Compensation Act, as amended.

Said bill is as follows, viz.:

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

§ 1. As used in this Act:

The term "person" includes a partnership, corporation or an association.

The term "Bureau" means the United States Veterans' Bureau or its successor.

The terms "estate" and "income" shall include only moneys received by the guardian from the Bureau and all earnings, interest and profits derived therefrom.

The term "Benefits" shall mean all moneys payable by the United States through the Bureau.

The term "Director" means the director of the United States Veterans' Bureau or his successor.

The term "ward" means a beneficiary of the Bureau.

The term "guardian" as used herein shall mean any person acting as a fiduciary for a minor.

The term "committee" as used herein shall mean any person acting as fiduciary for an incompetent person.

§ 2. Whenever, pursuant to any law of the United States or regulation of the Bureau, the Director requires, prior to payment of benefits, that a guardian or committee be appointed for a ward, such appointment shall be made in the manner hereinafter provided.

§ 3. Except as hereinafter provided it shall be unlawful for any person to accept appointment as guardian or committee of any ward if such proposed guardian or committee shall at that time be acting as guardian or committee for five wards. In any case, upon presentation of a petition by an attorney of the Bureau under this section alleging that a guardian or committee is acting in a fiduciary capacity for more than five wards and requesting his discharge for that reason, the court, upon proof substantiating the petition shall require a final accounting forthwith from such guardian or committee and shall discharge such guardian or committee in said case.

The limitations of this section shall not apply where the guardian or committee is a Bank or Trust Company acting for the wards' estates only. An individual may be guardian or committee of more than five wards if they are all members of the same family.

§ 4. A petition for the appointment of a committee for a Bureau beneficiary may be filed in accordance with section 272a-16 of the existing statutes, the requirements of said section being supplemented by information setting out the amount of moneys payable through the Bureau and the amount of probable future payments.

§ 5. Where an application is made for the appointment of a guardian of a minor ward a certificate of the director, or his representatives, setting forth the age of such minor as shown by the records of the Bureau and the fact that the appointment of a guardian is a condition precedent to the pay-

ment of any moneys due the minor by the Bureau, shall be prima facie evidence of the necessity for such appointment.

§ 6. Where a petition for the appointment of a committee of a Bureau beneficiary is filed in accordance with section 4, such petition shall be accompanied by a statement from the director or his representative, showing that such beneficiary has been rated incompetent on an examination by the Bureau in accordance with the laws and regulations governing the Bureau, and that in the opinion of the Director or his representative, payment of moneys to such beneficiary should be made to a committee for said beneficiary.

The appointment of a committee for the Bureau beneficiary shall be made in accordance with this section and section 4 hereof and section 272-a-15-16-17-18-19-20 of the existing statutes.

§ 7. Upon the filing of a petition for the appointment of a committee, under the provisions of this act, the court shall cause such notice to be given as provided by section 272a-18 of the existing statutes.

§ 8. Before making an appointment under the provisions of this act the court shall be satisfied that the guardian or committee whose appointment is sought is a fit and proper person to be appointed. Upon the appointment being made the guardian or committee shall execute and file a bond to be approved by the court in an amount not less than the sum then due and estimated to become payable during the ensuing year. The said bond shall be in the form and be conditioned as required of guardians and committees appointed under the guardianship laws of this state. The court shall have power from time time to time to require the guardian or committee to file an additional bond.

Where a bond is tendered by a guardian or committee with personal sureties, such sureties shall file with the court a certificate under oath which shall describe the property owned, both real and personal, and that they are each worth

the sum named in the bond as the penalty thereof over and above all their debts and liabilities and exclusive of property exempt from execution.

§ 9. Every guardian or committee who shall receive on account of his ward any moneys from the Bureau, shall file with the court annually, on the anniversary date of the appointment, in addition to such other accounts as may be required by the court, a full, true, and accurate account under oath of all moneys received by him, of all disbursements made thereof, and showing the balance thereof in his hands at the date of such account and how invested. A certified copy of such accounts filed with the court shall be sent by the guardian or committee to the office of the Bureau having jurisdiction over the area in which such court is located. The court shall fix a time and place for the hearing on such account not less than fifteen days nor more than thirty days from the date of filing same and notice thereof shall be given by the court to the aforesaid Bureau office not less than fifteen days prior to the date fixed for the hearing. Notice of such hearing shall in like manner be given to the guardian or committee.

§ 10. If any guardian or committee shall fail to file any account of the moneys received by him from the Bureau on account of his ward within thirty days after such account is required by either the court or Bureau, or shall fail to furnish the Bureau a copy of his accounts as required by this act, such failure shall be grounds for removal.

§ 11. Compensation payable to guardians or committees shall not exceed five per cent of the income of the ward during any year. In the event of extraordinary services rendered by such guardian or committee, the court may, upon petition and after hearing thereon, authorize additional compensation therefor payable from the estate of the ward. Notice of such petition and hearing shall be given the proper office of the Bureau in the manner provided in Section 9. No compensation shall be allowed on the corpus of an estate received from

a preceding guardian or committee. The guardian or committee may be allowed from the estate of his ward reasonable premiums paid by him to any corporate surety upon his bond.

§ 13. A guardian or committee shall not apply any portion of the estate of his ward for the support and maintenance of any person other than his ward, except upon order of the court after a hearing, notice of which has been given the proper office of the Bureau in the manner provided in Section 9.

§ 14. Whenever a copy of any public record is required by the Bureau to be used in determining the elegibility of any person to participate in benefits made available by such Bureau, the official charged with the custody of such public record shall without charge provide the applicant for such benefits or any person acting on his behalf or the representative of such Bureau with a certified copy of such record.

§ 15. Whenever it appears that a veteran of any war, military occupation or expedition is eligible for treatment in a United States Veterans' Hospital and commitment to such hospital is necessary for the proper care and treatment of such veteran, the courts of this state are hereby authorized to communicate with the Bureau with reference to available facilities and eligibility, and upon receipt of a certificate from the Bureau stating that there are facilities available in a United States Veterans' Hospital and that the veteran is entitled to hospitalization therein, the court may then direct such veteran's commitment to such United States Veterans' Bureau Hospital. Thereafter such veteran upon admission shall be subject to the rules and regulations of such hospital and the officials of such hospital shall be vested with the same powers now exercised by superintendents of state hospitals

for mental diseases within this state with reference to the retention of custody of the veteran so committed. Notice of such pending proceedings shall be furnished the person to be committed and his right to appear and defend shall not be denied.

§ 16. When a minor ward for whom a guardian has been appointed under the provisions of this Act or other laws of this state, shall have attained his or her majority and where any incompetent ward, not a minor, shall be declared competent by the said Bureau or a court, the guardian or the committee, as the case may be, shall upon making a satisfactory accounting, be discharged by the court.

§ 17. This act shall be construed liberally to secure the beneficial intents and purposes thereof and shall apply only to beneficiaries of the Bureau.

§ 18. This Act may be cited as the "Uniform Veterans' Guardianship Act."

§ 19. The invalidity of any portion of this Act shall not affect the validity or any other portion thereof which can be given effect without such invalid part.

Thereupon the House took up for consideration from the Orders of the Day a bill entitled:

S. B. 1. (For title see Journal ante).

Said bill is as follows, viz.:

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

§ 1. Insofar and to the extent that the Act entitled "An Act relating to registration in cities and towns having a population of 5,000 inhabitants or more," approved March 21, 1924, being Chapter 64 of the Acts of the General Assembly of the Commonwealth of Kentucky of 1924, relates to and governs the registration of voters in cities of the first class, said Act and the provisions thereof are hereby repealed, except as specifically provided by this Act.

§ 2. This Act may be cited and referred to as "The Model Registration Act for Cities of the First Class."

The phrase "The Board" or "said board," whenever used herein, shall mean the Board of Registration of the City of ————, hereinafter provided.

The term "city executive committee," when used in this Act shall refer to the governing body of each of the two political parties receiving the largest number of votes at the last preceding November Election in the county containing a city of the first class, and if there shall be two or more contending city executive committees of the same political party in said county, then said term shall refer to that executive committee which is recognized by the State Central Committee, if any,

of such party, as evidenced by the written certificate of the Chairman thereof.

The phrase "offices of the Board" shall include and mean all places or locations, either temporary or permanent, where the Board of Registration Commissioners or any of its authorized agents shall perform any of the functions of said Board.

The term "initial registration" shall refer to the general initial registration held in each precinct in each city of the first class as provided for in this Act.

The word "city" when used herein, shall refer to cities of the first class; and the word "Mayor," when used herein, shall refer to the Mayor of such city of the first class.

A word importing the masculine gender, when used herein, shall extend to and be deemed to include women as well as men. Likewise, a word importing the feminine gender, when used herein, shall extend to and be deemed to include men as well as women.

§ 3. Every citizen of the United States not otherwise disqualified by the laws of this Commonwealth, who is twenty-one years of age or who will become twenty-one years of age on or before the next regular election to be held in November of any year or on or before the date of any special election, and who will have been a resident of the State of Kentucky one year, and the county six months, and of the precinct in the city or town of the first class in such county in which he offers to vote for 60 days next preceding such election, and who is a registered voter, and is otherwise qualified, shall be entitled to vote for all officers elective by the people, and on all measures or questions submitted for determination by the voters at any regular or special election; provided, however, that only persons who are duly and properly registered as herein provided shall be permitted to vote at the general election to be held in 1930 and at all primary, general and special elections held thereafter.

§ 4. There is hereby created, in each city and town of

the first class in the State of Kentucky, a body corporate designated as "The Board of Registration Commissioners of the City of ————." The administration of registration for elections and purgation of registration in such city of the first class shall be under the supervision and control of said Board as herein provided, and said Board shall have the power to contract and be contracted with, sue and be sued, and to adopt a common seal.

In addition, the Board shall have the right to adopt such reasonable rules and regulations as may be necessary for the proper conduct of its office and the discharge of the duties imposed on it by this Act.

§ 5. The Board of Registration Commissioners in each city of the first class shall consist of two members to be appointed by the Mayor or in the manner hereinafter provided. They shall be citizens and registered voters of the city from which they are appointed, and shall be not less than twenty-five years of age. Before taking office each member of said Board shall make oath that he possesses the qualification herein provided.

The first members of said Board shall be appointed on or before May 1, 1930, and shall hold office until December 31, 1933, or until their successors are appointed and shall have qualified. On the 1st day of January in the year 1934, and every fourth year thereafter, two members of said Board shall be appointed in the manner herein provided, who shall hold office for a term of four years and until their successors are appointed and shall have qualified. Members of said Board shall be eligible for reappointment and to succeed themselves.

Each of the City Executive Committees shall, not less than fifteen days before the first day of May, 1930, and on or before the first day of December, 1933, and the first day of December of each fourth year thereafter, submit in writing to the Mayor a list of five names of persons possessing the quali-

fications herein provided for members of the Board of Registration Commissioners. If the persons so nominated by said Executive Committees, in the opinion of the Mayor are not competent or desirable for appointment, then, in that event, the Mayor may within five days thereafter, request the said City Executive Committee or committees to submit a new list of five names of persons possessing the qualifications herein provided for members of the Board of Registration Commissioners. It shall then be the duty of such Executive Committee within five days thereafter to submit in writing to the Mayor a new list of five names of persons possessing the qualifications herein provided for, and from all the names submitted to the Mayor, the Mayor shall appoint the members of said Board, so that said Board shall be composed of one member from each of the two political parties of said city of the first class as defined in Section 2.

If either of the City Executive Committees fails to submit a list as hereinabove provided, the Mayor shall have the right to select and appoint as one of the members of said Board any person possessing the qualifications required by this Act, who is registered as a member of and supported at the last general election the nominees of the political party represented by the City Executive Committee so failing to furnish a list.

Before making said appointments it shall be the duty of the Mayor to determine that the proposed appointees possess the qualifications required by this Act.

The Mayor shall remove any member of the Board who is or shall become disqualified under the provisions of this Act. The Mayor shall remove any member of the Board upon written request of the City Executive Committee of the political party which nominated such member, and may at any time, without cause, remove the commissioner nominated by the executive committee of the party with which the Mayor is affiliated. The order of said removal shall be in writing

and shall be filed with and become a part of the records of said Board.

If a vacancy shall occur, the Mayor shall immediately notify the said Executive Committee of the party which nominated the member retiring or removed, and that Committee shall without delay submit a list of five names to the Mayor in writing. If the persons so nominated by said Executive Committee in the opinion of the Mayor are not competent or desirable for appointment, then in that event, the Mayor shall immediately request the said City Executive Committee to submit a new list of five names of persons possessing the qualifications herein provided for members of the Board of Registration Commissioners. It shall then be the duty of the said City Executive Committee without delay to submit in writing to the Mayor a new list of five names of persons possessing the qualifications herein provided for and from said two lists the Mayor shall, at once, fill the vacancy for the unexpired term by appointment.

Resignations from the Board shall be in writing, directed to the Mayor, and a copy thereof filed with the registrar of the Board.

The acceptance of any office, whether elective or appointive, or becoming a candidate for any elective office, by any member of the Board during his term of office shall *ipso facto* vacate said office. No member of the City Executive Committee of either party shall be a member of the Board nor hold any clerical or other position under said Board.

The members of the Board shall receive such reasonable compensation, not exceeding $1,200.00 per annum for each member, as may be fixed by ordinance.

If the members of the Board can not agree upon any question arising in connection with the administration of the duties imposed on said Board by this Act within the jurisdiction of the Board, then the Mayor shall cast the deciding vote.

§ 6. Each member of said Board shall, within ten days

after his appoinment and before entering upon the duties of said office, executive bond in the sum of $25,000.00, payable to the city, with good security, to be approved by the Mayor, conditioned that he will faithfully perform his duties as a member of the Board of Registration Commissioners of the City of ———— as prescribed by law, which bond shall, when approved by the Mayor, be filed with the Comptroller and Inspector of said city and shall be a public record. For any violation by the principal in such bond of his duties as a member of the Board of Registration Commissioners, a suit may be maintained upon such bond as against the principal and sureties, such suit to be brought in the name of the city, and any amount recovered in such suit shall be paid over to the Board of Registration Commissioners, for the purposes of the Board.

§ 7. The Board is hereby authorized to acquire a permanent office as soon as possible after said Board has been appointed. And to equip said office in such manner as it may deem necessary consistent with the provisions of this Act, and to prescribe and provide all forms, records and paraphernalia required for the conduct of registrations as herein provided.

On July 1, 1930, or as soon thereafter as practicable, the Board shall open its permanent office for the purpose of performing the duties imposed upon it by this Act. Said office shall be maintained and kept open to the public every day in each year between the hours of eight-thirty A. M., and five o'clock P. M., excepting Sundays and regular holidays. Said office may, in the discretion of the Board, be kept open to the public at night or at such other hours as the Board may determine, not inconsistent with the provisions of this Act. Said office may be closed at one P. M., on Saturdays, if and when such closing is authorized by the Board.

After the year 1930, the Board may, in its discretion, establish such temporary branch offices not exceeding one for each ward, as may in the opinion of the Board be necessary,

and keep same open for not more than one week in the months of May, June or the first fifteen days of July of each year.

Except during the hours and days in each year when the office of the Board shall be closed to the public as herein provided, and except during the period of 65 days, as provided by this Act, when voters are not permitted to register, any person qualified to register in said cities of the first class, who has not theretofore registered shall, upon going in person to the permanent or temporary branch office of the Board, be entitled to register, subject to the provisions of this Act and such rules as the Board shall adopt not inconsistent therewith; provided, however, that while it shall be the duty of the Board to register any person legally qualified to register but who has theretofore failed to do so, and to change the registration of any person who desires to change his registration, during the period commencing on the fourteenth day preceding the August primary election in the year 1931, and each year thereafter and lasting through the day on which said primary election is held, the person so registering, or changing his registration, shall not be entitled to participate or vote at the primary election in said year and the registration record of persons registering or changing their registration during said period shall not be placed in the precinct registration until after the primary election in that year has been held.

Any voter may register at the branch office in the ward in which said voter resides.

§ 8. The Board shall appoint a registrar and an assistant registrar who shall act as secretary and assistant secretary respectively of the Board. They shall have general charge of its office, records and employees under the supervision and direction of the Board and shall perform such duties as the Board shall prescribe. Said officers shall hold office at the pleasure of the Board and devote their entire time to the duties of their office. They shall be members of opposite pol-

itical parties and chosen and appointed as herein provided. Said officers shall be selected from names which shall be submitted by each appointed member of the Board, each member to submit one name.

The Board is further authorized to employ and appoint such clerks and employees from time to time and for such periods of time as in the opinion of said Board may be necessary for the proper conduct of its business.

All employees or appointees of the Board shall be employed or appointed by the Board so that said employees shall be, as near as may be, in equal numbers from the two political parties aforesaid.

The Board may require bond with security from the registrar or any employee and fix the terms and penalty of such bond.

The registrar and assistant registrar shall each receive the same annual salary not to exceed $3,600.00 to be fixed by the Board, and the compensation of all clerks or employees shall be fixed by the Board not to exceed $150.00 per month per person. All salaries and compensation shall be paid by the Board.

§ 9. Any member of the Board of Registration Commissioners, the registrar, assistant registrar, and each of the employees, temporary or permanent, of said Board shall, during their respective terms of office or employment, have authority to administer oath to any person of whom information is sought touching any matter pertaining to the administration of this Act.

§ 10. During the fiscal year ending August 31, 1930, the City shall, out of its General Purpose Fund, provide the necessary money to meet the expense of the Board; in order to provide the necessary funds to meet the expenses of the Board during the fiscal year ending August 31st, 1931, the City shall levy and cause to be collected a tax of not more than two (2c) cents upon each One Hundred ($100.00) Dollars of as-

sessed value of all property in said City taxable for city purposes, and each year thereafter the City shall levy and cause to be collected a tax of not less than three-fourths (¾) of one cent and not more than one (1c) cent upon each One Hundred ($100.00) Dollars of assessed value of all property in said City taxable for City purposes, the taxes for each of said years to be paid over to said Board and receipted for by it.

The Board shall keep complete records of all receipts and disbursements which shall be audited annually and shall make a full report thereof to the Mayor on or before the first day of December of each year. The fiscal year of the Board shall be the same as that of the city.

§ 11. All supplies required under this Act shall be bought by competitive bids upon uniform specifications and the contract shall be awarded to the lowest and best bidder.

No member, officer, or employee of the Board shall be directly or indirectly interested in any contract with the Board of Registration Commissioners of the city.

§ 12. The Board shall never, to any extent or under any device, in one year anticipate or create a charge upon the income of a future year, and no work done or supplies furnished shall be made a charge upon the income of a future year.

§ 13. There shall be conducted under the supervision of the Board in every city of the first class a general initial registration in each precinct of said city, on the 23rd and 24th days of June, 1930, in the manner hereinafter provided, which shall form the basis of the records to be established and kept at the office of the Board.

After said general initial registration on the 23rd and 24th days of June, 1930, all further registration or changes of registration shall be made at the permanent or temporary offices of the Board in the manner herein provided.

§ 14. The officers of registration for the general initial registration to be held on the 23rd and 24th days of June,

1930, shall be a deputy registrar and an inspector for each precinct in said city.

Such officers of registration shall be residents of the city, and no person shall be eligible as an officer of initial registration who has been convicted of felony or is under indictment therefor, or who is not sober, temperate, discreet and of good demeanor, or who is a candidate to be voted for at the next election, or who is not capable of reading the Constitution of Kentucky in English and of writing a plain, legible hand; and it shall be the duty of the Board to determine the qualifications of said registration officers before appointment.

The city executive committees shall each, on or before the 3rd day of June, 1930, submit to the Board in writing a list of not less than two names for each of the precincts of the city, and from these names, if they are so designated, the officers of registration shall be appointed by the Board within ten days, as follows: one deputy registrar and one inspector shall be appointed for each precinct. In the odd numbered precincts the deputy registrar shall be a member of one of the political parties entitled to submit lists, and in the even numbered precincts the deputy registrar shall be a member of the opposite political party. The inspector for each precinct shall be of the opposite party affiliation from the deputy registrar. If either or both city executive committees fail to submit lists as hereinabove provided, the Board shall select the officers of registration in such manner that the deputy registrar and the inspector in each precinct shall be of opposite political affiliations.

Each deputy registrar and each inspector serving at the general initial precinct registration shall receive as compensation the sum of five dollars per day for each day he is required to register voters, to be paid by the Board.

The Board shall have the power to remove all registration officers who are or may become disqualified under the provisions of this Act or who, during the progress of such

registration, appear to the Board to be unable or unwilling to perform their duties expediently and efficiently. Such vacancies shall be filled by the Board in its discretion, but in such manner, as far as the exigency permits, so as to have representation in each precinct for each of the political parties above referred to.

The Board shall by mail give due notice of their appointment to all persons appointed as deputy registrars or inspectors for the initial precinct registration, and the persons so appointed shall, within three days after the mailing of such notice, call at the office of the Board for their credentials and take oath that they will faithfully perform the duties of registration officers according to law. In the event of any of the persons so appointed fail to call for their credentials within the time specified above, the Board may appoint from the lists which have been submitted other officers of the same political affiliations to fill such vacancies, and in the event no such lists have been submitted the Board may appoint such persons as it deems fit to fill said vacancies.

Should any of the officers of registration fail to attend for thirty minutes after the time set for commencing the said initial registration, or refuse to act, or delay the registration either intentionally or unintentionally, the Board shall appoint some qualified person, of the same political party as that to which the person belonged who failed to attend, or refused to act, or delayed the registration, to act in the place of such officer. The Board may extend the period of registration in such precinct for such time, not to exceed one additional day, as it deems necessary in order to afford ample opportunity for complete initial registration.

§ 15. It shall be the duty of the Board to furnish a suitable and convenient place in each precinct for the general initial precinct registration, and to provide at each place tables and chairs sufficient to accommodate at least five persons.

The registration officers for the general initial precinct registration hereinabove provided for shall, on Monady, June 23rd, 1930, proceed to register the qualified voters in each precinct of said city, and sit for two consecutive days continuously from six A. M. to seven P. M. for that purpose, unless the time be extended by the Board as hereinabove provided for.

The registration officers shall register every person who shall apply to be registered, provided such applicant furnishes the information required to be given hereunder and makes oath on the form prescribed by the Board that he possesses the legal qualifications for registration.

Every person so applying to be registered shall be required to sign his name, upon two registration record forms, which signature shall be attested by the deputy registrar and inspector of such precinct. One of said registration record forms shall be entirely filled out with all of the information called for upon said form before the signature and oath of the registrant is made, but only the signatures of the registrant, the deputy registrar and the inspector shall appear on the duplicate form.

The deputy registrar or the inspector shall enter on said registration record form, in the places provided therefor, the name of the person applying for registration, his address, color, sex, apparent height, weight, party affiliation, occupation, if any at the time of registration, birthplace, mother's name, together with any distinguishing physical characteristic the registrant may have as additional means of identification and whether such person is over the age of twenty-one years, and if naturalized when and where, and the date of such registration.

In the event any person applying for registration states under oath that he cannot write his name, the deputy registrar or inspector shall sign the registration record forms for such person, and such person shall sign said records by making his

mark thereon and the deputy registrar and inspector shall attest the same.

It shall be the duty of the deputy registrar in each precinct to return the individual registration records which have been signed as herein provided, and all unsigned pages, cards, blanks, forms and paraphernalia to the Board not later than two days after the holding of said general initial registration.

§ 16. Each city executive committee shall have the right to appoint one observer of registration in each precinct for said initial registration, by certifying the name of such observer in writing to the officers of registration of such precinct; and it shall be the duty of the officers of registration to permit such observer to remain in the place where such registration is being conducted solely for the purpose of observing the registration and copying the names and addresses of persons registered, together with such other information as may be desired.

§ 17. From and after the time the office of the Board is open to the public, the registrar and assistant registrar appointed by the Board, and such deputy registrars as the Board shall appoint shall register every person who shall apply in person at the permanent or any temporary office of the Board to be registered, provided such applicant furnishes the information required to be given by registrants under the provisions of paragraph No. 15 hereof and makes written oath on the form prescribed by the Board that he possesses the legal qualifications for registration; and the said registrar, assistant registrar and deputy registrars shall perform all the duties with respect to filling out the original registration form and the form signed by the applicant in blank, as are imposed upon the deputy registrars and inspectors at the original precinct registration under the provisions of Section 15 hereof, and said records shall be attested by two employes of the Board of opposite political affiliations. Provided, however, that no person shall have the right to register during the

period of 65 days in every year commencing 59 days next preceding any election held in November of any year.

§ 18. As soon as possible after the completion of the general initial precinct registration herein provided, but not later than July 30, 1930, the Board shall cause four typewritten or photostatic copies of the registration form of each person who registered thereat to be made. One of said copies shall be typewritten on the form signed in blank by the registrant as hereinabove provided. The original record and the copy thereof signed by the registrant shall be filed in locked binders or card files, by precincts, in such systematic order as the Board shall prescribe and shall constitute the precinct registers to be used as hereinafter provided. Another copy of said records shall be filed in locked binders or card files, without regard to precincts, in alphabetical order for the entire city, to be used as hereinafter provided. In addition, the Board shall furnish one copy of each of said registration records to each of the city executive committees as soon as same are completed.

The same number of copies shall be made of the registration records of all persons registered after the general initial precinct registration, and said copies shall be filed and disposed of in the manner hereinabove provided.

§ 19. Upon each primary, special or general election one set of the precinct registers containing the typewritten copies of the registration records signed by the voters, after having first been securely locked in the binders or containers provided therefor by the Board, shall be turned over to the regularly appointed clerks of election of each precinct for their use in holding said election. Said clerks shall sign receipts for said precinct registers and shall, within two days after such election or primary, return said registers to the office of the Board and secure a receipt therefor.

It shall be the duty of every person applying to vote at every primary, general or special election in any city of the

first class beginning with the general election in the year 1930, to sign his name in full upon a card prepared for that purpose, for comparison with such person's signature on the registration records and identification of such person as a registered voter. Said comparative signature cards shall be furnished and paid for in the same manner as other election paraphernalia and supplies are now furnished and paid for, and shall be preserved and retained by the election officers and by them delivered to the Board of Registration Commissioners, together with the precinct registers, within two days after any primary or election. Said Board shall preserve and retain said comparative signature records for such length of time, not less than six months, as it shall deem necessary.

Before a ballot shall be issued to any person applying therefor at any primary, general or special election, such person shall sign his name upon a comparative signature card, unless such person signed his registration record by making his mark, and it shall be the duty of the officers of election in that precinct to compare the signature of every such person with the signature of said person on the registration record form in the precinct register. The challengers of the respective political parties present shall also have the right to compare said signature at the same time said comparison is made by the officers of election. If such comparison of signatures shall create a doubt in the minds of two of the election officers, as to whether the person applying to vote is the same person as the registrant, no ballot shall be issued to him unless he shall otherwise satisfactorily establish his identity as the registrant.

In the event any person applying to vote at any election shall state that he can not sign his name as above provided, the judges of election in that precinct shall immediately swear such person as to his name and his inability to write, and thereupon the judges and the challengers of the respective political parties shall examine the registration record in the

precinct register, and if it is shown by said record that the person of that same name signed his name on the registration record, a ballot shall not be issued to the person so applying, unless the inability of such person to sign his name at the date of such election is due to some physical disability arising subsequent to his registration.

It shall be the duty of the election officers to make, keep and return to the Board a record or record sheets to be provided in the same manner as other election paraphernalia are provided, of each person so sworn, and showing the disposition made of each such case.

It shall be the duty of the clerk in each precinct, immediately after the issuing of a ballot to any voter, at the general election to be held in 1930 and at every primary and election held thereafter, to indicate at the place provided therefor on the registration record form that such person voted at such primary or election.

§ 20. Whenever the boundaries of any precinct are changed by law and such change places a registered voter in a new or different precinct, it shall be the duty of the Board to transfer the individual registration record of such voter to the precinct register for the precinct in which such voter is placed by such change of boundaries. Said transfer shall be made automatically, without any application therefor by the voter.

The date on which said change is made and the reason therefor shall be noted on the individual's registration record so transferred, and same shall also be noted on same registrant's card kept in the record file arranged alphabetically for the entire city, and a notice thereof shall be mailed by the Board to each voter whose record is transferred, advising him thereof and the reason therefor.

§ 21. Any voter may at any time apply to the Board, in person or by letter signed by the voter, to have his registration or party affiliation changed. Thereupon it shall be

the duty of the Board to mail a notice to the address of said voter of record in the office of the Board, stating that such application has been made and the particulars thereof and that said change will be made unless protest is filed at the office of the Board within five days from the date of said notice. In the event no protest is filed within said five-day period, the Board shall, upon expiration thereof, change the registration or party affiliation of such voter as requested; but if protest is filed, no such change shall be made until the Board has investigated the matter and given the protestant an opportunity to be heard.

The date on which any such change in the registration or party affiliation of any voter is made shall be noted on the individual registration record of such voter in each of the three registers maintained by the Board.

§ 22. Any voter who changes her name, by marriage or otherwise, shall be required to register anew, and the old registration record of such voter shall be marked "Cancelled. Name changed to ————————" (the new name being inserted in the blank space therefor), and said old record shall then be placed in the canceled registration file and the copies thereof disposed of as hereinafter provided.

§ 23. The Board shall preserve for a period of not less than five years the original of all canceled registration records in a separate file, and said records shall be filed and arranged in alphabetical order for the entire city according to the last name of the person registered thereon.

Said file shall be designated the "Canceled Registration File."

When a registration record is canceled, the original record and the Board's copies thereof shall be marked in large letters in ink "Canceled", and there shall also be noted thereon in ink the date of and the reason for such cancellation. The original of such record shall be preserved as above provided, and the Board shall, on the first day of each

week, transmit one of its copies of each registration record canceled during the preceding week to each of the city executive committees.

§ 24. The following methods shall be used to purge the registration records and keep them corrected up to date:

(a) It shall be the duty of the Bureau of Vital Statistics of the State Board of Health located in any city of the first class to furnish on Monday of each week to the Board of Registration Commissioners of said city an official and certified report containing the names and addresses of all persons whose deaths, occurring in said city during the week immediately preceding, have been reported to said Bureau; likewise, it shall be the duty of the Clerk of the Circuit Court of the circuit in which any city of the first class is located to furnish on Monday of each week to the Board an official and certified report containing the names and addresses of all persons who have during the week immediately preceding been adjudged insane or convicted of treason, or felony, or bribery in an election, or of such high misdemeanor as the General Assembly shall have declared to operate as an exclusion from suffrage and the offense of which each person was convicted; likewise, it shall be the duty of the Clerk of the County Court of the county in which any city of the first class is located to furnish on Monday of each week to the Board an official and certified report containing the names and addresses of all persons whose names have been changed by marriage, as evidenced by certificates returned to said Clerk during the week immediately preceding by the persons solemnizing said marriage in accordance with the provisions of Section 2107 of the Kentucky Statutes.

Immediately upon receipt of such lists of deaths, adjudications of insanity, convictions, and changes of name by marriage, it shall be the duty of the Board to mail a notice to every person whose name is included in any of said lists, at the address appearing on the registration record of such

person in the office of the Board, stating that the registration of such person will, unless protest is filed within five days from and including the date of such notice, be canceled, and the reason therefor. If no protest is filed within said time, the registration record of such person shall be canceled. If protest is filed within said time, the Board shall investigate the matter, and shall not cancel such record until after the protestant has been given an opportunity to be heard.

(b) The failure of any person registered as herein provided to vote at any primary or election for two consecutive years as shown by the voting record of such person on his registration record, shall be *prima facie* evidence that such person is no longer entitled to registration.

The Board shall, in January of each year, cause a check of all registration records to be made and a list prepared of all persons whose registration records indicate that such persons have failed for two consecutive years to vote at any primary or election, and shall mail a notice to each person on said list, stating that this registration will, unless protest is filed within five days from the date of said notice, be canceled, and the reason therefor. If no protest is filed within said time, said registration shall be canceled. If protest is filed, said Board shall make an investigation, and shall not cancel said registration if said person is legally entitled to registration.

(c) Whenever any elector who is registered as herein provided moves out of the precinct in which he is registered to a different precinct in said city, it shall be his duty to make and sign an application to have his registration record changed and transferred to the proper precinct, and deliver same to the office of the Board, in person, by mail, or otherwise.

It shall be the duty of all gas, water, electric light and telephone companies operating in any city of the first class to furnish, on Monday of each week, to the Board of Registra-

tion Commissioners of said city an official and certified report containing the names of all persons ordering in new gas, water, electric light or telephone service, during the week immediately preceding, together with the addresses at which such service is ordered; also a list of all persons who have during the previous week ordered the discontinuance or removal of gas, water, electric light or telephone service, together with the addresses at which such service was ordered removed or discontinued. Such information shall be treated as confidential by the Board and used by it only for the purpose of correcting its records as herein provided.

It shall be the duty of the police and any other city department of each city of the first class to furnish the Board, on Monday of each week, with the names and addresses of all persons who have, to the official knowledge of such department, moved during the preceding week.

The Board is authorized, upon the application of any elector, or upon the basis of information furnished by the public utility companies operating in said city or the city departments, above provided for, or upon the basis of reliable information obtained from or furnished by the Post Office or any other department of the United States, State, County or City Government, or individual persons, or private or public institutions, or city directories, to transfer the registration record of any elector to the precinct where same belongs; provided that no person's registration shall be transferred unless notice has been sent to such person, by mail, addressed to him at the address appearing on the existing registration records, stating that his registration will, unless protest is filed within five days, be transferred, and the reason therefor, nor until after said five-day period has expired; and in the event protest is filed against such transfer or registration, the Board shall investigate the matter and no action shall be taken until after the protestant has been given an opportunity to be heard.

(d) It shall be the duty of the Board to cause to be made a house to house canvass in each precinct of said city in each year, for the purpose of checking the registration records. Said canvass shall be made jointly by two investigators in each precinct. One of said investigators in each precinct shall be appointed by the Board from lists of three names per precinct to be submitted in writing by one of the city executive committees, and one in each precinct from lists of three names per precinct to be submitted in writing by the city executive committee of the opposite political party. Said list shall be submitted ten days in advance of the date specified herein for the commencement of said canvass; and in the event either committee fails to submit a list or lists within said time, then the Board shall appoint the investigators to represent the party failing to furnish such list or lists, in its own discretion, from persons registered as members of that party. The Board shall have the right, in its discretion, to remove any investigator and to appoint a substitute from the lists submitted as above provided, or, in the event no lists have been submitted or all the names thereon have been exhausted, to appoint any person registered as a member of the same political party as the investigator who is removed. All appointments from said lists shall be made by the Board in the order in which the names appear thereon.

Said canvass shall be made during the first two weeks of the period of 59 days next preceding the general election held in the year 1930 and each year thereafter.

The Board shall prepare and furnish each investigator with a list of the names and addresses of the registered voters in the precinct which he is to investigate, arranged in convenient order to facilitate the investigation.

The investigators appointed as aforesaid for each precinct shall make a written report to the Board, not later than the last day of the said two weeks period, giving the name and addresses of all persons registered in said precinct who are

legally entitled to vote at the election to be held in such year. Where the reports of the investigators in any precinct agree that any person registered in said precinct is not legally entitled to vote at the election to be held in such year, the Board shall make such changes, transfers and cancellations in the registration records in its possession as may be necessary to make said records correspond with the reports made by said investigators and correct up to date; provided that no such change shall be made until after notice has been mailed to the person affected, at the address appearing upon his registration record on file in the office of the Board, stating that it is the intention of the Board to change, transfer or cancel his registration unless protest is filed within five days, nor until after the expiration of said five-day period; and in the event protest is filed, no such change shall be made until after the protestant has been given a reasonable opportunity to be heard.

The investigators hereinabove provided for shall be paid by the Board such compensation, not exceeding five dollars per investigator per precinct, as the Board shall determine.

(e) Any citizen of such city or either city executive committee shall have the right to challenge the registration of any voter registered as herein provided for. Such challenge shall be in writing, specifying the name and address of the challenged voter, the grounds of challenge, and shall be signed by the challenger. Such challenge shall be filed not later than five weeks prior to any election, at the office of the Board, and the Board shall conduct a hearing thereon at such time as it may fix, after notice has been served by an employee of the Board upon the challenged voter, by delivering or offering to deliver a copy of said notice to said voter in person or if said person can not be found at his place of residence as shown by his registration record, by leaving a copy thereof with any person over the age of sixteen years residing in the same family with the said voter, or, if no such person be there, by

affixing a copy of said notice to the front door of such place of residence. The person who serves such notice shall return a copy thereof to the Board, with an endorsement thereon stating when and how it was served, and if a copy of it was not delivered to the person to whom it was directed, the endorsement must state the facts authorizing the manner of service adopted. Such endorsement shall be signed by the person serving said notice, and shall be proof of service.

The Board shall investigate each case before a hearing is held. The failure of any elector against whom a notice of challenge has been served as provided herein to appear shall be *prima facie* evidence that he is not entitled to registration, and his registration record shall be canceled. Appeals from the actions of the Board may be taken in the manner hereinafter provided.

(f) It shall be the duty of the Board to make and keep a record of all changes and transfers of registration, and, on the first day of each week, to furnish each of the city executive committees a list of such changes and transfers made during the preceding week.

§ 25. When any person is aggrieved by any act of the Board in respect to his registration, or when any person or executive committee that has challenged the registration of any voter is aggrieved by any act of the Board in respect to the registration of such person, such person or such committee so aggrieved shall have the right to apply to any judge of the circuit court of the county in which such city is located, with a written statement, on printed forms to be furnished by the Board, of the act of the Board and the grounds of his, or its, complaint. Before such application is made, written notice shall have been given to the Board setting out the name of the judge before whom, and the time and place at which such application will be made, and the grounds therefor, so as to give the Board a reasonable opportunity to be present at such time and place. The judge to whom such application

is made shall at the time fixed in the notice, or a subsequent time appointed by the said judge, summarily decide the question presented and endorse on the statement of complaint an order disposing of the same. The action of said judge in such case shall be final, and upon return of the statement of complaint, with the order of the judge disposing of same endorsed thereon, to the permanent office of the Board, the Board shall correct its records in accordance with such order.

§ 26. In addition to the registration records proper, herein provided for, the Board shall keep and maintain adequate and systematic records of its official actions, financial accounts and such other matters as the Board deems necessary or desirable.

It shall be the duty of the Board to keep the registration records herein provided for safely in its office, and not to suffer same to be taken therefrom except as herein provided for, or on the order of any court for the purpose of using same in any trial or proceeding.

The Board shall permit any citizen, at such time or times as the office is open to the public and as will not interfere with the proper conduct of said office, to copy any registration record without fee or charge. Copies of registration records made and furnished by the Board, except those furnished the city executive committee as herein provided, shall be paid for by the person ordering and receiving same, at the rate of ten (10c) cents per copy for each individual registration record so copied. The fees so collected by the Board shall be used for the purpose of the Board.

In the event the original of any individual registration record is lost, or destroyed by fire or otherwise, or is mutilated, blotted or otherwise in such condition as to render it difficult, troublesome or unsafe to use said record any longer, it shall be the duty of the Board to cause a new registration record to be made, in such manner as it deems necessary, to

supply said deficiency, consistently with the provisions of this Act.

§ 27. The registration records now existing in cities of the first class in the State of Kentucky are hereby declared to be null and void and canceled from and after the date of the primary to be held in August, 1930, at which primary said records shall be used, and a registration for said primary shall be held as now provided under Chapter 64 of the Acts of 1924. Said registration records or books shall be delivered by the officials in whose charge and possession they now are to the Board of Registration Commissioners of such cities herein created immediately after said August primary in 1930. The Board shall preserve said old records, for the purposes of reference and such other purposes as may be necessary, for a period of not less than two years, after which same may be destroyed in the discretion of the Board.

§ 28. Any person who shall knowingly cause himself to be registered in more than one election precinct, or registered more than once, or who shall cause himself to be registered knowing that he is not lawfully entitled to register, or shall make a false oath as to his ability to read or write, and any person who shall aid or abet any other person in the commission of any of said acts, shall be deemed guilty of a felony, and upon conviction thereof shall be fined not less than two hundred dollars nor more than one thousand dollars, or imprisoned in the penitentiary not less than one nor more than five years, or both so fined and imprisoned.

§ 29. Any officer of registration, or member, officer or employee of the Board of Registration Commissioners, or election officer or other person who shall unlawfully alter any registration record of any city of the first class, or add any name thereto, or who shall willfully secrete, suppress or destroy any such record or records, or who shall make any false or fraudulent registration record and any person who shall aid or abet any other person in the commission of any

of said acts shall be deemed guilty of a felony, and upon conviction thereof shall be fined not less than two hundred dollars nor more than one thousand dollars, or confined in the penitentiary not less than one nor more than five years, or both so fined and imprisoned, and shall forfeit any office he then holds and be forever disqualified from holding office.

§ 30. Any registrar, deputy registrar or inspector of registration or other city, state or county officer, or employee who shall willfully fail to peform his duties as set forth in this Act, shall be guilty of a misdemeanor, and upon conviction thereof be fined not less than ten dollars nor more than one hundred dollars for each offense.

§ 31. Any person who shall, by himself or in aid of others, forcibly break up or attempt to break up the initial registration in any precinct, or disturb, intimidate, abuse, or, by force or other unlawful means, delay or disturb any officer of registration while performing his official duties, or intimidate, abuse or, by force or threats, attempt to prevent any lawful registrant from registering, or approaching or entering a place of registration, shall be guilty of a misdemeanor, and upon conviction thereof shall be fined not less than one hundred dollars nor more than five hundred dollars, or imprisoned in the county jail for not less than six months nor more than twelve months, or both so fined and imprisoned.

§ 32. This Act and each of its various sections, paragraphs, clauses, and sections, shall be liberally construed in favor of the purposes of this Act.

§ 33. If any section, paragraph, clause or separable provision of this Act should be adjudged to be unconstitutional, such decision shall not affect or render unconstitutional any other section, paragraph, clause or separable provision of the Act, it being the intention of the General Assembly in enacting this Act to enact each section, paragraph, clause and provision separately.

§ 34. All laws or parts of laws, relating to the registration of voters in cities of the first class in this State, in conflict with the provisions of this Act are hereby repealed.

§ 35. Whereas, it is necessary to organize and establish the office of the Board of Registration Commissioners in cities of the first class, and to make all necessary preparations for the registration of voters in such cities prior to June 23, 1930, and the time within which to do these things is so limited an emergency is hereby declared to exist and this Act shall become effective from and after the date of passage and approval.

Mr. Francis moved that the vote by which said bill was passed be reconsidered and that said motion lie on the table.

Said last named motion was agreed to.

The House took up for consideration from the Orders of the Day a bill entitled:

H. B. 39. An Act to authorize the contest of any election upon bond issues or public questions submitted to the voters of any county, city or district, by an action in the circuit court of the couty where such election was held, and to provide the practice and procedure, and the character of judgment that may be rendered.

Said bill is as follows, viz.:

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

§ 1. Any qualified elector may, as herein provided, contest an election, or demand a recount of ballots cast, on any bond issue or other public question that may be submitted to the voters of any county, city or district, for their approval or rejection. Any elector having the right to vote on the question submitted, and having voted thereon, may, within thirty days after the election, file a petition against the county, city or district in which the election was held setting forth grounds of the contest, or reasons for requesting a recount, with the circuit clerk of the county in which the election was held. The grounds of contest may be the casting of illegal votes, the exclusion of legal votes, the unfair or illegal conduct of the election, tampering with the returns, or the altera-

tion of the certificates of the results, or bribery, fraud, intimidation or corrupt practices, or upon any ground tending to frustrate, obstruct or interfere with the free expression of the will of the voters. The circuit court of such county shall forthwith order the County Board of Election Commissioners and the county clerk in the county involved in such contest to preserve and hold the ballots cast at such election on such question subject to the order of the circuit court. Notice shall be given by posting a copy of the petition at the courthouse door and at one or more public places in the county, city, or district in which the election was held, and a summons shall be served on the defendant as in equity actions.

§ 2. If the circuit court of the county in which the contest is filed be not in session at the time of the filing of such petition, the clerk of the court shall immediately notify the judge thereof of the filing of such petition, and the court or the judge thereof, if the court be not in session, shall within five days after the filing of such petition determine whether there are sufficient grounds stated to justify such contest, and shall thereupon require the contestants to give bond for costs, and fix a time for the defendant to answer, not exceeding twenty days. If the county, city or district affected shall fail to defend said action, any elector may become a party defendant thereto by filing an answer or other proper pleading and by giving security for the costs in an amount to be fixed by the court. The time in which such application may be made by an elector to become a defendant shall not exceed thirty days from the filing of the action, and any such elector may join and assist the defendant in resisting the action by filing application so to do and by giving security for such proportion of the costs as may be adjudged against him.

§ 3. If a recount of the ballots is requested, the procedure therefor shall be as follows:

(a) Upon the giving of notice as above provided, and after the court has determined that the petition presents sufficient grounds, the judge of the circuit court in the county

involved in the contest shall immediately order the ballots of the precincts in which the recount is demanded sent to the courthouse of said county, in such manner as said judge may designate, and said judge shall designate two commissioners to assist him in such recount, one of whom shall represent the contestant or contestants and one the contestee or contestees. The attorney representing the contestant and the attorney representing the contestee may be present at all hearings and at such recount of the ballots.

(b) The court shall pass on all disputes respecting ballots and shall ascertain the result of said election after counting all legal ballots. If it shall appear that the result as certified is not correct, the correct result shall be ascertained and declared by the court and certified to the canvassing board, and the judgment shall supersede the official returns and be given full effect. If it appears to the satisfaction of the court that the election, or the returns thereof, were materially affected by fraud, duress, bribery, intimidation or corrupt practices, the entire election and the returns thereof shall be declared void and ineffective for any purpose. Costs shall follow the judgment as in equity cases.

§ 4. The circuit court of the county in which the contested election was held shall have exclusive jurisdiction to hear and determine all matters in contest cases filed under the provisions of this act, and an appeal to the Court of Appeals may be prosecuted by the unsuccessful party in the same manner as now provided by law for appeals in other contested election cases. But no appeal to the Court of Appeals shall lie from the recount of the ballots, provided that any questioned ballots may be made a part of the record and the ruling thereon by the circuit court reviewed, revised or reversed by the Court of Appeals.

§ 5. All laws and parts of laws in conflict herewith are hereby repealed.

Ordered that said bill be read the third time.

The constitutional provision as to the third reading of said bill at length being dispensed with, said bill was read the third time by its title and passed.

S. Res. 6. Resolution providing for printing and distribution of message of Governor.

Thereupon all other business was suspended, said bills and resolution were read at length and compared in open session and found to be correctly enrolled, and thereupon the Speaker, in open session and in the presence of the House, affixed his signature thereto.

Ordered that said bills and resolution be delivered to the Enrolling Clerk of the Senate.

A message was received from the Senate announcing that they had passed a bill which originated in that body of the following title, viz.:

S. B. 270. An Act to regulate aviation; to provide for the licensing and registration of airmen and aircraft, to make appropriations for the Air Board of Kentucky.

Ordered that said bill be printed and referred to Committee on Military Affairs.

The House took up for consideration from the Orders of the Day a bill entitled:

H. B. 128. An Act appropriating Four Hundred and Seventy-five Dollars ($475.00) to M. Livingston and Company on account of overpaid license taxes.

Said bill is as follows, viz.:

Whereas, M. Livingston and Company, a domestic corporation of Kentucky, paid to the State of Kentucky, through the Tax Commission for years commencing 1918 up to and including the year 1926, special license taxes to the amount of Four Hundred and Seventy-five ($475.00) Dollars in excess of the amount due as follows:

For the year 1918	$25.00
For the year 1919	25.00
For the year 1920	25.00
For the year 1921	37.50
For the year 1922	37.50

For the year 1924	37.50
For the year 1925	125.00
For the year 1926	125.00

And, Whereas, there is now no provision of law by which said erroneous and excessive payments may be recovered either by an action allowed by the General Assembly or by a direct claim against the State on account of the fact that said claim would be barred by the limitation fixed in Section 166 of the Kentucky Statutes.

And, Whereas, said taxes were never due to the State of Kentucky, but were collected and received by mistake, and there is no way by which the same may be restored to said taxpayer except by a direct appropriation of funds for such purpose. Now, therefore,

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

§ 1. That there be and there is hereby appropriated, for the use and benefit of M. Livingston and Company, out of the Treasury of the Commonwealth of Kentucky, the sum of Four Hundred and Seventy-five ($475.00) Dollars, and the Auditor of Public Accounts is hereby authorized and directed to draw his warrant upon the Treasurer of this State for said sum payable to M. Livingston and Company, and the Treasurer is authorized and directed to pay said warrant in the usual and customary way. Said appropriation and payment to be made on account of overpaid license taxes and fees to the State of Kentucky for the years 1918 to 1926, inclusive; and said appropriation is made for the reason that there is no provision

of law authorizing or allowing the refunding of overpaid taxes at this time.

Ordered that said bill be read the third time.

The constitutional provision as to the third reading of said bill at length being dispensed with, said bill was read the third time by its title and passed.

§ 4. No person shall be entitled to own or have in possession any steel trap with jaws or to use the same for trapping, unless he has first procured license and attached a metal tag to each trap as provided for in this act. Provided, however, that the owner or lessee of land shall not be required to procure such license or tag to trap on his own land within two hundred yards of any house or barn thereon. The license and tags shall be procured from the County Court clerk of the county in which the applicant for same resides, by paying a license fee of $1.00 for each license, which fee shall include one tag, the County Court Clerk to retain 15c of such fee, and the remainder to be forwarded by the clerk to the State Game and Fish Commission. Said motion was agreed to.

Thereupon the House took up for consideration said bill.

Said bill is as follows, viz.:

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

§ 1. That section one thousand nine hundred and fifty-four c-1, Carroll's Kentucky Statutes of 1922 be amended by striking out the word "four," fixing the number of members of the Kentucky Game and Fish Commission, and by inserting in lieu thereof the word "five," so that said section, when amended, shall be re-enacted and read as follows:

"Game and Fish Commission.—A game and fish commission is hereby created; said game and fish commission shall have perpetual succession with power to make and use a corporate seal and with power to alter the same; to adopt by-laws, rules and regulations for the government of its members, agents and employees, provided such by-laws shall not conflict with the constitution of Kentucky. Said commission shall consist of five members, who shall serve without compensation, except for necessary expenses to be paid upon an itemized statement thereof, duly audited by said commission, and shall have an office in the capitol and be supplied with suitable stationery, blanks, and postage for the transaction of its business."

§ 2. That section one thousand nine hundred and fifty-four c-2 of said Statutes be amended by striking out all said section and re-enacting same to read as follows:

"As the terms, now fixed by law, for members of said Game and Fish Commission expire, the Governor shall appoint, from the lists hereinafter provided for, two commissioners to serve terms of four years, respectively, and shall from such lists appoint the fifth commissioner within sixty days from the time this act goes into effect for a term of three years, and thereafter as any of such terms shall expire shall

in like manner appoint their respective successors for a term of four years, and whenever a vacancy or vacancies occur by death, resignation, removal from the county, operation of law, or otherwise, the Governor shall, in like manner immediately appoint some competent person or persons to fill such vacancy or vacancies. The person or persons so appointed shall hold office for the unexired term, provided that not more than two members shall be residents of any one county.

"Said Game and Fish Commission shall meet quarterly at its office, and as much oftener as may be necessary. Special meetings of the commission may be called by the chairman at any time and must be called by him on the written request by registered mail of two or more members of the commission within five (5) days after receiving such written request.

"All appointments of members of said commission for a full term or to fill a vacancy shall be from a list of six names furnished for each appointment, recommended by the annual state convention of the Izaak Walton League of Kentucky, Kentucky Fox Hunters' Association, and the Kentucky Game and Fish Protective Association, each of said organizations being privileged to name two persons on each of said lists, provided that in the event the annual State convention has for any reason failed to name and recommend two persons on any of said lists, the governing board of such organization may nominate and recommend such names with the same force and effect as if named and recommended by such annual State convention.

"As vacancies occur in the membership of said Game and Fish Commission in the year 1930 and thereafter, the Governor shall by registered mail notify the president of each of the above organizations of said vacancies and said organizations shall submit to him their lists within thirty (30) days after the date on which said notices are mailed, and the Governor shall make such appointments within thirty (30) days thereafter. Should said organizations, or any of them, fail to submit said lists within the prescribed time, then in that

event the Governor may make appointments to fill said vacancies, without reference to said lists."

§ 3. That section one thousand nine hundred and fifty-four c-5 of said Statutes be amended by striking out all of said section and re-enacting same, as amended as follows:

"At the expiration of the term of the present executive agent, said Game and Fish Commission by a majority vote, at least three members concurring, shall elect a suitable person as an executive agent, who shall devote all of his time to the discharge of his duties; and shall receive compensation therefor in an amount to be fixed by said Game and Fish Commission. Said executive agent shall perform such duties as may be required of or assigned to him by the commission, and shall at all times be under the control and subject to the orders of said commission. Before entering upon the discharge of his duties he shall give a bond to the State of Kentucky, with sureties or security to be approved by said commission, in the penal sum of Fifteen Thousand Dollars ($15,000.00) conditioned for the faithful discharge of his duties and accounting of all state property coming into his hands, which bond shall be filed with the Secretary of State. The premium on said bond shall be paid by the commission."

Mr. Page moved that the reading of the Journal of Friday's proceedings be dispensed with.

Said motion was agreed to.

The hour of one-thirty o'clock having arrived, that being the hour for the Special Orders of the Day, to-wit, a bill entitled:

H. B. 240. An Act to provide for the sexual sterilization of inmates of State Institutions in certain cases and to provide for procedure to protect the rights of such inmates.

The House took up for consideration from the Orders of the Day, said bill.

Said bill is as follows, viz.:

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

§ 1. Whenever the Superintendent or Warden of the State's reformatories or hospitals for the insane or feeble-minded shall be of the opinion that it is for the best interests of the patient or inmate and society that any inmate of the institution under his care should be sexually sterilized, such superintendent or warden is hereby authorized to cause to be performed by some capable physician or surgeon the operation of sterilization on any such patient or inmate confined in such institution afflicted with insanity, idiocy, imbecility, feeble-mindedness, epilepsy or habitual criminality; provided that such superintendent or warden shall have first complied with the requirements of this act.

§ 2. Such superintendent or warden shall first present to the trustees or managers of his hospital or reformatory a petition stating the facts of the cause and the ground of his opinion, verified by his affidavit to the best of his knowledge and belief, and praying that an order may be entered by said trustees or managers requiring them to have performed by some competent physician to be designated by him in his petition or by said trustees or managers in their order upon the inmate of his institution named in such petition, the operation of vasectomy if upon a male and salpingectomy if upon a female.

A copy of said petition must be served upon the inmate together with a notice in writing designating the time and place in the said institution, not less than thirty days before

the presentation of such petition to said trustees or managers when and where said trustees or managers may hear and act upon such petition.

A copy of said petition and notice shall also be served upon the legal guardian or committee of the said inmate if such guardian or committee be known to the said superintendent or warden and if there be no such guardian or committee or none such be known to the said superintendent or warden, then the said superintendent or warden shall apply to the Circuit Court of the County or City in which his said institution is situated, or to the judge thereof in vacation, who by proper order entered in the common law order book of the said court shall appoint some suitable person to act as guardian of the said inmate during and for the purpose of proceedings under this act, to defend the right and interests of said inmate, and the guardian so appointed shall be paid by the said institution a fee not exceeding fifteen dollars as may be determined by the judge of the said court for his services under said appointment and such guardian shall be served likewise with a copy of the aforesaid petition and notice. Such guardian may be removed or discharged at any time by the said court or the judge thereof in vacation and a new guardian appointed and substituted in his place.

If the said inmate be an infant having living parents whose names and addresses are known to said superintendent or warden, they or either of them as the case may be shall be served likewise with a copy of the said petition and notice aforesaid.

The said trustees or managers may receive and consider as evidence at the said hearing the commitment papers and other records of the said inmate in any of the aforesaid named institutions as certified by the superintendent or warden thereof, together with such other legal evidence as may be offered by any party to the proceedings.

Any member of said trustees or managers shall have power to administer oaths to any witnesses at such hearings.

Depositions may be taken by any party after due notice and read in evidence if otherwise pertinent.

The said trustees or managers shall preserve and keep all record evidence offered at such hearing and shall have reduced to writing in duplicate all oral evidence so heard to be kept with its records.

Any party to the said proceedings shall have the right to be represented by counsel at such hearings.

The trustees or managers may deny the prayer of said petition or if they shall find that the said inmate is insane, idiotic, imbecile, feeble-minded, epileptic or habitually criminal, and by the laws of heredity is the probable potential parent of socially inadequate offspring likewise afflicted, that the said inmate may be sexually sterilized without detriment to his or her general health, and that the welfare of the inmate and of society will be promoted by such sterilization, the said trustees or managers may order the said superintendent or warden to have performed by some competent physician to be named in such order upon the said inmate after not less than thirty days from the date of such order, the operation of vasectomy if a male or of salpingectomy if a female; provided that nothing in this act shall be construed to authorize the operation of castration nor the removal of sound organs from the body.

§ 3. From any order so entered by the said trustees or managers the said superintendent or warden or the said inmate or his or her committee or guardian or parent or next friend shall within thirty days after the date of such order have an appeal of right to the Circuit Court of the County or City in which the said institution is situated, which appeal may be taken by giving notice thereof in writing to any member of the said trustees or managers and to the other parties to the said proceeding, whereupon the said superintendent or warden shall forthwith cause a copy of the petition, notice, evidence and orders of the said trustees or managers certified by the chairman or in his absence by any other member

thereof, to the clerk of the said Circuit Court, who shall file the same and docket the appeal to be heard and determined by the said court as soon thereafter as may be practicable.

The said Circuit Court in determining such appeal may consider the record of the proceedings before the said trustees or managers, including the evidence therein appearing together with such other legal evidence as the said Court may consider pertinent and proper that may be offered to the said Court by any party to the appeal.

Upon such appeal the said Court may affirm, revise, or reverse the orders of said trustees or managers appealed from and may enter such order as it deems just and right and which it shall certify to the said trustees or managers.

The pendency of such appeal shall stay proceedings under the order of the trustees or managers until the appeal be determined.

§ 4. Any party to such appeal in the Circuit Court may within thirty days after the date of the final order therein apply for an appeal to the Court of Appeals which may grant or refuse such appeal and shall have jurisdiction to hear and determine the same upon the record of trial in the Circuit Court and to enter such order as it may find that the Circuit Court should have entered.

The pendency of an appeal in the Court of Appeals shall operate as a stay of proceedings under any orders of the said trustees or managers or of the Circuit Court until the appeal be determined by the said Court of Appeals.

§ 5. Neither any of said superintendents or wardens nor any other person legally participating in the execution of the provisions of this act shall be liable either civilly or criminally on account of said participation.

§ 6. Nothing in this act shall be construed so as to prevent the medical or surgical treatment for sound therapeutic reasons of any person in this state, by a physician or surgeon

licensed in the state, which treatment may incidentally involve the nullification or destruction of the reproductive functions.

Mr. Dunn moved that the House do now recess for one hour for the purpose of hearing Dr. Bell of Lynchfield, Virginia and Dr. Anderson of Lexington, Kentucky discuss the merits of said bill.

Said motion was agreed to.

Thereupon the House recessed.

The hour of two-thirty o'clock having arrived, the Speaker resumed the Chair and called the House to Order.

Thereupon the House resumed consideration of the bill aforesaid.

Mr. Terry offered the following Amendments to said bill, viz.:

Amend H. B. 240 by changing the title from Sterilization Bill to the Dunn Bill in honor of the author.

Amend H. B. 240 by striking out in its entirety the following words in Sec. 1, line 9 and thereafter where ever they occur, "habitual criminality."

Amend H. B. 240 by striking out the following words in Sec. 2, line 1 and 2 and thereafter wherever they occur "Trustees or managers of his hospital or reformatory" and inserting in lieu thereof the following words "Circuit Judge of the district wherein the institution is located and said judge shall order the sheriff of said county to summon a jury of 12 men by due process of law and said jury shall be the sole judge as to whether or not sterilization shall be practiced on any inmate from the institutions mentioned."

Said Amendments were disagreed to.

Mr. Dennington moved the Previous Question.

Thereupon the Speaker announced "Shall the main question be now put?"

Which was decided in the affirmative.

Mr. Thompson offered the following Amendment to said bill, viz.:

Amend H. B. 240 by striking out Section 5 on page 5.

Said Amendment was disagreed to.

Ordered that said bill be read the third time.

The Constitutional provision as to the third reading of said bill at length being dispensed with, said bill was read the third time by its title only and passed.

Resolved that the title thereof be as aforesaid.

Mr. Dunn moved that the vote by which said bill was passed be reconsidered and that said motion lie on the table.

Said last named motion was agreed to.

A message was received from the Governor of the Commonwealth of Kentucky, which is in words as follows, viz.:

SPECIAL MESSAGE

To the General Assembly of the Commonwealth of Kentucky:

Inasmuch as the session is rapidly drawing to a close and but little or no real helpful or constructive legislation has

passed both Houses, may I again call your attention to some of the State's vital needs which await your action:

(1) A revenue measure or measures devised so as to be the least burdensome, which will provide funds for,

(a) Free textbooks for our boys and girls;

(b) Rehabilitation of the physical plants of our Charitable and Penal Institutions;

(c) A National Park at Mammoth Cave without diverting funds from roads for that purpose; or, if that cannot be done, then to replace the funds taken from the road department;

(d) Teachers equalization pay fund, so badly needed and without which our worthy, patient and faithful teachers cannot be fairly and adequately compensated;

(e) Equal pay for urban and rural teachers of same grade —country teachers' pay to be raised to that of City teachers;

(f) Maintenance of nine months free public schools in every district throughout the State;

(g) Medical College in connection with one of our State Colleges at which ambitious young men and young women from the Country may become trained physicians for service in our rural communities, so badly needed now;

(h) Liquidation of the floating indebtedness of the State which has accumulated through the last two decades.

Systemize and Vitalize Penal Institutions

I again recommend a reorganization of our Penal system, beginning with authorization of courts to parole those accused or convicted of crime under proper supervision; creation of parole system which will supervise all released prisoners and help them to find employment and to go straight.

Provide a large prison farm where food stuff may be produced for the use of State institutions while inmates are being taught agriculture, gardening, horticulture, dairying, livestock and poultry raising and kindred subjects out in the

open, and on which farm may be established and operated shops, mills and factories in which may be manufactured shoes, clothing, stockings, hats, beds and bedding, furniture, chairs, mops and brooms, auto tags, cement, lime, road markers, road materials, and all such things as the State and its several institutions, including the Colleges and Universities, may need.

This will serve two great purposes:

(1) Save hundreds of thousands of dollars annually to the State in the maintenance of its departments, institutions and Colleges; and,

(2) Teach each inmate one or more useful occupations or trades through which he or she may become a self-sustaining and useful citizen when returned to society.

EMPLOY OUR LABOR AND SAVE

The State is now spending annually millions of dollars in the open market to purchase foods and other supplies such as enumerated above, and which could be produced and manufactured on such a farm and in such shops, with the great army of labor which the State is compelled to confine in its several penal institutions, feed, clothe and lodge, at enormous expense. Why allow our prison labor to waste while we buy that which we should produce? And worse than that, we fail for want of constant systematic employment, to take advantage of the opportunity to reform the unfortunate inmates, rebuild their characters and give them a new outlook on life; teach them a trade or occupation, make them self-sustaining, self-respecting and useful citizens when returned to society.

Soon it will be unlawful to ship prison-made goods in interstate commerce and we cannot, as now, contract our prison labor. What shall we do then if we have not adopted the new system above suggested?

If the inmates, after release from prison, return to their old habits, become again involved in crime and are hailed back to Court, tried and recommitted all at untold expense to

the Commonwealth, we suffer another loss, all due to failure to keep them employed, teach them good conduct, citizenship and a useful trade.

No Jail Sentence Without Employment

It is poor business as well as bad morals to sentence a prisoner to jail and to idleness where he will have nothing to do but play cards, curse, blackguard, plan other crimes and eat three meals a day at public expense.

Re-write the statute so that every person sent to jail in county or city, shall be employed at least eight hours per day. This will tend to make the prisons undesirable and at the same time help to reform the one convicted.

School of Citizenship

Schools of citizenship as well as schools teaching academic subjects should be regularly established and maintained in each penal institution and all inmates required to give definite hours to school work each day. The entire prison day should be a busy one; eight hours for labor; eight hours for sleep and rest, and eight hours for training in a school of citizenship and academic subjects, industrial courses and manual training. Just as idleness produces crime, so industry and constant occupation at useful and gainful occupations will stabilize character and teach respect for the rights of others and good citizenship.

All sentences for crime should be indeterminate and the release of a prisoner should depend upon his good conduct, industry, aptibility in school, mastery of a trade or useful occupation and his qualifications for citizenship.

I call special attention to this subject because our penal institutions are costing the State an enormous sum of money each year, taken from the pockets of the taxpayers, and it is increasing rapidly as is evidenced by the fact that only a few years ago there were only 1200 prisoners in the Frankfort reformatory, whereas there is now an average of more than

2200, and a like increase is to be found at the other penal institutions. In other words, the present Penal system in vogue generally in this country has been a failure and we should awaken to this fact and reorganize and reform it to meet the needs of modern conditions and conduct it so as to reduce crime, reform and reclaim the inmates and send them back to their homes ready for the duties of life.

OBSOLETE TEXTBOOKS

Old, antiquated textbooks at unreasonably high prices are about to be thrust upon the people of Kentucky. This, if allowed, will take from the pockets of the people of this State at least one million dollars each year, unnecessarily, and at the same time handicap the pupil children with old, unsuitable, obsolete school books. Several of these books offered for readoption were first published twenty or more years ago. The Courts have construed the statute as it now exists, to mean that eighty (80%) per cent of the old textbooks now in use and which were old books when adopted six years ago, shall be re-adopted for use for periods of eight, six, four and two years, respectively, and that the State shall pay the price which it contracted to pay six years ago, although much better books upon each subject can be purchased as prices substantially less.

It is a painful but manifest truth that the school book trust has a strangle grip upon the throats of Kentuckians. This hold should be broken and broken now. Our people are being grossly imposed upon and have been for years past by the same trust. You are now surrounded by its lobbyists and paid agents,—dozens of them. We now have sixty-four (64) different textbook adoptions in the State, and there is hardly any book published that is so worthless and so out of date that it is not now in use in some of the towns and cities of Kentucky, purchased at a high price and is now up for readoption. Uniform adoption for the entire State has been the cry of the Kentucky Educational Association for years as

well as educators of other states; but this was opposed by the school book trust in whose pay many so-called educators are prosperous.

The law governing the adoption of school books should be so modified at this session as to allow the Textbook Commission to select and adopt the most up-to-date, complete and serviceable school books and to buy them at the lowest possible price, consistent with good business. In this way the General Assembly can be of real service to the people of Kentucky and save them at least one million dollars each year, on school books alone.

If you do not so modify the law now as to allow the adoption of modern, up-to-date books at reasonable prices, your home people will be forced to pay out large sums of money to equip their children for school, and you will meet a reproachful look upon the face of parents.

PROVIDE REVENUE FOR FREE SCHOOL BOOKS

It would be a sore disappointment to the parents and children of the State if the General Assembly should adjourn without arranging funds with which to purchase school books, pursuant to the Free Textbook Act of 1928, and, I confidently hope you will do this much for the deserving boys and girls of poor families. Thousands of pupils will not be able to buy the new books at the next adoption which will come this summer and will, therefore, be deprived of the advantage of our free schools, if you do not pass the necessary act to provide these funds. You could and you should do so. The people voted upon this question in 1927. In poor families are to be found some of the brightest boys and girls—the best prospects for future citizens, our coming leadership, and it would amount to civic sin to deprive them of at least a free school education.

May I beg you, implore you, in the name of the fathers and mothers, of the eager and expectant childhood of Kentucky, to give us revenue for free textbooks and thus give

every boy and girl, however poor, an opportunity to obtain an education and become a useful citizen? Such an investment will pay enormously through all succeeding years.

Reorganize and Centralize State Government

Our Constitution, the fundamental law of the State, should be revised, modernized and adjusted to prevailing conditions. The progress of the State is greatly hampered by this antiquated document. A constitutional convention or other plan should be worked out so that our State government may be recast, centralized and coordinated in the interest of economy and efficiency.

The Governor of the future should have power to organize and conduct the business of the State. To this end we should adopt a short ballot, empower the Governor to name at will all heads of departments where the duties are ministerial just as the great and successfully conducted corporations now do. In other words put more real business into the State government.

Too Many Elections

Our elections are expensive both in money and time. Our Constitution should be so amended as not to allow an election more often than once in two years.

Redistrict State Fairly

It is the plain duty of the Assembly at this time to reapportion the State into fair representative and senatorial districts, as directed by Section 33 of the Constitution of Kentucky. In a representative government, as is ours, each individual and each community is entitled to equal representation and this can only be had where the senatorial and legislative districts are laid off as nearly equal in population and area as may be. The inequality of our districts in population is so pronounced and so unjust as to amount in many instances to a denial of representation. To deliberately allow this

to continue is to treat the Constitution as a mere scrap of paper. The people of some Legislative districts have three, four and five times as much representation, numerically, as have citizens of equal standing in other communities.

The Constitution does not merely suggest or direct that the districts shall be equalized every ten years, but its language amounts to a command, an inescapable mandate to so apportion the State "as nearly equal in population as may be without dividing any county, * * * In doing so the principle requiring every district to be as nearly equal in population as may be, shall not be violated, * * * The General Assembly shall then, * * * re-district the State according to this rule and for the purpose expressed in this Section."

For the Assembly to wilfully fail or refuse to fairly re-district the State which has not been re-apportioned since 1918, in the face of the fact that there is a glaring inequality in population between the several districts, a discrimination against citizens of certain sections, would seem to be so inexcusable as to amount to criminal non-feasance.

Other Important Legislation

May I invite your careful attention to other proposed legislation, all very important to the State, some of which is now pending, to-wit:

(1) Fair and equitable freight rate structures;

(2) Perfecting title of the Commonwealth to lands bought in at tax sales and, devotion of such lands to forestration, wild life and bird sanctuaries and to Park purposes;

(3) Grant jurisdiction over Mammoth Cave National Park area to Federal government for certain purposes if and when the lands are presented to the government so that improvements may be commenced thereon as soon as title is vested in the National government;

(4) Encouragement of water power development;

(5) Founding of Medical College for training of doctors for rural communities;

(6) Establishment of epileptic colony;

(7) Sterilization of feeble-minded and hopeless lunatics;

(8) Regulation of chain stores;

(9) The enactment of laws regulating public printing and authorizing the same to be done through State owned plants in the prisons with prison labor so that the departmental reports, booklets, tracts and the like, and the Kentucky Reports containing opinions of the Court of Appeals and other like work, may be done by the State with its own labor, thus saving a large sum to the Commonwealth while teaching young men at the school of Reform a useful trade. We now have a small printing plant at Greendale Reform School which helps to teach boys an occupation;

(10) Elimination of the menace of grade crossings;

(11) Creation of Sinking Fund to extinguish floating indebtedness of State;

(12) Establishment of school of citizenship and good conduct at all penal institutions;

(13) Strictly regulate the use, or abolish altogether State owned passenger automobiles.

CONCLUSION

If this constructive program or any material part thereof, is to become law at this session, immediate steps must be taken to bring it about.

Please do not fail to remember that an appropriation without a revenue measure to support it is vain. The State cannot pay its obligations without money any easier than can an individual. If a revenue measure to meet and take care of an appropriation, however worthy or desirable it may be, is not passed, the duty of the Executive Department of the government charged with the faithful carrying out of the law, is plain. We must not go in debt. The State must live within its means. There is yet time, in the remaining days of this session, to accomplish a large part of this progressive

program and I earnestly recommend that you set yourselves assiduously to the task and do your utmost to help dear old Kentucky.

March 3, 1930.

Respectfully submitted,

FLEM D. SAMPSON, *Governor*

It shall be the duty of the Board of Election Commissioners of each county in the State not later than the 20th day of June, 1930, and annually thereafter to appoint for each registration precinct in the county two judges, one clerk and one sheriff of election to act as such in their precincts, and also two judges for special registration in the county at large, all of whom shall hold their offices for one year and until their successors are appointed and qualified. The county executive committees of the two political parties having representation on the state board and county boards of election commissioners may, on or before the 15th day of June 1930 and annually thereafter designate in writing for each precinct, and also for the county at large, a list of not less than eight names to the county board of election commissioners; and from these names, if any are so designated, the officers of registration shall be selected from said lists as follows: One judge at each voting place shall be selected from each of said lists, and one judge for special registration for the county at large shall be chosen from each list for the county, and in like manner the sheriff shall be chosen from one of said lists and the clerk from the other. If no lists are submitted to the said county board, then the officers of the registration shall be so selected

and appointed as that one of the judges at each place of voting shall be of one political party, and the two judges for the county at large shall be chosen in like manner, and the other judge of a different political party and there shall be a like difference at each voting place between the sheriff and clerk of registration. No person shall be eligible as an officer of registration who has committed a homicide, or who has been convicted of a felony or is under indictment therefor, or who is not sober, temperate, discreet and of good demeanor, or who has anything of value wagered on the result of the next election, or who is a candidate to be voted for at the next preceding election, and who is not capable of reading the Constitution of the Commonwealth in English and of writing a plain legible hand. It shall be the duty of said county board of election commissioners to determine the qualification of all registration officers before appointment. The county board of election commissioners shall have the power to remove all registration officers who are disqualified under the provisions of this Act, but no such removal shall be made within five days of any registration day, nor shall any such removal be made at any time without cause, and the grounds shall be reduced to writing by said board and made a part of its record. If a vacancy shall occur by removal or otherwise, it shall be filled by the county board of election commissioners from the list already submitted, if any, from which the officer was selected, and in conformity with the provisions of this Act. The County board of election commissioners shall give due notice of said appointment of registration officers to the sheriff of the county, who shall, before the day of the next ensuing registration, and within ten days next after said appointments, give each officer of registration written notice of his appointment. If there shall be two or more contending Executive Committees of the same party in the county, then that Executive Committee which is recognized by the State Central Committee, by the written certificate of the chairman thereof, shall

be recognized by the County Board in making the appointment of registration officers.

Should the County Board of Election Commissioners fail to appoint such officers of registration, or if any of such officers fail to attend for thirty minutes after the time for commencing the registration, or refuse to act, the officer in attendance representing the same political party of the absentee shall appoint a suitable person to act in his stead for that registration; or if both representatives of the same political party are absent, the qualified voters present affiliating with the party of said two absentees shall elect, viva voce, suitable persons to act in their stead. Each officer of registration shall, before entering upon the duties of his office, take an oath faithfully to discharge his duties as such officer before some person authorized to administer an oath, or if no such officer be present it may be administered by the clerk of the registration, who shall in turn be sworn by one of the judges of registration.

Such officers of registration shall not hold office by election or appointment during their term, nor shall they hold office for one year from the first day of July following his or her appointment. The aceptance of any office, either elective or appointive, by any such officer during his or her term of office shall, ipso facto, vacate the said office.

§ 3. Officers of registration shall have the same power to preserve order at the polls of registration as is exercised by sheriffs of election at the polls. Said officers shall register every citizen of the United States of his or her precinct, who shall apply to be registered at the time and in the manner required by law, who shall be twenty-one years of age at the next election, who has been a resident of the state one year, of the county six months, and of the precinct in which such person offers to register sixty days next preceding the election. Every person so applying to be registered shall be required to sign his or her full name upon the registration book

of his or her respective precinct in his or her own handwriting which signature shall be attested by the clerk and sheriff of said precinct and there shall also be entered on said book in proper place provided therefor the name of such person so applying, sex, the address of such person, his or her age at last birthday, his or her party affiliation, his or her occupation, if any, at the time of such registration, the color or race of such person, his or her apparent weight and apparent height and other means of identification, and the date of registration. The clerk of the election shall indicate at the bottom of the form when such person voted at an election or primary.

In the event any person applying to register upon oath shall state that he or she cannot write his or her name as above provided the clerk shall sign the registration book for such person, and shall note thereon that same was done at the request of the person so registered and upon oath that such person could not write.

Any judge of a primary or general election may require any person to write his or her name for comparison with such person's signature.

If the officers of registration entertain any doubt as to whether or not any person offering for registration is entitled to such registration, or if any one's right to register is challenged, citizens may be called in, not exceeding three in number, who shall be examined touching the qualifications of such person or persons who offer to register.

In making the registration the clerk shall act as the recording officer, and the judges shall decide all questions relating to the qualifications of persons offering to be registered, except that, in case of a difference of opinion between the judges the clerk shall have the deciding vote.

It shall be the duty of the sheriff of each county to furnish a suitable and convenient place in each precinct for such registration.

It shall be the duty of the officers of registration in each precinct to return the registration books and all paraphernalia to the County Court Clerk of the county in which the registration is held not later than three days after the holding of said registration, and said County Court Clerk shall make an exact copy of all said registration books, both the original and copies to be preserved in his office and upon each primary, special or general election the original registration books shall be turned over by the Clerk to the regularly appointed clerk of election of each respective precinct for their use in holding said election.

§ 4. The Secretary of the State of Kentucky and the Chairman of the Executive Committee of each of the two dominant political parties of Kentucky shall constitute and compose a board to prepare proper blanks, forms and books for the registration of voters as herein provided. It shall be the duty of said committee or board to have said blanks, forms and books properly prepared on or by the 25th day of June, 1930, by which date the necessary blanks, forms and books shall be in the hands of the County Court Clerk of each county in the State for distribution to the officers of registration in each precinct of the State. Said blanks, forms and books shall be printed and prepared and furnished as other books are now printed and prepared for the Commonwealth. Said blanks, forms and books shall be paid for by each county out of the county treasury, as is now provided by law for the payment of any and all other blanks, forms and books furnished each county by the State of Kentucky. Said book shall be arranged as that the names of voters may be registered alphabetically and the form of registration for each voter shall be as near in form as follows:

§ 5. Each officer of registration shall receive as compensation the sum of two dollars per day for each day they are required to register voters, and one dollar shall be paid to the clerk of the registration for posting notices, to be paid out of the county treasury.

§ 6. The registration officers in each and every precinct of this Commonwealth shall on the second Monday in July, 1930, proceed to register the qualified voters in said precinct, as provided herein, and such registration officers shall, in the year 1930, beginning on the second Monday in July, sit for two consecutive days, between the hours of 6 A. M. and 9 P. M., for the purpose of registering the qualified voters in each and every precinct, as herein provided. Ten days prior

thereto the clerk of the registration shall post written or printed notices, furnished him by the County Court Clerk, in at least six conspicuous places in said precinct, stating the time and place of such registration, and with information contained in such notices as to the requirements of this law, that all persons in order to be eligible to vote must be duly registered.

Sixty days preceding the regular November election 1930 the officers of registration shall sit one day, between the hours of 6 A. M. and 9 P. M., in each precinct, for the purpose of permitting any and all persons who have not previously registered to do so. Annually thereafter such officers of registration shall sit on the second Monday in July of each year, between the hours of 6 A. M. and 9 P. M. for the purpose of permitting any and all persons who have not previously registered to do so, and the clerk of registration shall give notice, as herein provided, of the time and place of all registrations, for at least ten days before such date of registration.

§ 6½. From the hours of 6 A. M. to 6 P. M. on the day preceding any primary, general or special election, and from the hours of 6 A. M. to 11 A. M. on the day of any such election in any county or in any one or more of the precincts in such county the two judges of the special registration for the county at large, together with the county clerk of the county, shall hold a special registration in the county clerk's office in said county and any person entitled to register in any precinct in said county who was unavoidably absent therefrom during the days of the regular registration therein, or who was ill during said time, or was unable to attend the place of registration on account of sickness or death of some named member of his immediate family may register as a voter in his precinct, provided he shall make an affidavit showing his right and qualification to register as a voter in said precinct, and showing the cause of his absence from the precinct or illness of himself, or sickness or death referred to above. In

the event the two judges cannot agree upon the right of any person applying for registration to register, the county clerk shall have the deciding vote. Any person may challenge the right of any person to register at such special registration and any person dissatisfied with the decision of said registration officers as to right of any person to register may by oral or written notice to such officers and the person offering to register, submit the question to the circuit judge, if present, and if not, then to the county judge, who in a summary manner shall on any affidavits or witnesses heard immediately decide whether the person offering to register is entitled to do so, and such decision shall be final, in so far as the election held on the day of such registration or the day following such registration, but if the person so offering to register is registered, he will thereafter be subject to purgation proceeding provided for in Section 10 of this Act. The county clerk shall place the name of any person allowed to register at such special registration on the copy of the registration books in the precinct in which such person is registered and shall give to such person a certificate showing he has been so registered and is entitled to vote in such precinct, and upon presentation of such certificate such person shall be allowed to vote in said precinct, and when the original registration is returned by the officers of election in such precinct, the county clerk shall insert in such original the name of the person or persons registering at such special registration as hereinbefore provided.

§ 7. Whenever a registered voter changes his or her place of residence from one election precinct to another in the same county, or wherever the boundaries of the precinct are changed by law, it shall be lawful for such voter to apply in person for a new registration, and it shall be the duty of the County Court Clerk of each county, who is the custodian of the registration books, to proceed to register such person in such precinct as heretofore provided for, and upon the

registering of such voter in said new residence the County Court Clerk shall proceed to cancel on the said books the name of such voter. No person shall be entitled to vote in any precinct unless he or she has been properly registered therein as herein provided, and the registration thereof having taken place at least sixty days prior to such elections.

Whenever any voter shall move from one county in this State to another county in this State, such voter shall apply to the County Court Clerk of the county where he is registered directing the said Clerk to cancel his name on the registration books and said Clerk shall then deliver to the said voter a certificate showing that his name has been cancelled on the registration books. The voter then shall carry such certificate into the county to which he is moving and shall present said certificate to the officers of registration on the next registration day and the officers of registration shall proceed to register him as provided in this Act and shall take up his certificate and destroy it. The County Court Clerk of each county shall keep a book arranged alphabetically showing the names of the voters who have changed their voting precincts, showing the precinct removed from and the precinct removed to, and the date of such transfer.

Any registered voter may, by application to the County Court Clerk, change his party affiliation on the register books not less than sixty days before any primary or general election.

§ 8. Any person who shall disturb, intimidate, abuse or by force or other unlawful means hinder, delay or disturb, or attempt to hinder, delay or disturb, any member of the officers of registration, while performing his or her official duties, shall be guilty of a misdemeanor, and upon conviction shall be fined not less than ten dollars nor more than one hundred dollars.

§ 9. Any officer of registration who shall wilfully fail to perform his or her duty as set forth in this Act, shall be

guilty of a misdemeanor, and upon conviction be fined not less than ten dollars nor more than one hundred dollars.

§ 10. When the governing authority for any city or county of either of the political parties casting the highest and next highest number of votes at the preceding election shall desire it, the County Board of Election Commissioners shall appoint two officers for any precinct, whose duty it shall be to purge the polls in that particular precinct, and these officers need not reside in the precinct for which they act. If the governing authority for the city or county of either of such political parties shall desire to have the registration purged in any precinct, such governing authority shall file a request in writing with the County Board of Election Commissioners not later than the 15th day of September after the regular registration for that year. In filing such request, such governing authority shall give the name and address of each voter whose name it challenges. When such request shall have been filed, it shall be the duty of the County Board of Election Commissioners, not later than the first day of October, to appoint two officers as aforesaid, one from each of the dominant political parties as above described. These appointments shall be made from a list of five names submitted to the County Board of Election Commissioners by the said governing authority of each of such political parties, and when so appointed the two officers shall be sworn to faithfully discharge their duty. The list of challenged voters shall be turned over to these two officers, and they shall meet in the precinct for which they are to act, at some place designated and provided by the sheriff. Their first meeting shall be held in said precinct on Tuesday after the first Monday in October, and they may summon and swear witnesses. Each voter who has been challenged shall be notified of the time and place of meeting by a written notice addressed to the voter at the residence given on the registration books, and this notice shall be prepared and mailed by the County Clerk at least five days

before the day of hearing. The notice shall require the voter to appear before the two officers mentioned therein. After investigation and hearing such evidence as may be presented these officers shall determine whether the voter was properly and legally registered. If they find that he or she was not, his or her name shall be stricken from the registration books by said officers. If they find that he or she was properly and legally registered, nothing further shall be done with said name. The registration books for the precinct shall be turned over to these officers when they are to hold their meetings. In the event the two officers engaged in purging the registration books shall disagree as to whether any names shall be stricken from the books, they or either of them shall reduce to writing the facts as developed and certify such statement of facts to the Clerk of the Circuit Court, who shall assign the case of each such voter challenged to the Circuit Judge of such county, and wherever there are two or more Circuit Judges the cases shall be equally divided among said Judges, who shall immediately hear the cases de novo. The Circuit Clerk, upon receipt of such certification by the said officers, shall immediately issue a summons addressed to the voter to appear before the Circuit Judge to whom the case is assigned not later than three days after service of such notice, which notice shall be served by the Sheriff of the county, or by any officer authorized to serve subpoenas, or by any persons authorized under our law to serve notices. The Circuit Clerk shall be allowed for each case the sum of fifty cents, to be paid by the Fiscal Court out of the county treasury. If the Circuit Judge decides that the name should be stricken from the registration books, he shall certify to the County Clerk to strike such name off of the books, and if he decides that the voter is properly and legally registered, he shall certify to the County Clerk that said registration is valid. The two officers in charge of purging the registration may meet from time to time until the second Tuesday in October, but not

later, and they shall receive for their services the same compensation as registration officers.

§ 11. It shall be the duty of the County Court Clerk to keep the registration books safely in his office and not suffer same to be taken therefrom, except the registration books may be taken as provided herein from his office on order of any Court for the purpose of using them in any prosecution or trial growing out of the registration involving a voter's right to register, and in any purgation proceedings. The Clerk shall permit any citizen at any time to copy any registration book without fee or charge, and he shall also furnish copies at the same rate as provided in Section 15 of this act for copying the book kept in his office. Copies furnished to citizens under this section shall be paid for in cash by the person ordering them.

§ 12. In the event any registration book of any precinct is lost or destroyed by fire or otherwise, the County Board of Election Commissioners shall order a new registration of voters in said precinct as provided in this Act.

§ 13. Whenever the registration books in any election precinct are so mutilated, blotted, defaced or otherwise in such condition as to render them difficult, troublesome or unsafe to use them longer, the County Board of Election Commissioners shall order that the said books shall be copied, and in such case it shall be the duty of the County Court Clerk to cause fair copies to be made of the old registration books and they shall take the place of the old books which shall be filed and preserved in the office of the County Court Clerk as the other books are kept, but said County Court Clerk shall not destroy the old books.

§ 14. Any voter aggrieved by the decision of the two officers appointed to purge, may appeal to the Circuit Judge by filing his affidavit stating that his name has been stricken from the registration book and that he appeals from said order, and the Circuit Clerk shall docket his case in the same

manner as in the case of a disagreement between the purging officers.

§ 15. The County Court Clerk, for his services under this Act, shall receive the following fees, and no other: For copying the registration lists required to be kept in his office, or to be used in supplying lost books, the sum of three cents for each voter whose name is so copied; the sum of five cents for the name of each voter stricken off the lists, and three cents for transferring the name of a voter from one precinct to another; also for entering the name of each person at the special registration for the county at large and issuing certificate to such person ten cents.

The fees and expenses incurred under this Act shall be paid as other election expenses.

§ 16. Any person who shall wilfully cause himself to be registered in more than one election precinct or give a false number of the ward or precinct of his residence or more than once in the same precinct or ward, or who shall cause himself to be registered knowing that he is not lawfully entitled to registration, and any person who shall aid or abet in the commission of any of said acts shall be deemed guilty of a felony and upon conviction shall be confined in the penitentiary for not less than one nor more than five years, and shall for a period of ten years thereafter be excluded from and denied the right of suffrage.

§ 17. Any officer of registration, or other person, who shall unlawfully alter any registration book, or add any name thereto, or who shall wilfully secrete, suppress or destroy any such book, or who shall make or aid in making any false or fraudulent registration book, shall be deemed guilty of felony, and shall be confined in the penitentiary not less than one year nor more than five years, and shall forfeit any office he then holds, and shall forever be disqualified from holding office.

§ 18. Any person who, by himself or in aid of others, shall forcibly break, or attempt to break up, a registration

held as provided in this article, or shall forcibly prevent, or attempt to prevent, any person from approaching or entering a place of registration for the purpose of registering, shall be fined not less than one hundred nor more than five hundred dollars, or imprisoned not less than six nor more than twelve months in the county jail, or both.

§ 19. The provisions of this Act shall not apply to cities of the first class.

All acts or parts of acts in conflict with the foregoing are hereby repealed.

The Clerk produced and read the following communication to the House, viz.:

March 3, 1930.

Hon. Frank L. Strange,
House of Representatives,
Frankfort, Kentucky.

Dear Captain Strange:

Will you please extend to the members and officers of the Kentucky House of Representatives and their families, an invitation to visit the Mammoth Cave area on a date most agreeable to them?

We will provide a special train from Frankfort to Cave City and have automobiles at the latter place to convey the party to and from the Cave. The trip from Frankfort to Cave City will require about four hours.

Provision will be made for you as our guests to visit such of the caves in the area, as your time will permit.

We had planned to have this trip before our Bill was placed on its passage, but things moved so rapidly and favorably in our direction, that we were unable to carry out our plan.

Now that the Bill has become a law by the Governor's signature, we are none the less anxious that you and your associates should be accorded the privilege of seeing this great natural wonder.

We are truly thankful for the substantial majority given the Bill in the House of Representatives. In our judgment this will prove to be one of the most constructive things ever done for the advancement of Kentucky.

A like invitation will be extended to the members of the Senate and State officials.

Trusting we may have the pleasure of a large representation from the House, and assuring you of our gratitude for your splendid cooperation and support, we beg to remain,

Very truly,

MAMMOTH CAVE NATIONAL PARK ASS'N.
BY HUSTON QUINN,
Chairman, Executive Committee.

One or more such water works, owned by one or more persons or corporations, may be acquired hereunder as a single enterprise, and the common council or board of commissioners of such city shall have authority to agree with the owner or owners as to the value thereof and to purchase the same at such value.

4. All bonds under the provisions of this act may be issued bearing interest at a rate not exceeding six per cent. per annum payable semi-annually and shall be executed in such manner and be payable at such times not exceeding forty years from the date thereof and at such place or places as such common council or board of commissioners shall determine.

5. Any and all such bonds shall have and are hereby declared to have in the hands of bona fide holders all of the qualities of negotiable instruments under the law merchant and shall not be subject to taxation. In case any of the officers whose signatures or countersignatures appearing on the bonds or coupons shall cease to be such officers before delivery of such bonds, such signatures or countersignatures shall nevertheless be valid and sufficient for all purposes the same as if

they had remained in office until such delivery. Such bonds shall be sold in such manner and upon such terms as the common council or board of commissioners shall deem for the best interest of such city, or any contract for the purchase or acquisition of any water works may provide that payment thereof shall be made in such bonds. In no event shall any bonds be negotiated on a basis to yield more than six per cent. Such bonds when issued shall be payable solely from the revenue funds derived from such water works as provided in Section 9 hereof and shall not constitute an indebtedness of such city within the meaning of the constitutional provisions or limitations. It shall be plainly stated on the face of each bond that same has been issued under the provisions of this act and that it does not constitute an indebtedness of such city within the meaning of any constitutional provisions or limitations.

6. All moneys received from any bonds issued pursuant hereto shall be applied solely for the purpose, establishment or erection of such water works and extensions thereto and necessary appurtenances, provided such money may be used also to advance the payment of interest on bonds during the first three years following the date of such bonds. And there shall be and there is hereby created a statutory mortgage lien upon the water works and appurtenances and extensions so acquired to and in favor of the holders of said bonds and each of them and to and in favor of the holders of the coupons of said bonds.

7. The water works so purchased or acquired, together with the extensions and appurtenances, shall remain subject to such statutory liens until the payment in full of the principal and interest of the bonds. Any holder of said bonds or of any of the coupons may, either at law or in equity, by suit, action, mandamus, or other proceedings, protect and enforce the statutory mortgage lien hereby conferred and may by suit, action, mandamus, or other proceedings, enforce and compel

performance of all duties required by this act, including the making and collecting of sufficient rates, the segregation of the income and revenue, and the application thereof.

8. If there be any default in the payment of the principal or interest of any of said bonds any court having jurisdiction of the action may appoint a receiver to administer said water works on behalf of the city, with power to charge and collect rates sufficient to provide for the payment of any bonds or obligations outstanding against said water works and for the payment of the operating expenses and to apply the income and revenue in conformity with this act, and the ordinance referred to in Section 9 hereof.

9. At or before the issuance of such bonds the common council or board of commissioners of such city shall, by ordinance, set aside and pledge the income and revenue of such water works into a separate and special fund to be used and applied in payment of the cost thereof and in the maintenance, operation and depreciation thereof. Said ordinance shall definitely fix and determine the amount of revenue which shall be necessary and be so set apart and applied to the payment of the principal and interest of the bonds, and the proportion of the balance of such income and revenues which is to be set aside as a proper and adequate depreciation account, and the remaining proportion of such balance shall be set aside for the reasonable and proper operation and maintennce thereof. The rates to be charged for the service from such water works shall be sufficient to provide for the payment of interest upon all bonds and to create a sinking fund to pay the principal thereof as and when the same becomes due and to provide for the operation and maintenance thereof and adequate depreciation account. Such rates shall be fixed and revised from time to time so as to produce these amounts.

10. If any surplus shall be accumulated in the operating and maintenance funds, which shall be equal to the cost of maintaining and operating such water works during the re-

mainder of the calendar, operating or fiscal year, as may be provided by the ordinance hereinbefore required and the cost of maintaining and operating such water works during the succeeding like calendar year, operating or fiscal year, any excess over such amount may be transferred at any time by the council to the depreciation account to be used for any improvements, extensions or additions to such water works.

11. The funds accumulating to the depreciation account shall be expended in balancing depreciation in such water works or in making new constructions, extensions or additions thereto. Any such accumulations may be invested as the council may designate and if invested, the income from such investments shall be carried into the depreciation account.

12. The reasonable cost and value of any service rendered to such city by such water works may be charged against the city and shall be paid for monthly as the service accrues from the current funds or proceeds of taxes which such city is hereby authorized and required to levy in an account sufficient for that purpose. Such funds so paid shall be accounted for in the same manner as other revenues of such water works.

13. Such city may issue new bonds for the purpose of providing funds for the payment of any outstanding bonds, in accordance with the procedure prescribed by this act. Such new bonds shall be secured to the same extent and shall have the same source of payment as the bonds which shall have been thereby refunded.

14. Should the common council or board of commissioners find that the bonds authorized will be insufficient to accomplish the purpose desired, additional bonds may be authorized and issued subject to the procedure as herein required.

15. Any city acquiring any water works pursuant to the provisions of this act may at the time of the issuing of the bonds for such acquisition, provide for additional bonds for extension and permanent improvements to be placed in escrow

and to be negotiated from time to time as such proceeds for that purpose may be necessary. Such bonds when so negotiated shall have equal standing with the bonds of the same issue.

16. In like manner, such city acquiring any water works under the provisions hereof may provide for the extension, addition or improvement of such public utility by an additional issue or issues of bonds in the manner herein provided.

17. Such city in acquiring any water works under the provisions of this act, may provide by ordinance any such provisions and stipulations for the administration of the income and revenues and for the security of the bond holders as the common council or board of commissioners of such city may deem necessary.

18. The ordinance required by Sections 2 and 9 hereof may also set apart bonds hereunder authorized, equal to the amount of any secured debt or charge, subject to which a water works may be purchased or acquired, and shall set aside for interest and sinking fund from the balance of the income and revenues of the water works remaining after setting aside the funds for payment of principal and interest of bonds, a sum sufficient to comply with the requirements of the instrument creating the lien or securing the charge, or if such instrument does not make any provision therefor, said ordinance shall fix and determine the amount which shall be set aside into a securing debt account for interest on such secured debt or charge and a fixed amount to pay the principal thereof at maturity. Any surplus after satisfying the secured debt or charge may be transferred to the fund for the redemption of the principal and interest of bonds issued thereunder. Bonds may be issued hereunder subject to the provision hereof in exchange for or in satisfaction of such secured debt or charge or may be sold in the manner herein provided and the proceeds applied in payment of the same at or before maturity.

19. This act shall be deemed to create an additional and alternate method for the acquisition of water works by any city of the first, second, third, fourth, fifth or sixth class and shall not be deemed to include, alter, amend or repeal any other statute. No proceedings shall be required for the acquisition of any water works hereunder or the issuance of bonds hereunder except such as are prescribed by this act, any provisions in the general laws of the Commonwealth of Kentucky or the charter of any city to the contrary notwithstanding.

20. This act being necessary for and to secure the public health, safety, convenience and welfare of cities in the Commonwealth of Kentucky, shall be liberally construed to effectuate the purpose hereof.

21. In as much as many cities to which this act is applicable are without adequate water works facilities, thus endangering the health, safety and convenience of the inhabitants thereof, an emergency is declared to exist and this act shall take effect from and after its passage and approval.

Resolved that the title thereof be as aforesaid.

Mr. Dorman of Rules Committee moved that the vote by which said bill was passed be reconsidered and that said motion lie on the table.

Said motion was agreed to.

At the instance of the Committee on Rules the House took up for consideration from the Orders of the Day a bill entitled:

S. B. 26. An Act in relation to direct ad valorem taxes levied and collected by the United States upon property in the State of Kentucky: Defining and Regulating the rights and duties of the Commonwealth and Taxpayers in relation to

claims against the United States, which may have arisen by reason of taxation imposed by the United States upon property of such taxpayers situated in Kentucky in the years 1866, 1867 and 1868, or any of said years, and which taxes were collected by said United States; and prescribing how such claims, the right of action for recovery of which has been or may be granted to and vested by act of Congress in the Commonwealth of Kentucky, and the monies, if any, recovered thereon, shall be disposed of; and constituting a commission, to be composed of the Governor, State Treasurer and State Auditor of Public Accounts, to be known as the "Direct Tax Commission" to pass upon said claims; and further providing how any and all amounts to which title is not asserted by the rightful owners, whether the original taxpayer or his legal representatives, within two (2) years from the time the monies herein referred to shall have been received by the Commonwealth shall, if such title be established, be payable to the respective claimants thereto entitled without interest, and further providing that any and all amounts to which title is not asserted by the rightful owners, whether the original taxpayer or his legal representatives, within eight (8) years after payment of the monies herein referred to shall have been made by the United States to the Commonwealth of Kentucky, as, also, all amounts to which claim shall within said period be asserted but which claims shall have been finally disallowed or rejected by decision of said "Direct Tax Commission" or by a judicial determination of the courts, on appeal, shall escheat to, vest in and become the absolute property of the Commonwealth; and further granting the right of appeal to the courts by the Commonwealth from decisions of said Direct Tax Commission approving and allowing claims, and, in like manner, granting a similar right of appeal to claimants whose claims are, in whole or in part, disallowed or rejected, and providing how the entire costs of litigation in such cases shall be paid; and for other purposes.

Whereas, it appears that certain monies, of considerable amount, were collected by the United States of America by direct ad valorem taxes levied by said Government upon property situated in Kentucky, subsequent to the Civil War of 1861-65, and more especially in the years 1866, 1867 and 1868; and

Whereas, since said taxes were so levied and collected, it has been held by the Supreme Court of the United States that the imposition and collection by the United States of such direct taxes was unauthorized and illegal, but no part of the monies so assessed and collected has ever been repaid to the original taxpayers or their legal representatives, but measures to that end have been initiated, as evidenced by a joint resolution introduced and now or lately pending in the Congress of the United States; and

Whereas, under authority conferred upon him by existing laws of the Commonwealth, the Governor of Kentucky has employed special counsel to represent the interests of this Commonwealth and the taxpayers owning property situated in monwealth and the taxpayers awning property situated in Kentucky upon which such direct taxes were imposed and collected by the United States, or the legal representatives of such taxpayers; and

Whereas, it is deemed desirable and proper that the action of the Governor of this Commonwealth in so proceeding as aforesaid be ratified, enforced and rendered more effectual, and that provision be made for the proper disposition of said monies when and as recovered and received by the Commonwealth of Kentucky; Now, Therefore,

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

§ 1. That the Governor be, and he is hereby authorized and directed, when and as permitted by resolution or Act of Congress, to present, file and propound, in the name of the Commonwealth of Kentucky, any claim, demand or suit deem-

ed by him and his counsel necessary or appropriate against the United States of America, and to prosecute the same to a conclusion, for all monies heretofore illegally collected and paid into the Treasury of the United States, as a direct tax upon property in this State, in or for the years 1866, 1867 and 1868, or any of said years.

§ 2. That all monies so recovered and collected from the United States shall, after deduction and payment of agreed counsel fees, be paid into the Treasury of the Commonwealth of Kentucky, and, after payment of counsel fees, court costs, costs of administration, and other necessary legal charges and liabilities, as authorized by contract heretofore made with special counsel, and by the general laws of escheat now in force in this Commonwealth, shall be held by the Commonwealth of Kentucky in trust for the rightful claimants of such monies for a period of eight (8) years and no longer; this limitation, however, being subject to the provisions of Section 7 of this Act.

§ 3. That, upon receipt of such monies from the United States, by the State Treasurer, he shall cause to be published at least once a week for four (4) consecutive weeks in not less than three (3) daily newspapers having a general circulation throughout the State a notice stating the fact of the collection of the monies from the United Saes and calling upon all claimans thereto or to any part thereof to prepare their claims in writing, duly verified in the manner now required by law in the case of ordinary claims against a decedent's estate, and to file same with the said State Treasurer; and such published notice shall state that the failure of any claimant so to prepare and file his claim within a period of two (2) years from the date of the receipt of said money from the United States by the Treasurer of the Commonwealth shall bar his right to claim or receive any interest on the principal amount of his claim or any part thereof; and such notice shall further state that failure of any claimant to prepare and file his claim for

eight (8) years from the date of receipt of said monies from the United States shall absolutely and forever bar such claimant from all right to claim or have any part of said monies, and that, at the end of said eight-year period, all of said monies not claimed in manner as above set forth shall escheat to and become the absolute and indefeasible property of the Commonwealth without further inquest or adjudication.

§ 4. That a Commission, to be known as the "Direct Tax Commission," is hereby constituted, which shall be composed of the Governor, State Treasurer and the State Auditor of Public Accounts, and of said Commission the Governor shall be Chairman, the State Auditor shall act as Secretary, and the State Treasurer shall act as Treasurer. Each claim approved and allowed by said Commission shall be certified by it over the signature of its Secretary to the State Treasurer for payment by him to the approved claimant or his order. The State Treasurer shall pay all claims, so certified, less claimant's pro rata part of counsel fees, court costs, costs of administration, and other legal charges and liabilities thereon, as determined by the Direct Tax Commission, out of the funds collected from the United States and held in trust for said purposes, provided that no interest in any amount shall be paid upon any such claim or claims so allowed, unless such claim shall have been presented, in the form and manner and within the time by this Act prescribed, and no interest in excess of four per cent (4%) per annum, accruing from and after the date on which any claim, properly proven, is filed as herein required, shall be paid on any claim allowed to the claimant thereof.

§ 5. That all claimants to such funds shall present their claims in writing, duly verified as provided in Section 3 hereof, by filing same with the State Treasurer of Kentucky on such forms as shall be provided or prescribed by him, and it shall be his duty to receive and register such certified claims in the order of their receipt by him for and on behalf of the

"Direct Tax Commission" herein provided for. If, in the judgment of said "Direct Tax Commission," the verification of any claim presented under this Act be deemed irregular, defective, or insufficient, or if, for any other reason, any further corroboration or proof be required by said Commission in support of such claim, or if same be contested by any adverse claimant the claimant shall be notified to perfect his verification or to produce such further corroborative proof or evidence or to respond to any conflicting or adverse claim within such time and in accordance with such regulations, not inconsistent with this Act or the general law, as may be prescribed and published by said "Direct Tax Commission."

§ 6. Each and every claimant complying with the requirements of this Act, shall be duly notified of the final approval and allowance or the final disallowance or rejection of his claim, and any claimant whose claim is disallowed or rejected, in whole or in part, or the Commonwealth of Kentucky, through its Attorney General, may within sixty (60) days after final action upon any such claim by the "Direct Tax Commission," appeal from the decision of said Commission to the Circuit Court of Franklin County, and issues of law and of fact, if any, arising upon such appeals, shall be tried therein de novo, by the court, as in other cases in equity, and appeals from the final judgments of said Court shall be granted, as in other cases, to the Court of Appeals; and, whether the final outcome of any litigation over decisions of said "Direct Tax Commission," be favorable or unfavorable to the calimant contesting same, the entire costs of such litigation shall be borne by such claimant, and may be offset against and deducted from any sum that may ultimately be adjudged payable to him upon such claim.

§ 7. That at the end of a period of eight (8) years, from the date on which said monies so collected from the United States shall be paid into the Treasury of the Commonwealth of Kentucky, the net amount of said funds remaining after

the payment of counsel fees, court costs, costs of administration and other legal charges and liabilities thereon, to the extent to which no claims have been filed against same, and also to the extent to which claims against same have been filed but finally disallowed, by said "Direct Tax Commission" or by decision of the courts, where an appeal has been taken, shall escheat to, vest in, and become the absolute and indefeasible property of the Commonwealth of Kentucky, without further inquest or adjudication. The balance, if any, of said funds which may remain undisposed of, as aforesaid, shall be held in the State Treasury, subject to the final determination of such contested claims as may have been theretofore presented and filed as herein required, and which may not have been theretofore paid but remain still pending and undetermined; and when all claims against said monies, which may be presented within the time limited by this Act, shall have been finally determined and disposed of, whatever balance of said money, if any, may then remain, shall likewise escheat to, vest in, and become the absolute and indefeasible property of the Commonwealth of Kentucky, without further inquest or adjudication, and shall be covered into the General Fund.

Resolved that the title thereof be as aforesaid.

Mr. Dorman of Rules Committee moved that the vote by which said bill was passed be reconsidered and that said motion lie on the table.

Said motion was agreed to.

At the instance of the Committee on Rules, the House took up for consideration from the Orders of the Day a bill entitled:

H. B. 277. An Act to amend Chapter 90b, Section 3720b Carroll's Kentucky Statutes 1922 Edition, entitled negotiable instruments in general.

Said bill is as follows, viz.:

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

That chapter 102 of the Acts of the General Assembly of 1904, being section 3720b, Carroll's Kentucky Statutes, 1922 Edition, be amended by adding thereto at the end of Article V. and following section 3720b-69, to be designated as section 3720b-69a, the following words:

Section 3720b-69a. 1. Definitions. For the purpose of this section:

The term "bank" shall include any person, firm or corporation engaged in the business of receiving and paying deposits of money within this state. A branch or office of any such bank shall be deemed a bank.

The term "item" means any check, note or other instrument providing for the payment of money.

§ 2. Bank as agent for collection. Except as otherwise provided by agreement and except as to subsequent holders of a negotiable instrument payable to bearer or endorsed specially or in blank, where an item is deposited or received for collection, the bank of deposit shall be agent of the depositor for its collection and each subsequent collecting bank shall be sub-agent of the depositor but shall be authorized to follow the instructions of its immediate forwarding bank and any credit given by any such agent or sub-agent bank therefor shall be revocable until such time as the proceeds are received in actual money or an unconditional credit given on the books of another bank, which such agent has requested or accepted. Where any such bank allows any revocable credit for an item to be withdrawn, such agency relation shall nevertheless continue except the bank shall have all the rights of an owner thereof against prior and subsequent parties to the extent of the amount withdrawn.

§ 3. Item on same bank. A credit given by a bank for an item drawn on or payable at such bank shall be provisional, subject to revocation at or before the end of the day on which the item is deposited in the event the item is found not payable for any reason. Whenever a credit is given for an item deposited after banking hours such right of revocation may be exercised during the following business day.

§ 4. Legal effect of endorsements. An endorsement of an item by the payee or other depositor "for deposit" shall be deemed a restrictive endorsement and indicate that the endorsee bank is an agent for collection and not the owner of the item.

An endorsement "pay any bank or banks" or having equivalent words shall be deemed a restrictive endorsement and shall indicate the creation of an agency relation in any subsequent bank to whom the paper is forwarded unless coupled with words indicating the creation of a trustee re-

lationship; and such endorsement or other restrictive endorsement whether creating an agency or trustee relationship shall constitute a guaranty by the endorser to all subsequent holders and to the drawee or payor of the genuineness of and the authority to make prior endorsements and also to save the drawee or payor harmless in the event any prior endorsement appearing thereon is defective or irregular in any respect unless such endorsement is coupled with appropriate words disclaiming such liability as guarantor.

Where a deposited item is payable to bearer or endorsed by the depositor in blank or by special endorsement, the fact that such item is so payable or endorsed shall not change the relation of agent of the bank of deposit to the depositor, but subsequent holders shall have the right to rely on the presumption that the bank of deposit is the owner of the item. The endorsement of an item by the bank of deposit or by any subsequent holder in blank or by special endorsement of its delivery when payable to bearer, shall carry the presumption that the endorsee or transferee is owner provided there is nothing upon the face of the paper or in any prior endorsement to indicate an agency or trustee relation of any prior party. But where an item is deposited or is received for collection endorsed specially or in blank, the bank may convert such an endorsement into a restrictive endorsement by writing over the signature of the endorser the words "for deposit" or "for collection," or other restrictive words to negative the presumption that such bank of deposit or endorsee bank is owner; and in the case of an item deposited or received for collection payable to bearer, may negative such presumption by endorsing thereon the words "received for deposit" or "received for collection" or words of like import.

§ 5. Duty and responsibility of banking agents. It shall be the duty of the initial or any subsequent agent collecting bank to exercise ordinary care in the collection of an item and when such duty is performed such agent bank shall not be

responsible if for any cause payment is not received in money or an unconditional credit given on the books of another bank, which such agent bank has requested or accepted. An initial or subsequent agent collecting bank shall be liable for its own lack of exercise of ordinary care but shall not be liable for the neglect, misconduct, mistakes or defaults of any other agent bank or of the drawee or payor bank.

§ 6. Rules of ordinary care in forwarding and presentment. (a) Where an item is received on deposit or by a subsequent agent bank for collection, payable in another town or city, it shall be deemed the exercise of ordinary care to forward such item by mail, not later than the business day next following its receipt either (1) direct to the drawee or payor in the event such drawee or payor is a bank or (2) to another bank collecting agent according to the usual banking custom, either located in the town or city where the item is payable or in another town or city.

(b) Where an item is received on deposit or by a subsequent agent bank for collection, payable by or at another bank in the same town or city in which such agent bank is located, it shall be deemed the exercise of ordinary care to present the item for payment at any time not later than the next business day following the day on which the item is received either (1) at the counter of the drawee or payor by agent or messenger or (2) through the local clearing house under the regular established procedure, or according to the usual banking custom where the collecting or payor bank is located in an outlying district.

(c) The designation of the above methods shall not exclude any other method of forwarding or presentment which under existing rules of law would constitute ordinary care.

§ 7. Items received through the mail. Where the item is received by mail by a solvent drawee or payor bank, it shall be deemed paid when the amount is finally charged to the account of the maker or drawer.

§ 8. Items lost in transit. Where an agent bank forwards an item for collection, it shall not be responsible for its loss or destruction in transit or, when in the possession of others, for its inability to repossess itself thereof, provided there has been no lack of ordinary care on its part.

§ 9. Medium of payment. Where ordinary care is exercised, any agent collecting bank may receive in payment of an item without becoming responsible as debtor therefor, whether presented by mail, through the clearing house or over the counter of the drawee or payor, in lieu of money, either (a) the check or draft of the drawee or payor upon another bank or (b) the check or draft of any other bank upon any bank other than the drawee or payor of the item or (c) such method of settlement as may be customary in a local clearing house or between clearing banks or otherwise; provided that whenever such agent collecting bank shall request or accept in payment an unconditional credit which has been given to it on the books of the drawee or payor or on the books of any other bank, such agent collecting bank shall become debtor for such item and shall be responsible therefor as if the proceeds were actually received by it in money.

§ 10. Medium of remittance. Where ordinary care is exercised, any agent collecting bank may receive from any subsequent bank in the chain of collection in remittance for an item which has been paid, in lieu of money, the check or draft of the remitting bank upon any bank other than itself or the drawee or payor of the item or such other method of settlement as may be customary; provided that whenever such agent collecting bank shall request or accept an unconditional credit which has been given to it on the books of the remitting bank or on the books of any other bank, such agent collecting bank shall become debtor for such item and shall be responsible therefor as if the proceeds were actually received by it in money.

§ 11. Election to treat as dishonored items presented by mail. Where an item is duly presented by mail to the

drawee or payor, whether or not the same has been charged to the account of the maker or drawer thereof or returned to such maker or drawer, the agent collecting bank so presenting may, at its election, exercised with reasonable diligence, treat such item as dishonored by nonpayment and recourse may be had upon prior parties thereto in any of the following cases:

(1) Where the check or draft of the drawee or payor bank upon another bank received in payment therefor shall not be paid in due course;

(2) Where the drawee or payor bank shall without request or authority tender as payment its own check or draft upon itself or other instrument upon which it is primarily liable.

(3) Where the drawee or payor bank shall give an unrequested or unauthorized credit therefor on its books or the books of another bank; or

(4) Where the drawee or payor shall retain such item without remitting therefor on the day of receipt or on the day of maturity if payable otherwise than on demand and received by it prior to or on such day of maturity.

Provided, however, that in any case where the drawee or payor bank shall return any such item unpaid not later than the day of receipt or maturity as aforesaid in the exercise of its right to make payment only at its own counter, such item cannot be treated as dishonored by non-payment and the delay caused thereby shall not relieve prior parties from liability.

Provided further that no agent collecting bank shall be liable to the owner of an item where, in the exercise of ordinary care in the interest of such owner, it makes or does not make the election above provided or takes such steps as it may deem necessary in cases (2), (3) and (4) above.

§ 12. Notice of dishonor of items presented by mail. In case of the dishonor of an item duly presented by mail as provided for in the next preceding section, notice of dishonor

of such item to prior parties shall be sufficient if given with reasonable diligence after such dishonor; and further in the event of failure to obtain the return of any such item notice of dishonor may be given upon a copy or written particulars thereof, and delay in giving notice of dishonor caused by an attempt with reasonable diligence to obtain return of such items shall be excused.

§ 13. Insolvency and preferences. (1) When the drawee or payor, or any other agent collecting bank shall fail or be closed for business by law or by action of the board of directors or by other proper legal action, after an item shall be mailed or otherwise entrusted to it for collection or payment but before the actual collection or payment thereof, it shall be the duty of the receiver or other official in charge of its assets to return such item, if same is in his possession, to the forwarding or presenting bank with reasonable diligence.

(2) Except in cases where an item or items is treated as dishonored by nonpayment as provided in section eleven, when a drawee or payor bank has presented to it for payment an item or items drawn upon or payable by or at such bank and at the time has on deposit to the credit of the maker or drawer an amount equal to such item or items and such drawee or payor shall fail or close for business as above, after having charged such item or items to the account of the maker or drawer thereof or otherwise discharged his liability settled for by the drawee or payor either in money or by an unconditional credit given on its books or on the books of any other bank, which has been requested or accepted so as to constitute such drawee or payor or other bank debtor therefor, the assets of such drawee or payor shall be impressed with a trust in favor of the owner of such item or items for the amount thereof, or for the balance payable upon a number of items which have been exchanged, and such owner or owners shall be entitled to a preferred claim upon such assets, irrespective of whether the fund representing such item or items can be traced and identified as part of such assets or has been

intermingled with or converted into other assets of such failed bank.

(3) Where an agent collecting bank other than the drawee or payor shall fail or be closed for business as above, after having received in any form the proceeds of an item or items entrusted to it for collection, but without such item or items having been paid or remitted for by it either in money or by an unconditional credit given on its books or on the books of any other bank which has been requested or accepted so as to constitute such failed collecting or other bank debtor therefor, the assets of such agent collecting bank which has failed or been closed for business as above shall be impressed with a trust in favor of the owner or owners of such item or items for the amount of such proceeds and such owner or owners shall be entitled to a preferred claim upon such assets, irrespective of whether the fund representing such item or items can be traced and identified as part of such assets or has been intermingled with or converted into other assets of such failed bank.

Resolved that the title thereof be as aforesaid.

Mr. Dorman of Rules Committee moved that the vote by which said bill was passed be reconsidered and that said motion lie on the table.

Said motion was agreed to.

At the instance of the Committee on Rules the House took up for consideration from the Orders of the Day a bill entitled:

S. B. 41. An Act permitting a transfer of any tax claim held by the Commonwealth of Kentucky, or any county, municipality, or taxing district thereof, and directing the issuing of a certificate prescribing the form and evidencing such a

transfer, and giving to the owner or holder of such certificate the same priority of lien and remedies for enforcing said tax claim as were held by the Commonwealth of Kentucky or any claim as were held by the Commonwealth of Kentucky, or any transfer.

Said bill is as follows, viz.:

Be it enacted by the General Assembly of the Commonwealth of Kentucky, as follows:

§ 1. After a state, county or municipal tax, or assessment, or the tax of a taxing district, shall have become due, but before the property taxed shall have been sold for taxes under said tax or assessment, any officer of the State or any County or Municipality, or taxing district of the State, authorized to receive payment of said tax, is, upon the written request of the owner of said property, or of the person liable for the tax on same, hereby authorized and directed to receive payment of said tax from any person, or corpration, other than the person in whose name the property has been assessed, or the owner of said property, and, upon receiving payment from such a source, to issue upon the request of the party or corporation paying the tax a certificate of transfer in the manner and form as follows:

CERTIFICATE OF TRANSFER

I, ..., (insert here office held), of the County of ....., Commonwealth of Kentucky, do hereby certify that the (insert here City, State or County) taxes, for the year ..... on the property listed in the name of ..... have been paid by .....; that the amount received in payment of said tax is $....., and that in accordance with the request of the party paying same, I hereby transfer to ....., his heirs and assigns, the said tax claim with all of the priorities and all of

the rights and powers of enforcing the payment of said tax, which were possessed by the Commonwealth of Kentucky, and/or the County of ..... and/or the city of ....., and/or the .....taxing district, before this transfer.

In witness whereof, I hereby set my hand, this ..... day of ..... A. D. .....

.....

Such a certificate of transfer shall confer upon the transferee the priority of lien and all the rights and powers as to enforcing the collection of same which were, at the time of the transfer, possessed by the State, County and Municipality, or taxing district, issuing the certificate, and such transferee shall be subrogated to all the rights and powers, in respect of said taxes, possessed by, or which would thereafter have accrued to the County, State or Municipality or taxing district issuing the certificate, had no transfer been issued. The owners of such a certificate shall have such first and prior lien upon the property of said owner or taxpayer or person liable for the tax as is held by the State, County or Municipality or taxing district, with all the rights and powers of enforcing the collection of same now possessed by the tax collecting officers of such State, County or Municipality or taxing district. In addition to the remedies hereinbefore provided, the owner of said Certificate of Transfer shall have the right to enforce the collection of same in any court of competent jurisdiction, by instituting action to enforce the lien on the property against which said taxes have been assessed, and by personal judgment against the person who requested payment of said taxes.

§ 2. The transferee, under a certificate of transfer, shall have said certificate of transfer entered on the Record of Encumbrances on Real Estate of the County in which said certificate was issued, and if, within 30 days from said transfer, the said certificate of transfer shall not be so entered, it shall lose its lien upon any property which shall have been

transferred bona fide and for a valuable consideration before the record of and without notice of the existence of said certificate of transfer.

§ 3. Any person or persons holding a lien upon property embraced in a certificate of transfer, may at any time during the life of said certificate, in case there has been no sale of property for taxes thereunder, cancel same by paying to the last recorded owner thereof, or to his order, the amount of the certificate and interest thereon at the rate of 6% per annum from the date of said certificate.

§ 4. In case two or more items of real estate are included in the tax covered by one certificate, any lien holder of any items of said property shall be entitled to a cancellation of the lien of the certificate of transfer against the property on which he has a lien, if he will, before a tax sale under said certificate, pay to the last recorded owner of said certificate the amount applicable to the personal property included in the tax referred to by said certificate, plus the pro rata part of the face value of said certificate applicable to the property on which release is desired, plus interest on the foregoing at the rate of 6% per annum.

§ 5. In case two or more items of property are included in taxes transferred under one certificate the transferee may release any item or items, and such release shall not affect the lien of the certificate on the remaining items, but shall be a release under the certificate only to the extent of the amount of taxes applying thereunder to the parcel or parcels released.

§ 6. When any certificate of transfer which has been regularly issued shall have been destroyed or lost, a duplicate certificate of transfer, in lieu of said original, shall be issued after the transferee shall have filed with the Collecting Officer of the County, State or Municipality or taxing district, in which said original certificate was issued, or with his successor, a statement under oath of the loss or destruction of such original certificate. The said Collecting Officer shall endorse on the copy issued the word "Duplicate."

§ 7. Said duplicate certificate of transfer shall have all the legal force and effect of the lost or destroyed original certificate.

§ 8. When a transferee shall have acquired a certificate of transfer which is for any reason invalid, the State, County or Municipal Corporation or taxing district having received payment of same, shall reimburse the owner thereof by paying to him the amount of principal, interest and costs expended by him in such purchase, with interest thereon at the rate of 6% per annum.

§ 9. The provisions which apply to the rights of the owner of land sold for taxes by the State, County or Municipality or taxing district, shall also apply to his rights under sales made at the instance of certificates of transfer, and the owner of said land, or his heirs if said owner is dead, or his assigns if said property shall be assigned, shall have the right to redeem same within the same length of time, and upon the same terms as are now given by law for regulating sale of property for taxes.

§ 10. Whenever any person shall request that a certificate of transfer be issued to a third party, transferring a tax on a property in which he is financially interested, said person, his heirs and assigns shall thereafter be estopped from claiming any irregularity in said tax, or any proceeding relating thereto up to the point of transfer, and such a request shall, insofar as he has the power to do so, ratify all the proceedings in regard to such tax up to that said point.

§ 11. The County Court Clerk shall be entitled to charge a fee of twenty-five cents and no more for recording the hereinabove certificate of transfer on the Record of Incumbrances and County Court Clerk shall be entitled to charge a fee of twenty-five cents and no more for each release recorded on the Record of Incumbrances of the hereinabove certificate of transfer.

Said last named motion was agreed to.

At the instance of the Committee on Rules, the House took up for consideration from the Orders of the Day a bill entitled:

H. B. 178. An Act to amend and re-enact Secs. 1761 and 1772 of Kentucky Statutes compiled and edited by John D.

Carroll relating to officers' fees in counties having more than 40,000 population.

Said bill is as follows, viz.:

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

That section one thousand seven hundred and sixty-one (1761) of the Kentucky Statutes, compiled and edited by John D. Carroll and issued in the year one thousand nine hundred and fifteen (1915) be amended by striking out the words "seventy-five thousand or over," in said section, following the words "sheriff of each county having a population of," and inserting in lieu thereof the words "one hundred and twenty-five thousand or over;" and by striking out the words "seventy-five thousand or over" following the words "That in counties having a population of," and inserting in lieu thereof the words "one hundred and twenty-five thousand or over," so that said section seventeen hundred and sixty-one, when amended and re-enacted, will read, and is re-enacted to read, as follows:

Section 1761. Officers in Counties With One Hundred and Twenty-five Thousand Population to Report Fees Collected—Commissioners and Receivers. The clerk of the circuit court, the clerk of the county court and the sheriff of each county having a population of one hundred and twenty-five thousand or over, shall, on the first day of each month, severally, send to the Auditor of Public Accounts a statement, subscribed and sworn to by each of them, showing the amount of money received or collected by or for each of them the preceding month, as fees or compensation for official duties, and shall, with such statement, send to the Auditor the amount so collected or received.

That in counties having a population of one hundred and twenty-five thousand or over, commissioners and receivers appointed by the circuit court shall receive an annual salary

of five thousand dollars, and the number of deputies allowed to each of said officers and the compensation allowed to each and the amount, if any, allowed for the necessary expenses of the office shall be regulated and fixed by an order entered upon the order book of the circuit court, and a certified copy of said order shall, as soon as entered, be forwarded to the Auditor of Public Accounts, as shall a copy of any subsequent changes made therein; Provided, however, that in counties having a population of over two hundred thousand inhabitants, composing a separate judicial district, and having six circuit judges or more, the commissioner of said circuit court shall be, and he is hereby allowed such reasonable fees as compensation for his services and the services of such necessary deputies employed by him in the discharge of the duties of said office as the said court, by rule in general term, may allow for reports and all other services rendered by him, or by any of his said deputies, not exceeding in all a salary at the rate of five thousand dollars per annum for said commissioner, two thousand dollars per annum for his chief deputy, and such other salaries not to exceed fifteen hundred dollars per annum for each of his subordinate deputies as the said court, in general term, may allow.

Said commissioners and receivers shall, in a suitable book kept in his office, keep and enter therein a true and faithful account of the amounts earned by him or due him for official services rendered to any person, company or corporation, when and to whom such service was rendered, and what part thereof, if any, has been paid, and when paid; and shall annually, in the month of January, report to the Auditor, under oath, the amount received by him on account of his official duties or position from all sources during the preceding year, as well as the amount paid out by him for necessary deputies or assistants, and for the expenses of conducting his office, giving separately the amount he has paid out on account of each item; and if it shall appear from such annual statement

that any such officer has received as compensation on account of his official services from all sources more than five thousand dollars during such year, after the payment of the salaries of his necessary deputies or assistants, and the legitimate expenses of conducting office, then such officer shall, with such statement, pay to the Auditor the amount so received in excess of said five thousand dollars and the salaries of his deputies and expenses of his office, and any such officer, who shall fail to comply herewith, shall, upon conviction, be fined not less than one hundred dollars nor more than five hundred dollars, and, upon conviction, shall be removed from office. But nothing herein contained shall be construed to prevent said officers from making up out of the overplus of any year any shortage in their salaries, or the salaries of the deputies, of any previous year.

That section one thousand seven hundred and seventy-two (1772) of the Kentucky Statutes, compiled and edited by John D. Carroll, and issued in the year one thousand nine hundred and fifteen (1915), be amended by striking out the words "seventy-five thousand or over," in said section, following the words "in counties having a population of," and inserting in lieu thereof the words "one hundred and twenty-five thousand or over," so that said section when amended and re-enacted will read, and is re-enacted to read, as follows:

Section 1772. Jailer in Counties With One Hundred and Twenty-five Thousand Population—Salary of—Number and Salary of Deputies. In counties having a population of one hundred and twenty-five thousand or over, the jailer shall, after the term of the present incumbent has expired, receive an annual salary of five thousand dollars; and the number of his deputies, guards, and turnkeys, and the salaries allowed to each, shall be fixed by the judge of the county court, the mayor of the city where the jail is located, and the judge of the criminal division of the circuit court; but the annual salary of the chief deputy shall not exceed eighteen hundred dol-

lars per annum, nor shall the annual salary of each of the other deputies, guards or turnkeys exceed twelve hundred dollars per annum. The order fixing the salaries and number of deputies, guards and turnkeys shall be signed by a majority of said persons, and spread upon the order book of the county court, and a certified copy thereof, as well as of any subsequent changes made therein, shall be filed when made with the Auditor of Public Accounts.

Ordered that said bill be read the third time.

Resolved that the title thereof be as aforesaid.

Mr. Dorman of Rules Committee moved that the vote by which said bill was passed be reconsidered and that said motion lie on the table.

Said motion was agreed to.

At the instance of the Committee on Rules, the House took up for consideration from the Orders of the Day, a bill entitled:

H. B. 553. An Act further regulating common carriers and prescribing the duties and powers of the Railroad Commission of Kentucky with reference thereto; and to repeal and re-enact an act of the General Assembly of the Commonwealth of Kentucky, approved March 24, 1922, being Chapter 102 of the Acts of the General Assembly of Kentucky of 1922 entitled "An Act further regulating common carriers and prescribing the duties and powers of the Railroad Commission with reference thereto," being Sections 201g-1 to 201g-20, both inclusive, of the 1928 Supplement to Carroll's 1922 Edition of the Kentucky Statutes; providing for penalties for violation of the provisions of this act.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

§ 1. That an Act of the General Assembly, being Chapter 102 of the Acts of the General Assembly of the Commonwealth of Kentucky of 1922, entitled, "An Act further regulating common carriers and prescribing the duties and powers of the Railroad Commission with reference thereto," approved March 24, 1922, be and the same is hereby repealed and re-enacted so that the same, when so repealed and re-enacted, will read as follows:

1. That the term "common carrier" or "common carriers," whenever used in this act, shall mean and embrace any person, corporation or company engaged in the transportation of goods or passengers for hire or compensation, within this State, by rail or boat, however propelled, including sleeping car companies and chair car companies, but shall not embrace street railway companies, or the operation thereof, within the city limits of a municipality. The word "carrier," whenever used in this act, shall mean and include common carriers, except street railway companies. Provided, however, that bus and truck lines running on public roads shall not be included or embraced within the term "carrier" or "common carrier" within the meaning of this act.

2. Whenever the words "Commission" or "Railroad Commission" are used in this act same shall be construed to mean "The Railroad Commission of Kentucky."

3. The Commission shall have the power to adopt reasonable and proper rules and regulations to govern its proceedings in all investigations and hearings.

4. A majority of the commission, as constituted, at any particular time, shall constitute a quorum at that time to transact business, and no vacancy on the Commission shall impair the right of the remaining commissioners to exercise all of the powers of the Commission; and every finding, order or decision approved by the majority of the members of the

Commission, as then constituted, shall be deemed to be a finding, order or decision of the Commission.

5. Every common carrier subject to this act shall furnish reasonably adequate service and facilities and the charge made for any services rendered in the transportation of passengers or property, or for any service in connection therewith, shall be just and reasonable, and every unjust and unreasonable charge for such service, and every unreasonable rule, regulation or practice in connection therewith is hereby prohibited and declared to be unlawful.

6. Every common carrier by rail shall print or publish in legible form schedules or tariffs showing all the fares, rates and charges for the transportation of persons or property and any service in connection therewith between different points on its own route in the State of Kentucky and between points on its own route and points on the route of any other carrier in the State of Kentucky when a through route and joint rates have been established. If no joint rate over the through route has been established, the several carriers in such through route shall file and print or publish in legible form the separately established rates, fares and charges applied to the through transportation. Such schedule shall be plainly printed or published in a legible form and a copy filed with the Railroad Commission. A copy for the use of the public shall be kept in every depot or station of such common carrier convenient for public inspection where freight or passengers are received for transportation, provided an agent is maintained at said depot or station. If, however, an agent is not maintained at said depot or station where passengers and property are received for transportation, then this requirement shall apply to the next nearest station or depot where an agent is maintained and the billings are made out. The copy of the schedules kept in a station for the inspection of the public need not show any other rate than those to all points from such station.

7. The Railroad Commission shall have the same power to regulate the existing joint rates of two or more common carriers where the transportation covered by said rates is partly by water and partly by rail, wholly within the State of Kentucky, as it now has to regulate joint rates of carriers by rail, and may, after due notice to the carriers, hear complaints and establish a through route and prescribe a just and reasonable maximum joint rate to be charged for the transportation of persons or property over such route, partly by water and partly by rail, provided no just and reasonable through route or joint rate exists, and also prescribe an equitable division of such joint rate whenever the carriers themselves shall refuse or neglect to establish any such through route or division of such joint rate. Any order of the Railroad Commission made under this section shall take effect and be in force after the expiration of ten days from the time the same shall be entered of record on the order book of the commission and a copy thereof certified by the secretary of the commission mailed to any officer, agent or attorney of the carrier affected thereby; and said order may be revoked or modified by a subsequent order likewise entered on record; and any carrier or official, agent or employee thereof knowingly or willfully failing to comply with any order of the commission made and entered under the provisions of this section shall be guilty of the same offense and shall be proceeded against in a like manner as provided for a violation of Section 820a, Carroll's Edition, Kentucky Statutes.

No change shall be made in the rates, fares or charges which have been filed and published by any carrier by rail in compliance with this act except after not less than thirty days' notice to the Railroad Commission and to the public, published as aforesaid and any changes to be made in the schedule or tariffs then in force, and the date of said proposed effective changes shall be shown by new schedules or supplements thereto, printed or published in legible form; provided, that

the Railroad Commission may, in its discretion, and for good cause shown, enter an order of record allowing changes in the tariff or schedule upon less time or modify the requirements of this act in respect to publicly posting notices and filing of tariffs either in particular instances or by a general order applicable to special or peculiar instances or by a general order applicable to special or peculiar circumstances or conditions. And, provided further, that any change ordered by the Railroad Commission under Section 820a, Kentucky Statutes, Carroll's Edition, 1922, or under any provision of this act, shall take effect as provided therein.

9. It shall be unlawful for any carrier by rail to charge, demand, collect or receive a greater or less compensation for the transportation of property or for any service rendered in connection therewith than is specified in such printed schedules or tariffs, including schedules of joint rates, as may at the time be in force, and rates, fares and charges until the same are changed as provided in Section 820a, Kentucky Statutes, Carroll's Edition 1922, or under the provisions of this act.

The names of the several carriers which are parties to any joint tariff shall be specified therein and each of the parties thereto, other than the one filing the same, shall file with the commission such evidence of concurrence therein or acceptance thereof as may be required or approved by the commission, and where such evidence of concurrence or acceptance is filed it shall not be necessary for the carrier filing the same to also file copies of the tariffs in which they are named as parties.

Every common carrier subject to this act shall also file with this commission copies of all contracts, agreements or arrangements with other common carriers in relation to any traffic affected by the provisions of this act to which it may be a party.

The commission may determine and prescribe the form in which the schedules required by this section to be kept open to public inspection shall be prepared and arranged and may change the form from time to time as shall be found expedient.

If any common carrier subject to the provisions of this Act, after written request made upon the agent of such carrier hereinafter in this section referred to, by any person or company for a written statement of the rate or charge applicable to a described shipment between stated places under the schedules or tariffs to which such carrier is a party, shall refuse or omit to give such written statement within a reasonable time, or shall misstate in writing the applicable rate, and if the person or company making such request suffers damage in consequence of such refusal or omission or in consequence of the misstatement of the rate, either through making the shipment over a line or route for which the proper rate is higher than the rate over another available line or route, or through entering into any sale or other contract whereunder such person or company obligates himself or itself to make such shipment of freight at his or its cost, then said carrier shall be liable to a penalty of two hundred and fifty dollars, which shall accrue to the State of Kentucky and may be recovered in a civil action brought by the State of Kentucky.

10. Whenever there shall be filed with the commission any schedule, stating a new individual or joint rate, fare or charge, or any new individual or joint classification, or any new individual or joint regulation or practice affecting any rate, fare or charge, the commission shall have, and it is hereby given authority, either upon complaint or upon its own initiative without complaint, at once, and if it so orders, without answer or other formal pleading by the interested carrier or carriers, but upon reasonable notice, to enter upon a hearing concerning the propriety of such rate, fare, charge, classification, regulation or practice; and pending such hearing and the decision thereon the commission upon filing with such

schedule and delivering to the carrier or carriers affected thereby a statement in writing of its reasons for such suspension may suspend the operation of such schedule and defer the use of such rate, fare, charge, classification, regulation or practice, but not for a longer period than 210 days beyond the time when such rate, fare, charge, classification, regulation or practice would otherwise go into effect; and after full hearing, whether completed before or after the rate, fare, charge, classification, regulation or practice goes into effect, the commission may make such order with reference thereto as would be proper in a proceeding initiated after it had become effective. At any hearing involving a rate increased or sought to be increased after the passage of this act, the burden of proof to show that the increased rate or proposed increased rate is just and reasonable shall be upon the common carrier, and the commission shall give to the hearing and decision of such question preference over all other questions pending before it and decide the same as speedily as possible.

11. The Railroad Commission shall have the power upon complaint filed as prescribed by Section 829, Kentucky Statutes, Carroll's Edition 1922, and upon notice and hearing as prescribed therein to make an order requiring a carrier or carriers to remove any undue preference or advantage or any undue prejudice or disadvantage prohibited by Section 818, Kentucky Statutes, Carroll's Edition 1922, and found by the commission to exist and shall also have the power to make an order prescribing the rates to be charged or services to be performed in order to remove such undue prejudice or disadvantage; and any carrier, agent, employee, trustee or receiver of a carrier knowingly or wilfully failing to comply with such order within thirty days after the same is entered by the commission on its records and a copy thereof mailed the general freight agent of the carrier or carriers ordered to cease and desist from the undue preference or advantage, or the undue prejudice or disadvantage found to exist, shall be deemed

guilty of a misdemeanor and shall be fined for the first offense in any sum not exceeding two hundred and fifty dollars, for the second offense in any sum not exceeding five hundred dollars, and for the third offense in any sum not exceeding two thousand five hundred dollars. Every distinct violation shall be a separate offense and in case of a continuing violation each day shall be deemed a separate offense. The circuit court of any county into which the line or lines of such carrier or carriers run and the Franklin Circuit Court shall have concurrent jurisdiction of said offense except as to an officer, agent, employee, trustee or receiver of the carrier, as to whose offense only the circuit court of a county into which the line of such carrier or carriers runs shall have jurisdiction.

12. Nothing in this act shall be construed to prevent concentration, commodity, transit and other special contract rates; but all such rates shall be open to all shippers for a like kind of traffic under similar circumstances and conditions and shall be subject to the provisions of this act as to printing and filing of the same and all such rates shall be under the supervision and regulation of the Railroad Commission.

13. The Railroad Commission shall have power and it shall be its duty to prescribe reasonable charges for the unreasonable detention of cars by shippers or consignees of inter-state freight, whether held for loading or unloading or for any other purpose.

14. The commission shall fix such reasonable time as it may deem proper in which the persons or carriers affected by an award or order entered by it shall notify the commission of their intention to comply with such award or order, and if, at the expiration of such time said persons or carriers have failed to file with the commission a statement in writing that they will proceed to comply with said order or award, if after filing said statement in writing such persons or carriers should fail to comply with said order or award, the chairman shall file a copy of the said award and the evidence heard in the office of

the clerk of the circuit court of the county, which, under the Code of Practice, would have jurisdiction of said controversy, and the clerk of said court shall enter the same on the docket for trial; and the summons shall be issued as in other cases against the party against whom the award shall have been rendered, requiring said party to appear in the court within the time allowed in ordinary cases and show why said award shall not be satisfied. If said party fails to appear judgment shall be rendered by default and the same proceedings had thereon as in other ordinary cases. If a trial is demanded the case shall be tried in all respects as other ordinary cases, except that no evidence shall be introduced by either party except that heard by the commission except such as the court shall be satisfied by sworn testimony could not have been produced before the commission by the exercise of reasonable diligence; the judgment and proceedings thereon shall be the same as in other ordinary cases, except that the findings of the commission shall be prima facie evidence as to the facts found. From the judgment of the court, appeal shall lie to the Court of Appeals by either Commission or the carrier or carriers, and all proceedings in court under this Act shall have precedence over all other causes except criminal causes.

15. The commissioner and officers and employees of the Railroad Commission, shall, when in the performance of their official duties, have the right to pass free of charge on all railroads, cars, vessels and other vehicles of common carriers subject in whole or in part to control or regulation by the commission, between points within this State, and each carrier shall issue to the Commonwealth, for the use of each of said commissioners, officers and employees of said commission, written or printed authority entitling them to be transported over their respective lines when engaged in the discharge of their official duties without charge or compensation.

16. Whenever a carrier by rail shall in competition with a water route, or routes, reduce the charges on any species of

freight to or from competitive points, it shall not be permitted to increase such rates, unless after hearing by the railroad commission it shall be found that such proposed increase rests upon changed conditions other than the elimination of water competition.

17. The Railroad Commission shall have the same power to regulate and prescribe two or more individual or joint rates, fares, tolls, charges, rules, regulations, practices, or other compensations of any common carrier or common carriers, or any schedule or tariff thereof and rules, regulations, charges, practices or contracts relating thereto that it now has to regulate and prescribe every individual or joint rate, fore, toll, charge, rule, regulation, practice, or other compensation of any common carrier or common carriers and the above conferred power includes the authority to classify property for shipment and the power to make any schedule or tariff thereof.

18. That if, after hearing on a complaint made as provided by law, the commission shall determine that any party complainant is entitled to an award of damages under the provisions of the law for a violation thereof, any finding and order or orders of the commission shall be prima facie evidence of the facts therein stated.

19. The Railroad Commission shall have full authority and power, at any time, to institute an inquiry, on its own motion, in any case and as to any matter or thing concerning which a complaint is authorized to be made, to or before said Commission under the laws of this State, or concerning which any question may arise thereunder, or relating to the enforcement of any of the provisions thereof. And the said Commission shall have the same powers and authority to proceed with any inquiry instituted on its own motion as though it had been appealed to by complaint or petition under any of the provisions of the laws of this State, including the power to make and enforce any order or orders in the case or relating to the mat-

ter or thing concerning which the inquiry is had, excepting orders for the payment of money. No complaint shall at any time be dismissed because of the absence of direct damage to the complainant.

20. It shall be the duty of the Railroad Commission to see that every provision of this Act is carried out, and it shall have the power to hear and determine every complaint of any violation of the provisions of this Act, provided that all complaints shall be made in writing and the company complained of shall have not less than ten days' notice of the time and place of hearing of the same. The commission shall hear and reduce to writing all evidence produced by the parties, and render such award as may be proper.

21. It shall be the duty of any sheriff or deputy in the Commonwealth of Kentucky, to execute all summons and orders necessary to be issued by the Railroad Commission under the provisions of this Act and make return to the chairman of the Commission how they have executed said subpoenas and orders.

22. Any common carrier, agent or employe, violating any of the provisions of this Act, or any official, agent or servant of any common carrier who shall fail or refuse to do or perform any duty or obligation required to be done or performed by common carriers as provided by law or under the provisions of this Act, and any common carrier, official, agent or employe who fails or refuses to comply with any order of the Railroad Commission made and entered pursuant to and in conformity with the provisions of this Act, shall be deemed guilty of a misdemeanor, and upon conviction, if no other penalty is provided by law or by the provisions of this Act, shall be fined in any sum not less than five hundred dollars nor more than one thousand dollars for each offense.

23. All prosecutions under this Act shall be commenced within two years after the offense shall have been committed.

24. The rights, privileges and remedies herein prescribed shall not be in lieu of, but in addition to the rights, privileges and remedies now existing in such cases under the states or the common law.

25. If any section, subsection, sentence, clause or phrase of this Act is for any reason held to be unconstitutional, such decisions shall not affect the validity of the remaining portions of this Act. The Legislature hereby declares that it would have passed this Act, and each section, subsection, sentence, clause and phrase thereof, irrespective of the fact that any one or more other sections, subsections, sentences, clauses or phrases be declared unconstitutional.

26. All laws and parts of laws inconsistent with this Act are hereby repealed.

Mr. Douthitt offered the following Amendments to said bill, viz.:

Amend H. B. 553, Section 9, line 103 by inserting after the word "charges" the words "specified therein shall be the lawful rates, fares and charges," and in line 119 by striking therefrom the words "this section" and inserting in lieu thereof the word "law."

Ordered that said bill be engrossed, and read the third time.

Resolved that the title thereof be as aforesaid.

Mr. Dorman of the Committee on Rules moved that the vote by which said bill was passed be reconsidered and that said motion lie on the table.

Said last named motion was agreed to.

At the instance of the Committee on Rules, the House took up for consideration from the Orders of the Day, a bill entitled:

H. B. 474. An Act concerning the title records and leases of land owned or leased by the State.

Said bill is as follows, viz.:

An Act concerning the title records and leases of land owned or leased by the State, making the Secretary of State the custodian of all records, judgments, deeds, maps and abstracts of title or other papers or records, and all leases of the Commonwealth, prescribing his duties relating thereto for the recording and keeping of such records, and authorizing copies to be used in evidence in lieu of the original; providing that the Commonwealth of Kentucky shall be named as grantee or lessee instead of naming any of its officers, departments, boards, or any other departmental agencies, requiring complete information of the title to be furnished to the Attorney General and his written approval of the title before land may be paid for by the State, and making provision concerning property acquired by condemnation or through payment of damage for injury to land, requiring all instruments convey-

ing or vesting land, or interest in land, in the State to be recorded in the county wherein the greater portion thereof lies, and providing the duties of the county clerks in regard thereto, providing for similar information, and the approval of the Attorney General respecting leases to the State, and for the safe keeping of said leases.

Requiring each department, officer, board, association, commission, branch, or other persons or person occupying or using land or building on behalf of the State to deliver a sworn list of such land with all records available to the Attorney General within sixty (60) days after the passage and approval of this act, and providing for the cooperation of all State departments or officials in carrying out the purposes of this act, and imposing penalty as liquidated damages for failure and making provisions for the recovery of such damages. Requiring the Attorney General within sixty (60) days after this Act becomes a law to proceed to supply the Commonwealth with complete information concerning the title to all lands now owned by the State, requiring the Secretary of State within six (6) months after this Act becomes a law to record and keep said records obtained by the Attorney General, and declaring an emergency to exist, and that this Act shall take effect immediately upon its passage.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Whereas, the Commonwealth of Kentucky has been for over a hundred years gradually acquiring land for state purposes, and

Whereas, it now owns the grounds of the Capitol building, and power house, the grounds of the old Capitol, the grounds of the penitentiary, Feeble Minded Institute, Arsenal, and Industrial College for Colored Persons in Franklin county, the grounds of the State Fair, of the Kentucky Children's Home, the School for the Blind, and of the Central State Hospital in Jefferson county, the grounds of the Uni-

versity of Kentucky, the School of Reform, Agricultural Experiment Station, and Eastern State Hospital in Fayette county, the grounds of the School for the Deaf at Danville, the grounds of the Western State Hospital in Christian county, the grounds of the Normal schools at Murray, Bowling Green, Morehead, Richmond, the grounds of the West Kentucky Industrial School at Paducah, the grounds of armories at Barbourville, London, Hopkinsville and Bowling Green, the grounds of the penitentiary at Eddyville in Lyon county, the grounds of the Confederate Home in Oldham county, several tracts of forest land totaling 3,624 acres in Harlan county, Pioneer Memorial State Park in Mercer county, Jefferson Davis Park and Blue and Gray State Park in Todd county, and Natural Bridge Park in Powell and Wolfe counties, and many other tracts of land in various counties not herein specifically mentioned, and

Whereas, a vast sum of money has been expended in years past for the acquisition of all of said lands, and,

Whereas, many of said tracts of land are composed of several smaller tracts which were purchased and assembled to provide the larger tract, and,

Whereas, there are no complete records of the title or boundaries of many of said tracts of land, and,

Whereas, there is no centralized collection of record of any of said lands but all of the records of said lands are at present scattered throughout the various departments of the State government, and,

Whereas, the present method of keeping the records of such a valuable and scattered property is unwise, and,

Whereas, the Commonwealth is acquiring land in many counties for many purposes such as for parks, schools, institutions, penal farms, monuments, experiment stations, and other State purposes,

§ 1. The Secretary of State shall be the custodian of all the records, judgments, deeds, maps, and abstracts of title

of all land or buildings owned or used for governmental purposes by the Commonwealth, and of leases of all land or buildings leased by the Commonwealth for a longer total or continuous time than one year, except deeds to rights of way for State or federal roads but not including State owned bridges or the approaches to bridges.

§ 2. It shall be the duty of the Secretary of State to record in a book kept in his office for that purpose all such records, judgments, deeds, maps and abstracts of title, and in another book similarly kept, all leases, and to file, safely keep, and have accessible, the original papers so recorded as well as the book wherein they are recorded. It shall be the duty of the Secretary of State to index and cross index such original papers and record books, and to index the matters therein concerned or recorded according to the county wherein the property is located and also according to the use or department of the state government using such property. Such records and indexes shall be public records, but shall not be moved from the office of the Secretary of State and whenever any of such records shall be necessary as evidence, a true copy thereof, certified to by the Secretary of State shall be used in lieu of the original record or paper.

§ 3. The Commonwealth of Kentucky shall hereafter be named as the grantee of any and all land or any interest in land conveyed to it for its use or for the use of any of its departments, boards, agencies, commissions or any of its officers, or to any and all land which is wholly or in part paid for out of state funds, or which it acquires by gift or devise.

§ 4. Whenever any land or any right, easement or interest in any land is to be paid for out of funds belonging to the state, the grantor shall submit with the deed conveying such land, a true abstract of the title to such land, the correctness of which shall be attested by the county attorney, which abstract shall show complete information concerning any action or proceeding concerning said property or said title,

together with all references to deed, mortgage, power of attorney, will, execution, lis pendens, option, mechanic liens or other books, tax bills, giving page numbers, dates, case numbers and all other references and the description of the property, and the grantor shall submit with such abstract an accurate map or plat of the boundaries of the land therein conveyed as made by a competent surveyor within three months prior to the date of the deed conveying such tract or tracts of land to the State, said map showing the corners, angles and calls of such boundaries, and the whole shall be submitted to and approved by the Attorney General before the Auditor of Public Accounts or officer upon whom claim for payment is made therefor, shall issue his warrent or pay for such land. When the Attorney General shall have given his written approval to the title and purchase of such land, all records herein mentioned pertaining thereto including the opinion of the Attorney General shall be deposited with, recorded and safely kept by the Secretary of State as provided in Section 2.

§ 5. Whenever the Commonwealth shall acquire title to any land or any right, easement or interest in any land as contemplated in Section 1 hereof, by condemnation proceedings, or through payment of damages for an injury to any land, the Secretary of State shall be furnished a certified copy of the judgment of the court vesting title to the Commonwealth in said real estate certified by the clerk thereof and the other information thereof as required in Section 4 and shall keep and record such information as provided in Section 2.

§ 6. All deeds and judgments conveying or vesting in or to the State any land or right, easement or interest in any land shall be recorded in the office of the clerk of the county court of the county wherein such land or the greater part thereof lies, and when so recorded such deed together with the county clerk's certificate of record shall be transmitted forthwith by the county court clerk to the Secretary of State, and the county

clerk before transmitting said deed to the Secretary of State, shall endorse on said deed, the Deed Book and page number and county where he has recorded it as follows: "Recorded in Deed Book ——— Page ——, ——— County Court Clerk's Office."

§ 7. Before any lease of any land or building (excluding the lease of not more than six offices in an office building) shall be occupied by any officer, department, board or branch of the State Government for any governmental purpose, or be paid for out of funds belonging to the State, the lessor shall submit the lease and with it the plat or map mentioned in the preceding section and have said lease and map approved by the Attorney General and recorded and kept by the Secretary of State as set out in Section 2. The Commonwealth of Kentucky shall be named as the lessee in all leases for governmental purposes or for the use of the State instead of naming therein an officer, board, department or branch of the State government.

§ 8. (a) Within sixty days after the passage and approval of this act, each officer, board, department, association, commission, branch or other persons or person who now have title to or have leased, or who is or are occupying or using as owner or lessee any land or building for the use of the State, or which heretofore so occupied or used any land or buildings which have been abandoned but which have not been sold or conveyed by law by the State, or which was or is paid for in whole or in part out of funds belonging to the state, or was conveyed or bequeathed to the State, shall prepare a list of said property, and deliver same to the Attorney General. Said list shall be in the form of an affidavit and shall be sworn to by the person submitting it and shall show when said property was acquired or leased, the amount for which it was purchased or leased and by what law said purchase or lease was authorized. With said list and attached thereto, shall be delivered every deed, abstract of title, judgment or court record,

map, plat, lease, or any other record or memorandum in his or its possession pertaining to such property, and each officer, board, department, association, commission, branch or other persons or person so using or formerly using property as herein mentioned shall co-operate with the Attorney General or any person designated by him in carrying out the purposes of this act, and in disclosing any property so owned or used of which no record or memorandum is available.

(b) Penalty. The officer, individual members of a commission or board, head of department or person in charge of any such property shall pay to the Commonwealth the sum of one ($1) dollar per day as liquidated damages for failure to comply with paragraph (a) above, such sum to be deducted from the monthly salary of such person or persons each month such person or persons so fail to comply herewith if such person or persons are paid out of funds belonging to the State, and if not paid out of funds belonging to the State, such sum may be recovered as damages by an action at law against such person or persons, in any court of Franklin County having jurisdiction of the amount involved.

§ 9. Within sixty (60) days after this act becomes a law, the Attorney General shall proceed to examine the title to and make a complete abstract of any such land or lands which in his opinion should be examined or abstracted, and he shall or may employ a competent surveyor or engineer for the purpose of running the boundaries of all lands herein mentioned and drawing a map or plat thereof, of which there is not already a map or plat made and in the possession of the officials of the Commonwealth.

§ 10. The Secretary of State may, within six (6) months after this act becomes a law, employ one clerk for the purpose of copying or recording and filing records herein mentioned, but such clerk shall not be employed longer than the time necessary to complete such duties of the Secretary of State concerning property now owned by the State, it being the inten-

tion of this General Assembly to impose upon the Secretary of State and the Attorney General in addition to their usual duties now imposed by law, the additional duties in the future set out in Sections 1 to 5 hereof.

§ 11. Whereas the state is continually acquiring property under the existing laws, and whereas more than a year may be necessary to assemble the records herein mentioned, and whereas these records should be collected as herein provided as speedily as possible, an emergency is declared to exist and this act shall take effect immediately upon its passage.

Mr. Handmaker offered the following Amendment to said bill, viz.:

Amend H. B. 474 by inserting in Section 10 thereof the figure "7" in lieu of the figure "5" where said figures appear near the end of said section.

Said Amendment was agreed to.

Ordered that said bill be engrossed and read the third time.

The Constitutional provision as to the third reading of said bill at length being dispensed with and the same being engrossed, said bill was read the third time by its title only and passed.

The yeas and nays being taken thereon in accordance with the provision of the Constitution, were as follows, viz.:

Resolved that the title thereof be as aforesaid.

Mr. Dorman of the Committee on Rules, moved that the vote by which said bill was passed be reconsidered and that said motion lie on the table.

Said last named motion was agreed to.

At the instance of the Committee on Rules, the House took up for consideration from the Orders of the Day a bill entitled:

H. B. 327. An Act to enable cities of the first class in this Commonwealth to provide for city and regional planning and zoning; the creation, organization and powers of planning and zoning commissions; the regulation of subdivision of land

and the acquisition of right to keep planned streets free from buildings and providing penalties for violation of this Act, and to repeal all laws and parts of laws inconsistent herewith and especially Section Two of an Act entitled "An Act to amend an Act entitled 'An Act for the government of cities of the first class,' approved July first, one thousand eight hundred and ninety-three," and which was approved and became a law on March 21, 1906, as amended by Section 54 of an Act, the short title of which is "City Government Bill—Cities of the first class," which was approved and became a law March 22, 1926.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

§ 1. Definitions. For the purpose of this Act certain terms are defined, as provided in this Section.

Whenever appropriate, the singular includes the plural and the plural includes the singular. "Municipality" or "municipal" includes or relates to any city of the first class in this Commonwealth. "Mayor" means the chief executive of the City, whether the official designation of this office by Mayor, City Manager, or otherwise. "Council" means the chief legislative body of the municipality. The term "streets" includes streets, avenues, boulevards, roads, lanes, alleys, viaducts, and other ways. "Subdivision" means the division of a lot, tract or parcel of land into two or more lots, plats, sites, or other divisions of land for the purpose, whether immediate or future, of sale or of building development. It includes re-subdivision and, when appropriate to the context, relates to the process of subdividing or to the land or territory subdivided.

TITLE I—MUNICIPAL PLANNING AND ZONING COMMISSIONS

§ 2. Grant of Power to Municipality.

Planning. Any City of the first class is hereby authorized and empowered to make, adopt, amend, extend, add to,

or carry out a municipal plan, as provided in this Act, and create by ordinance a planning and zoning commission, with the powers and duties herein set forth. The planning and zoning commission of such City shall be designated "City Planning and Zoning Commission of ————, Kentucky."

§ 3. Personnel of the Commission.

The Commission shall consist of nine members, namely, the Mayor, City Engineer or such other styled officer as performs the duties of City Engineer, Director of Works of said City or such other styled officer as performs the duties of Director of Works of said City, President of the Board of Park Commissioners, as members ex-officio, and five persons who shall be appointed by the Mayor, if the Mayor be an elective officer, otherwise, by such officer as council may in the ordinance creating the Commission, designate as the appointing power. All members of the Commission shall serve as such without compensation, and the appointed members shall hold no other municipal office, except that one of such appointed members may be a member of the zoning board of adjustment or appeals. The terms of ex-officio members shall correspond to their respective official tenures. The term of each appointed member shall be four years or until his successor takes office. Members may, after a public hearing, be removed by the Mayor for inefficiency, neglect of duty, or malfeasance in office. The Mayor shall file a written statement of reasons for such removal. Vacancies occuring otherwise than through the expiration of term shall be filled for the unexpired term by the Mayor, and by the appointing power designated by council in municipalities in which the Mayor is not an elective officer.

§ 4. Organization and Rules.

The Commission shall elect its chairman from amongst the appointed members and create and fill such other of its offices as it may determine. The term of chairman shall be one year, with eligibility for re-election. The Commission shall hold at least one regular meeting in each month. It

shall adopt rules for transaction of business and shall keep a record of its resolutions, transactions, findings, and determinations, which record shall be a public record.

§ 5. Staff and Finances.

The Commission may appoint such employees as it may deem necessary for its work, whose appointment, promotion, demotion, and removal shall be subject to the same provisions of law as govern other corresponding civil employees of the municipality. The Commission may also contract with city planners, engineers, architects, and other consultants for such services as it may require. The expenditures of the Commission, exclusive of gifts, shall be within the amounts appropriated for the purpose by council, which shall provide the funds, equipment, and accommodations necessary for the Commission's work.

§ 6. General Powers and Duties.

It shall be the function and duty of the Commission to make for submission to the Council, a master plan for the physical development of the municipality, including any areas outside of its boundaries, and including in any such areas the area of any City of a lower class than first class, which, in the Commission's judgment, bear relation to the planning of such municipality. Such plan, with the accompanying maps, plats, charts, and descriptive matter shall show the commission's recommendations for the development of said territory, including, among other things, the general location, character, and extent of streets, viaducts, subways, bridges, waterways, water fronts, boulevards, parkways, playgrounds, squares, parks, aviation fields, and other public ways, grounds and open spaces, the general location of public buildings and other public property, and the general location and extent of public utilities and terminals, whether publicly or privately owned or operated, for water, light, sanitation, transportation, communication, power, and other purposes; also the removal, relocation, widening, narrowing, vacating, abandonment, change of use or extension of any of the foregoing ways, grounds,

open spaces, buildings, property, utilities, or terminals; as well as a zoning plan for the control of the height, area, bulk, location, and use of buildings and premises. As the work of making the whole master plan progresses, the Commission may, from time to time, submit, and if adopted by Council, publish a part or parts thereof, any such part to cover one or more major sections or divisions of the municipality or one or more of the aforesaid or other functional matters to be included in the plan. The Commission may, from time to time, submit suggestions to council to amend, extend, or add to the plan.

§ 7. Purposes in View.

In the preparation of such plan the commission shall make careful and comprehensive surveys and studies of present conditions and future growth of the municipality and with due regard to its relation to neighboring territory. The plan shall be made with the general purpose of guiding and accomplishing a co-ordinated, adjusted, and harmonious development of the municipality and its environs which will, in accordance with present and future needs, best promote health, safety, morals, order, convenience, prosperity, and general welfare, as well as efficiency and economy in the process of development; including, among other things, adequate provision for traffic, the promotion of safety from fire and other dangers, adequate provisions for light and air, the promotion of the healthful and convenient distribution of population, the promotion of good civic design and arrangement, wise and efficient expenditure of public funds, and the adequate provision of public utilities and other public requirements.

§ 8. Procedure of Commission.

The Council may adopt a plan as a whole by a single ordinance of may by successive ordinances adopt successive parts of the plan, said parts corresponding with major geographical sections or divisions of the municipality or with functional subdivisions of the subject matter of the plan, and may adopt

any amendment or extension thereof or addition thereto. Before the adoption of the plan or any such part, amendment, extension, or addition, the Council shall hold at least one public hearing thereon, notice of the time and place of which shall be given by one publication in a newspaper of general circulation in the municipality and in the official gazette, if any, of the municipality. The adoption of the plan or of any such part or amendment or extension or addition shall be by ordinance of the Council carried by the affirmative votes of not less than a majority of members of the Council. The ordinance shall defer expressly to the maps and descriptive and other matters intended by the Council to form the whole or part of the plan, and the action taken shall be recorded on the map and plan and descriptive matter by the identifying signature of the President and Clerk of the Council. An attested copy of the plan or part thereof shall be certified to the County Clerk for record.

§ 9. Legal Status of Official Plan.

Whenever the Council shall have adopted the master plan of the municipality or of one or more major sections or districts thereof, no new street, square, park, or other public way, ground, or open space, or any public building or structure, or public utility, whether publicly or privately owned, shall be constructed or authorized in the municipality or in such planned section and district until the location, character and extent thereof shall have been submitted to and approved by the Commission. Provided, That in case of disapproval the commission shall communicate its reason to council which shall have the power to overrule such disapproval by a recorded vote of not less than two-thirds of its entire membership: Provided, however, that if the public way, ground, space, building, structure, or utility be one the authorization or financing of which does not, under the law or charter provisions governing same, fall within the province of the municipal council, then the submission to the planning commission shall be by the board, commission, or body having such juris-

diction, and the planning commission's disapproval may be overruled by said board, commission, or body by a vote of not less than two-thirds of its membership. The failure of the planning commission to act within sixty (60) days from and after the date of official submission to it, shall be deemed approval.

§ 10. Miscellaneous Powers and Duties of Commission.

The Commission shall have power to promote public interest in and understanding of the plan and to that end may publish and distribute copies of the plan or of any report and may employ such other means of publicity and education as it may determine. Members of the commission, and any of its employees, when duly authorized by the commission, may attend city planning conferences or meetings of city planning institutes or hearings upon pending city planning legislation, and the commission may, by resolution, spread upon its minutes, pay the reasonable traveling expenses incident to such attendance. The Commission shall, from time to time, recommend to the appropriate public officials, programs for public structures and improvements and for the financing thereof. It shall be part of its duties to consult and advise with public officials and agencies, public utility companies, civic, educational, professional, and other organizations, and with citizens with relation to the protecting or carrying out of the plan. The Commission shall have the right to accept and use gifts for the exercise of its functions. All public officials shall, upon request, furnish to the commission, within a reasonable time, such available information as it may require for its work. The commission, its members, officers, and employees, in the performance of their functions, may enter upon any land and make examinations and surveys and place and maintain necessary monuments and marks thereon. In general, the commission shall have such powers as may be necessary to enable it to fulfill its functions, promote municipal planning, or carry out the purposes of this act.

TITLE II—ZONING

§ 11. Grant of Power to Municipality.

(a) For the purpose of promoting health, safety, morals, or the general welfare of the community, the legislative body of cities of the first class is hereby empowered to regulate and restrict the height, number of stories, and size of buildings and other structures, the percentage of lot that may be occupied, the size of yards, courts, and other open spaces, the density of population, and the location and use of buildings, structures, and land for trade, industry, residence, or other purposes.

(b) Districts. For any or all of said purposes the local legislative body may divide the municipality into districts of such number, shape, and area as may be deemed best suited to carry out the purposes of this act; and within such districts it may regulate and restrict the erection, construction, reconstruction, alteration, repair, or use of buildings, structures or land. All such regulations shall be uniform for each class or kind of building throughout each district, but the regulations in one district may differ from those in other districts.

(c) Purposes in View. Such regulations shall be made in accordance with a comprehensive plan and designed to lessen congestion in the streets; to secure safety from fire, panic, and other dangers; to promote health and the general welfare; to provide adequate light and air; to prevent the overcrowding of land; to avoid undue concentration of population; to facilitate the adequate provision of transportation, water, sewerage, schools, parks and other public requirements. Such regulations shall be made with reasonable consideration, among other things, to the character of the district and its peculiar suitability for particular uses, and with a view to conserving the value of buildings and encouraging the most appropriate use of land throughout such municipality.

(d) Method of Procedure. The legislative body of such municipality shall provide for the manner in which such regu-

lations and restrictions and the boundaries of such districts shall be determined, established, and enforced, and from time to time amended, supplemented, or changed. However, no such regulation, restriction, or boundary shall become effective until after a public hearing in relation thereto, at which parties in interest and citizens shall have an opportunity to be heard. At least fifteen (15) days' notice of the time and place of such hearing shall be published in an official paper, or a paper of general circulation, in such municipality.

(e) Changes. Such regulations, restrictions, and boundaries may from time to time be amended, supplemented, changed, modified, or repealed. In case, however, of a protest against such change signed by the owners of twenty per cent (20%) or more either of the area of the lots included in such proposed change, or of those immediately adjacent in the rear thereof extending 175 feet therefrom, or of those directly opposite thereto extending 175 feet from the street frontage of such opposite lots, such amendment shall not become effective except by the favorable vote of three-fourths of all the members of the legislative body of such municipality. The provisions of the previous section relative to public hearings and official notice shall apply equally to all changes or amendments.

(f) In order that the council of said city may avail itself of the zoning powers conferred by this act, it shall be the duty of the planning and zoning commission to recommend the boundaries of the various original districts and appropriate regulations to be enforced therein. Such commission shall make a preliminary report and hold public hearings thereon before submitting its final report and the council shall not hold its public hearings or take action until it has received the final report of such commission.

§ 12. Board of Adjustment and Appeals.

The Council shall provide for the appointment of a board of adjustment and appeals, and in the regulations and restrictions adopted pursuant to the authority of this act may

provide that the said board of adjustment and appeals may, in cases where it is exceptionally difficult if not impossible to comply with the exact provisions of the ordinance, make such variation as will prevent unwarranted hardship or injustice and at the same time most nearly accomplish the purpose and intent of the regulations of the zoning plan.

The board of adjustment and appeals shall consist of five members, one of whom shall be a structural engineer of not less than ten years' professional experience, one shall be an architect of not less than ten years' professional experience, and one shall be a real estate dealer of not less than ten years' experience, and one shall be a member of the planning and zoning commission and one shall be appointed at large. The term of office of the members of the board shall be three years. They shall be appointed by the Mayor and removable by him for cause, upon written charges, and after public hearing. Vacancies shall be filled by the Mayor for the unexpired term of any member whose term becomes vacant.

The board shall adopt rules in accordance with the provisions of any ordinance adopted pursuant to this act. Meetings of the board shall be held at the call of the chairman and at such other times as the board may determine. Such chairman or in his absence, the acting chairman, may administer oaths and compel the attendance of witnesses. All meetings of the board shall be open to the public. The board shall keep minutes of its proceedings, showing the vote of each member upon each question, or, if absent or failing to vote, indicating such fact, and shall keep records of its examinations and other official actions, all of which shall be immediately filed in the office of the board and shall be a public record.

Appeals to the board of adjustment and appeals may be taken by any person aggrieved or by any officer, department, board, or bureau of the municipality affected by any decision of the administrative officer. Such appeal shall be taken within a reasonable time, as provided by the rules of the board,

by filing with the officer from whom the appeal is taken and with the board of adjustment and appeals a notice of appeal specifying the grounds thereof. The officer from whom the appeal is taken shall forthwith transmit to the board all the papers constituting the record upon which the action appealed from was taken.

An appeal stays all proceedings in furtherance of the action appealed from, unless the officer from whom the appeal is taken certifies to the board of adjustment and appeals after the notice of appeal shall have been filed with him that by reason of facts stated in the certificate a stay would, in his opinion, cause imminent peril to life or property. In such case proceedings shall not be stayed otherwise than by a restraining order which may be granted by the board of adjustment and appeals or by a court of record on application on notice to the officer from whom the appeal is taken and on due cause shown.

The board of adjustment and appeals shall fix a reasonable time for the hearing of the appeal, give public notice thereof, as well as due notice to the parties in interest, and decide the same within a reasonable time. Upon the hearing any party may appear in person or by agent or by attorney.

The board of adjustment and appeals shall have the following powers:

(a) To hear and decide appeals where it is alleged there is error in any order, requirement, decision, or determination made by an administrative official in the enforcement of this act or of any ordinance adopted pursuant thereto.

(b) To hear and decide special exceptions to the terms of the ordinance upon which such board is required to pass under such ordinance.

(c) To authorize upon appeal in specific cases such variance from the terms of the ordinance as will not be contrary to the public interest, where, owing to special conditions, the enforcement of the provisions of the ordinance will result

in unwarranted hardship and injustice, but which will most nearly accomplish the purpose and intent of the regulations of the zoning plan.

In exercising the above-mentioned powers such board may, in conformity with the provisions of this act, reverse or affirm, wholly or partly, or may modify the order, requirement, decision, or determination appealed from and make such order, requirement, decision, or determination as ought to be made, and to that end shall have all the powers of the officer from whom the appeal is taken.

The concurring vote of four members of the board shall be necessary to reverse any order, requirement, decision, or determination of any such administrative official, or to decide in favor of the applicant on any matter upon which it is required to pass under any such ordinance, or to effect any variation in such ordinance.

Any person or persons, jointly or severally, aggrieved by any decision of the board of adjustment and appeals, or any taxpayer, or any officer, department, board, or bureau of the municipality, may present to the circuit court of the county, a petition, duly verified, setting forth that such decision is illegal, in whole or in part, specifying the grounds of the illegality. Such petition shall be presented to the court within thirty (30) days after the filing of the decision in the office of the board.

Upon the presentation of such petition the court may allow a writ of certiorari directed to the board of adjustment and appeals to review such decision of the board of adjustment and appeals and shall prescribe therein the time within which a return thereto must be made and served upon the relator's attorney, which shall not be less than ten (10) days and may be extended by the court. The allowance of the writ shall not stay proceedings upon the decision appealed from, but the court may, on application, on notice to the board and on due cause shown, grant a restraining order.

The board of adjustment and appeals shall not be required to return the original papers acted upon by it, but it shall be sufficient to return certified or sworn copies thereof or of such portions thereof as may be called for by such writ. The return shall concisely set forth such other facts as may be pertinent and material to show the grounds of the decision appealed from and shall be verified.

If, upon the hearing, it shall appear to the court that testimony is necessary for the proper disposition of the matter, it may take evidence or appoint a referee to take evidence as it may direct and report the same to the court with his findings of fact and conclusions of law, which shall constitute a part of the proceedings upon which the determination of the court shall be made. The court may reverse or affirm, wholly or partly, or may modify the decision brought up for review.

Costs shall not be allowed against the board unless it shall appear to the court that it acted with gross negligence, or in bad faith, or with malice in making the decision appealed from.

All issues in any proceeding under this section shall have preference over all other civil actions and proceedings.

§ 13. Existing Planning and Zoning Commissions.

The commission appointed under this act shall have all powers granted by law heretofore to any planning or zoning commission of the municipality, and from and after the creation of a planning and zoning commission hereunder in such municipality, all powers and records of the then planning and zoning commission shall be transferred to this planning and zoning commission, provided, however, that in the event that any existing planning and zoning commission shall be nearing the completion of its zoning plan, council may, by resolution, postpone the said transfer of the zoning commission's powers until the completion of such zoning plan; but such postponement shall not exceed a period of six months.

TITLE III—SUBDIVISION CONTROL

§ 14. Subdivision Jurisdiction.

The territorial jurisdiction of any municipal planning commission over the subdivision of land shall include all land located in the municipality and all land lying within five miles of the corporate limits of the municipality and not located in any other municipality of the first class, except that, in the case of any such nonmunicipal land lying within five miles of more than one municipality having a planning commission under this Act, the jurisdiction of each such municipal planning commission shall terminate at a boundary line equidistant from the respective corporate limits of such municipalities.

§ 15. Scope of Control of Subdivisions.

Whenever a council shall have adopted a major street plan of the territory within its subdivision jurisdiction or part thereof, and shall have filed a certified copy of such plan in the office of the county clerk of the county in which such territory or part is located, then no plat of a subdivision of land within such territory or part shall be filed or recorded until it shall have been approved by the planning commission and such approval entered in writing on the plat by the chairman or secretary of the commission.

§ 16. Subdivision Regulations.

Before exercising the powers referred to in Section 15, the planning commission shall prepare regulations governing the subdivision of land within its jurisdiction. Such regulations may provide for the proper arrangement of streets in relation to other existing planned streets and to the master plan, for adequate and convenient open spaces for traffics, utilities, access of fire-fighting apparatus, recreation, light and air, and for the avoidance of congestion of population, including minimum width and area of lots.

Such regulations may include provisions as to the extent to which streets and other ways shall be graded and improved

and to which water and sewer and other utility mains, piping, or other facilities shall be installed as a condition precedent to the approval of the plat. The regulations or practice of the commission may provide for a tentative approval of the plat previous to such installation; but any such tentative approval shall be revocable and shall not be entered on the plat. In lieu of the completion of such improvements and utilities prior to the final approval of the plat, the commission may accept a bond with surety to secure to the municipality the actual construction and installation of such improvements or utilities at a time and according to specifications fixed by or in accordance with the regulations of the commission. The municipality is hereby granted the power to enforce such bond by all appropriate legal and equitable remedies.

Before any regulations shall be submitted to council for adoption a public hearing shall be held thereon and all such regulations, or, if in the opinion of the commission it is best, a brief synopsis of such regulations, sufficient to inform a person of ordinary intelligence of the nature and contents of such regulations, together with the time and place of such public hearing, shall be published once or more, if the commission deems best, in a daily newspaper published and in general circulation in such city and county. When such regulations are adopted by the council, a copy thereof shall be certified by the commission to the county clerk of the county in which the municipality and territory are located, for record.

§ 17. Procedure, Legal Effect of Approval of Plat.

The planning and zoning commission shall approve or disapprove a plat within thirty days after the submission thereof to it; otherwise such plat shall be deemed to have been approved, and a certificate to that effect shall be issued by the commission on demand: Provided, however, that the applicant for the commission's approval may waive this requirement and consent to an extension of such period. The ground of disapproval of any plat shall be stated upon the records

of the commission. Any plat submitted to the Commission shall contain the name and address of a person to whom notice of a hearing shall be sent; and no plat shall be acted on by the commission without affording a hearing thereon. Notice shall be sent to the said address by registered mail of the time and place of such hearing not less than five days before the date fixed therefor. Every plat approved by the commission shall by virtue of such approval, be deemed to be an amendment of or an addition to or a detail of the municipal plan and a part thereof. Approval of a plat shall not be deemed to constitute or effect an acceptance by the public of any street or other open space shown upon the plat. The planning commission may, from time to time, recommend to council amendments of the zoning ordinance or map or additions thereto to conform to the commission's recommendations for the zoning regulation of the territory comprised within approved subdivisions. The commission shall have the power to agree with the applicant upon use, height, area or bulk requirements or restrictions governing buildings and premises within the subdivision provided such requirements or restrictions do not authorize the violation of the then effective zoning ordinance of the municipality. Such requirements or restrictions shall be stated upon the plat prior to the approval and recording thereof and shall have the same force of law and be enforceable in the same manner and with the same sanctions and penalties and subject to the same power of amendment or repeal as though set out as a part of the zoning ordinance or map of the municipality.

§ 18. Penalties for Transferring Lots in Unapproved Subdivisions.

Whoever, being the owner or agent of the owner of any land located within a subdivision, transfers or sells or agrees to sell or negotiates to sell any land by reference to or exhibition of or by other use of a plat of a subdivision, before such plat has been approved by the planning and zoning com-

mission and recorded or filed in the office of the appropriate county clerk, shall forfeit and pay a penalty of One Hundred ($100.00) Dollars for each lot or parcel so transferred or sold or agreed or negotiated to be sold; and the description of such lot or parcel by metes and bounds in the instrument of transfer or other document used in the process of selling or transferring shall not exempt the transaction from such penalties or from the remedies herein provided. The municipal corporation may enjoin such transfer or sale or agreement by action for injunction brought in any court of equity jurisdiction or may recover the said penalty by civil action in any court of competent jurisdiction.

§ 19. County Clerk's Duties.

A County Clerk who files or records a plat of a subdivision without the approval of the planning and zoning commission as required by law shall be deemed guilty of a misdemeanor and shall be fined not less than One Hundred ($100.00) Dollars nor more than Five Hundred ($500.00) Dollars.

§ 20. Status of Existing Platting Statutes.

From and after the time when a planning commission shall have control over subdivisions as provided in Section 14 of this Act, the jurisdiction of the planning and zoning commission over plats shall be exclusive within the territory under its jurisdiction, and all statutory control over plats or subdivisions of land granted by other statutes shall, insofar as in harmony with the provisions of this Act be deemed transferred to the planning and zoning commission of such municipality.

Title IV. Mapped Streets

§ 21. Official Map.

The legislative body may establish an official map of the city showing the streets and highways heretofore laid out, adopted and established by law and such legislative body is authorized and empowered whenever and as often as it may

deem it for the public interest to change or add to the official map of the city, so as to lay out new streets or highways or to widen or to close existing streets or highways and such map is to be deemed to be final and conclusive with respect to the location and width of streets and highways shown thereon. Such official map is hereby declared to be established to preserve and promote the public health, safety and general welfare. At least ten (10) days' notice of a public hearing on any proposed action with reference to any change in the official map shall be published in an official publication of said city or in a newspaper of general circulation therein; before making such addition or change the matter shall be referred to the planning board for a report thereon, but if the planning board shall not make its report within thirty (30) days of such reference, it shall forfeit the right further to suspend action. Such additions and changes, when adopted, shall become a part of the official map of the city, and shall be deemed to be final and conclusive with respect to the location of the streets and highways shown thereon.

§ 22. Permits for Building in Bed of Mapped Streets.

For the purpose of preserving the integrity of all official maps no permit shall hereafter be issued for any building in the bed of any street or highway shown or laid out on such map, provided, however, that if the land within such mapped street or highway cannot be used or made to yield a fair return, the board of zoning appeals or other similar board in any city which has established such board having power to make variances or exceptions in zoning regulations shall have power in a specific case by the vote of a majority of its members to grant a permit for a building in such street or highway which will as little as practicable increase the cost of opening such street or highway, or tend to cause a change of such official map, and such board may impose reasonable requirements as a condition of granting such permit, which requirements shall inure to the benefit of the city. Before tak-

ing any action authorized in this section, the board of zoning appeals or similar board shall give a hearing at which parties in interest and others shall have an opportunity to be heard. At least fifteen (15) days' notice of the time and place of such hearing shall be published in a newspaper of general circulation in said city. Any such decision shall be subject to review by order issued out of a court of record in the same manner and pursuant to the same provisions as in appeals from the decisions of such board upon zoning regulations.

§ 23. Municipal Improvements in Streets; Buildings Not on Mapped Streets.

No public sewer or other municipal street utility or improvement shall be constructed in any street or highway until such street or highway is fully placed on the official map. No permit for the erection of any building shall be issued unless a street or highway giving access to such proposed structure has been duly placed on the official map. Where the enforcement of the provisions of this section would entail exceptional difficulty or unwarranted hardship and where the circumstances of the case do not require the structure to be related to existing or proposed streets or highways, the applicant for such a permit may appeal from the decision of the administrative officer having charge of the issue of permits to the board of appeals or other similar board in any city which established a board having power to make variances or exceptions in zoning regulations, and the same provisions are hereby applied to such appeals and to such boards as are provided in cases of appeals on zoning regulations. The board may in passing on such appeal make any reasonable exception and issue the permit subject to conditions that will protect any future street or highway layout. Any such decision shall be subject to review by certiorari order issued out of a court of record in the same manner and pursuant to the same provisions as in appeals from the decisions of such board upon zoning regulations.

TITLE V. GENERAL PROVISIONS

§ 24. Enforcement and Remedies.

The Council may provide by ordinance for the enforcement of this act and of any ordinance or regulation made thereunder. A violation of this act or of such ordinance or regulation is hereby declared to be a misdemeanor, and such local legislative body may provide for the punishment thereof by fine or imprisonment or both. It is also empowered to provide civil penalties for such violation.

In case any building or structure is erected, constructed, reconstructed, altered, repaired, converted, or maintained, or any building, structure, or land is used in violation of this act or of any ordinance or other regulations made under authority conferred hereby, the proper local authorities of the municipality, in addition to other remedies, may institute any appropriate action or proceeding to prevent such unlawful erection, construction, reconstruction, alteration, repair, conversion, maintenance, or use, to restrain, correct or abate such violation, to prevent the occupancy of said building, structure or land, or to prevent any illegal act, conduct, business, or use in or about such premises.

§ 25. Conflict With Other Laws.

Wherever the regulations made under authority of this act require a greater width or size of yards, courts, or other open spaces, or require a lower height of building or less number of stories, or require a greater percentage of lot to be left unoccupied or impose other higher standards than are required in any other statute or local ordinance or regulation, the provisions of the regulations made under authority of this act shall govern. Wherever the provisions of any other statute or local ordinance or regulation require a greater width or size of yards, courts, or other open space, or require a lower height of building or a less number of stories, or require a greater percentage of a lot to be left unoccupied, or impose other higher standards than are required by the regu-

lations made under authority of this act, the provisions of such statute or local ordinance or regulation shall govern.

§ 26. Saving Clause.

The invalidity of any provision of this Act shall not affect the validity of any other provision.

§ 27. Repeal.

All laws or parts of laws inconsistent with this Act and especially Section Two of an Act entitled, "An Act to amend an Act entitled 'An Act for the Government of Cities of the First Class,' approved July first, one thousand eight hundred and ninety-three," and which was approved and became a law on March 21, 1906, as amended by Section 54 of an Act, the short title of which is "City Government Bill—Cities of the First Class," which was approved and became a law on March 28, 1926, are hereby repealed.

Resolved that the title thereof be as aforesaid.

Mr. Dorman of Rules Committee moved that the vote by which said bill was passed be reconsidered and that said motion lie on the table.

Said motion was agreed to.

At the instance of the Committee on Rules, the House took up for consideration from the Orders of the Day a bill entitled:

S. B. 52. An Act for the furtherance of forest fire protection; providing for the acceptance of gifts of land; amending wording of Article 3 of Sec. 200 7h-2 Kentucky Statutes 1922; amending wording of Sec. 1254 and 1255 of Article 4, chapter 36 of Kentucky Statutes 1922, providing for patrol of private forested land.

Said bill is as follows, viz.:

Whereas, it has been shown that of the total area of the State there are 10,500,000 acres classified as not suitable for anything except the growing of timber, and whereas all of this land should be growing just as much timber as it can produce, so that future generations of Kentuckians will have lumber to cut instead of bare hillsides, and whereas floods cause millions of dollars' worth of damage every year in Kentucky resulting in much sickness and misery, and whereas forest fires are the main factors in suppressing the young timber now trying to grow on this said 10,500,000 acres, burning the ground cover, causing the slopes to erode and wash, filling up the stream beds, and whereas there are large and valuable areas of second growth timberlands in the State which are unprotected from forest fires, due to the small annual appropriation allotted the State Forestry Department, thereby causing forest fires to destroy thousands of dollars' worth of timber yearly, it is felt that in the interest of economy and the advancement of general prosperity through the State that these ruinous conditions be remedied; therefore,

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

§ 1. That the Governor of the State is authorized upon the recommendation of said Kentucky State Forest Service to accept gifts of land to the State, the same to be held, protected, and administered by the Kentucky Forest Service as State Forest Reserves, and to be used so as to demonstrate the practical utility of timber culture, water conservation, and a breeding place for game. Such gifts must be absolute, except that all mineral and mining rights over and under said lands may be reserved at the option of the donor and a stipulation that they shall be administered as State Forest Reserves, and that the Attorney General of the State is directed to see that all

deeds to the State of land mentioned above are properly executed before the gift is accepted.

§ 2. That Article 3 of Section 200-7h-2 of Kentucky Statutes, Carroll's 1922 edition, be amended by inserting the words "for a period of four years" in lieu of the present words "for a period of two years," so that this article when amended shall read:

"That the Commissioner of Agriculture, Labor and Statistics is hereby authorized to appoint with the consent of the Governor for a period of four years, a technically trained forester who is a graduate of a school of forestry and who shall have both a practical and theoretical knowledge of forestry and shall hold office until his successor is appointed."

§ 3. That any person who shall, without authority, destroy, deface, or remove any notice, sign, or poster of the Kentucky State Forest Service, posted for the better protection of wood lots, forests, or wild lands from fire or trespass, shall upon conviction thereof in a summary proceeding before any magistrate, alderman, or justice of the peace, be sentenced to pay a fine not less than $10.00 (ten dollars) nor more than fifty dollars ($50.00) or imprisoned not less than ten (10) days nor more than six (6) months or by both so fined and imprisoned in the discretion of the court.

§ 4. That Section 1254 of Article IV, Chapter 36 of Kentucky Statutes, Carroll's 1922 edition, be amended by amending the penalty clause by inserting the words: "he shall be fined not less than ten dollars ($10.00) nor more than one hundred dollars ($100.00) or imprisoned not less than ten days nor more than six months, or both so fined and imprisoned, in the discretion of the court," so that this section when amended shall read:

"If any person shall unlawfully set fire to any weeds, fense, grass, straw, or other thing capable of spreading fire on land, he shall be fined not less than ten dollars ($10.00) nor more than one hundred dollars ($100.00) or imprisoned not

less than ten days nor more than six months, or both so fined and imprisoned, in the discretion of the court."

§ 5. That Section 1255 of Article IV, Chapter 36 of Kentucky Statutes, Carroll's 1922 edition, be amended by amending the penalty clause by inserting the words: "he shall be fined not less than ten dollars ($10.00) nor more than one hundred dollars ($100.00) or imprisoned not less than ten days nor more than six months, or both so fined and imprisoned, in the discretion of the court," so that this section when amended shall read:

"If any person intentionally or negligently set any woods on fire, whereby damage is done to the lands or property of another, he shall be fined not less than ten dollars ($10.00) nor more than one hundred dollars ($100.00) or imprisoned not less than ten days nor more than six months, or both so fined and imprisoned, in the discretion of the court."

§ 6. (a) Every owner of timberland in the State of Kentucky shall furnish or provide a sufficient forest fire patrol during the seasons of the year when there is danger of forest fires, which patrol shall meet with the approval of the State Forest Service;

(b) If the owner of any forest lands fails to properly patrol his or their lands, then the State Forest Service may cause the same to be patrolled and charge the cost thereof against such owner; provided the aggregate amount so charged does not exceed one cent per acre per pear, and if the amount so charged against such owner as cost and expense of such patrol is not paid upon presentation of a bill thereof, then it shall be the duty of the prosecuting attorney of the county in which said land or a greater part thereof is situated, at the instance of the forestry department, or some one of its agents, to institute in the name of the State of Kentucky, an action for the recovery thereof. All moneys collected from owners of forest lands, either by suit or voluntary payment, shall be paid into the State treasury to the credit of the fores-

try fund. But the foregoing provisions shall not apply to corporations, firms, or individuals who are members of and contributing to the various fire protective associations of the State of Kentucky, now in existence;

(c) Provided, that actual bona fide residence, by the owner or lessor on one hundred acres or less, shall be deemed to constitute reasonable and adequate protection for such tract, but such residence shall not relieve the owner, his agents or employees from responsibility for the control and suppression of fires occurring on such tracts or entitle such owner to compensation from the forestry department for the time spent by him, his agents or employees in controlling or suppressing any fire that threatens or occurs thereon;

(d) Provided, also, that the degree of protection required on a given tract of land shall not exceed that required on adjoining tracts in the same protective unit and that in no case shall the total cost of patrolling assessed against the land by the State exceed one cent per acre per annum;

(e) For the purpose of this act, any land shall be considered timberland which has enough timber, timber growth, or woody brush, standing or down, to constitute, in the judgment of the State Forestry Department, a fire menace to itself or adjoining lands, provided, further, that nothing in this section contained shall be construed to include lands under cultivation or entirely in grass; and provided further that nothing contained herein shall be construed so as to include within the provisions of this section any land which is an isolated fire risk unless a forest fire thereon would imperil the lands of any adjoining landowner or landowners;

(f) Nothing in this act shall be construed to relieve the owner, lessee, or user of any land from civil liability for damages resulting from any fire for which they, their agents or employees may be responsible.

Resolved that the title thereof be as aforesaid.

Mr. Dorman of Rules Committee moved that the vote by which said bill was passed be reconsidered and that said motion lie on the table.

Said motion was agreed to.

At the instance of the Committee on Rules, the House took up for consideration from the Orders of the Day, a bill entitled:

H. B. 513. An Act to amend and re-enact Sec. 3563 of Kentucky Statutes, relating to the improvement of public ways in cities of the fourth class.

Said bill is as follows, viz.:

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

§ 1. That Section 3563 of Kentucky Statutes, be and the same is hereby repealed, amended and re-enacted, so that when said section is so amended and re-enacted, the same shall read as follows:

The board of council may, by ordinance, provide for the improvement of streets, alleys and other public ways and sidewalks (including curbing and guttering), or parts thereof in the manner herein set out. The improvement of any public way or sidewalk by original or reconstruction or by resurfacing upon a foundation already in place, shall be deemed an improvement within the provisions of this act. An ordinance for improvement of any public street or sidewalk as contemplated in this section shall have two readings before the board of council and ten days shall intervene between the first and second reading. The improvement of public ways and sidewalks (including curbing and guttering), except as herein-

after provided, shall be made at the exclusive cost of the owners of real estate abutting such improvement, to be apportioned among and assessed upon the lots or parcels of real estate abutting feet, and a tax shall be levied upon such lots or parcels of real estate for the payment of the cost assessed thereon, which tax shall be due and payable at the city treasurer's office upon the completion of the work and acceptance thereof by the board of council, unless otherwise provided in the ordinance ordering such improvement, and no property shall be exempt from such improvement tax. Any such tax which is not paid within thirty days after the same becomes due shall have added thereto a penalty of ten per cent. (10%) of the amount of the tax. There shall be a lien upon such lots or parcels of real estate for the part of the cost of such improvement so assessed thereon, and the same shall bear interest at the rate of six per cent. (6%) per annum from the time of the assessment until paid. Any assessment for any street improvement as provided in this section which exceeds one-half of the value of the lots or parcels of real estate upon which the assessment is made, shall be void as to such excess, but the improvement shall be taken into consideration in fixing the value of such real estate and the board of council shall provide for the payment of any such excess out of the general fund. When in any such city, having therein a street railway and the railway company is required by its franchise, or by any contract with the city, to pave or improve any part of the streets or alleys of the city, proposed to be improved, the cost of paving such portion of such streets or alleys shall be assessed against such railway company and a tax shall be levied upon all property, assets and franchises of such company in the city for the payment thereof. Such tax shall constitute a first lien upon all property, assets and franchises of all kinds whatsoever, of such company within the corporate limits of the city, and shall be due and payable at the same time and in the same manner and shall bear like interest as the taxes assessed against the abutting property. Such rail-

way company shall have the right to construct its own part of such proposed improvement, and, if it shall do so, no tax shall be assessed against such company; provided, however, that such company shall before the letting of the contract for such improvement, elect by written request presented to the board of council to construct its part of such improvement, and shall execute a bond to the city with good and sufficient surety, to be approved by the mayor, conditioned that it will do the work of improving such part of the street with such material and according to such plans and specifications and within such time and subject to such provisions as the ordinance therefor may prescribe. The city shall pay the cost of the improvement of intersections with other public ways, including one-half of the width of the street or alley, being improved, opposite other streets or alleys which run into, but do not cross the street or alley so being improved, and of that proportion of any street abutting upon property belonging to the city, and shall pay the cost of all improvements where the abutting owner is a public school, cemetery, state or United States.

The city treasurer shall keep in his office, in a book to be provided for that purpose, a record of all assessments of local taxes as provided in this section, showing the name and portion of the street in which the improvement is made, the character of the improvement and the names of the persons agaist whose property the assessments are made.

Such record shall be subject to inspection by any person desiring to inspect the same, and shall be conclusive evidence of notice to all persons of such assessments and the liens created thereby. Upon payment of any improvement tax to the treasurer, he will make proper entry thereof in the record book herein provided for, whereupon the lien for such tax shall stand released. All local taxes paid into the city treasury shall, from time to time, be paid over to the contractor or other person entitled thereto, upon order of the board of council. The treasurer shall carefully keep a separate ac-

count of the fund arising from assessments for each particular improvement, and no proceeds arising from assessment for one improvement shall be diverted to the payment for any other improvement whatever. The proceeds shall in each case constitute a separate special fund for the payment of the constructor for the particular work for which the assessment is made, or for the security and payment of improvement bonds, if any are issued, as provided in Section 3577 for such improvement. The board of council of any city of the fourth class may provide by general ordinances that such (city) shall pay part, and if so, what part of the cost of improvement of the streets, alleys, sidewalks and other public ways of such city. When such provision is made it shall be uniform and shall thereafter apply to the improvement of all streets, alleys, sidewalks and public ways in the city, and such general provision shall not thereafter be changed or repealed except at intervals of ten years or more. Provided that any county may be required by the city council to pay the cost of all improvements in streets upon which its property abuts in the same manner as other property owner.

Provided, that when any street, alley, sidewalk or other public way of such city shall have been constructed, or reconstructed, under the provisions of this act at the exclusive expense of abutting property owners, the same shall not thereafter be reconstructed at the expense of abutting property owners, but must be paid for by the city.

§ 2. All other laws or parts of laws in conflict herewith are hereby repealed.

Mr. Gilbert offered the following Amendment to said bill, viz.:

Amend H. B. 513 on line 97, page 4, after the word "not" inserting the words "within 25 years from the completion thereof" and strike out the word "thereafter" in said line.

Said Amendment was agreed to.

Ordered that said bill be engrossed and read the third time.

Resolved that the title thereof be as aforesaid.

Mr. Dorman of the Committee on Rules moved that the vote by which said bill was passed be reconsidered and that said motion lie on the table.

Said last named motion was agreed to.

At the instance of the Committee on Rules, the House took up for consideration from the Orders of the Day a bill entitled:

H. B. 276. An Act relating to fiduciaries, and to the liability of persons dealing with fiduciaries for breaches of fiduciary obligations.

Said bill is as follows, viz.:

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

§ 1. (Definition of Terms). For the purposes of this Act and unless otherwise stated the word "bank" shall include all banks and trust companies; the word "fiduciary" shall include every trustee under any trust, executor, administrator, guardian, receiver, trustee in bankruptcy, assignee, committee for estates of lunatics, partner, agent, officer of a corporation, public officer, or any person acting in any other fiduciary capacity, for any person, trust, or estate; the word "person" shall include a corporation, partnership, association, or any two or more persons having a joint or common interest; the word "principal" shall include any person to whom a fiduciary, as such, owes an obligation.

§ 2. (Application of Payments Made to Fiduciaries). Any person who in good faith pays or transfers to a fiduciary any money or other property which the fiduciary as such is authorized to receive, shall not be responsible for the proper application thereof by the fiduciary; and any right or title acquired from the fiduciary in consideration of such payment or transfer shall not be invalid in consequence of a misapplication by the fiduciary.

§ 3. (Transfer of Negotiable Instrument by Fiduciary). If any negotiable instrument payable or indorsed to a fiduciary as such is indorsed by the fiduciary, or if any negotiable instrument payable or indorsed to his principal is indorsed by a fiduciary empowered to indorse such instrument on behalf of his principal, the indorsee is not bound to inquire whether the fiduciary is committing a breach of his obligation as fiduciary in indorsing or delivering the instrument, and is not chargeable with notice that the fiduciary is committing a breach of his obligation as fiduciary, unless he takes the instrument with actual knowledge of such breach or with knowledge of such facts that his action in taking the instrument amounts to bad faith.

§ 4. (Check Drawn By Fiduciary Payable to Third Person.) If a check or other bill of exchange is drawn by a fiduciary as such, or in the name of his principal by a fiduciary empowered to draw such instrument in the name of his principal, the payee is not bound to inquire whether the fiduciary is committing a breach of his obligation as fiduciary in drawing or delivering the instrument, and is not chargeable with notice that the fiduciary is committing a breach of his obligation as fiduciary, unless he takes the instrument with actual knowledge of such breach or with knowledge of such facts that his action in taking the instrument amounts to bad faith.

§ 5. (Check Drawn by and Payable to Fiduciary). If a check or other bill of exchange is drawn by a fiduciary as such or in the name of his principal by a fiduciary empowered to draw such instrument in the name of his principal, payable to the fiduciary personally, or payable to a third person and by him transferred to the fiduciary, and is thereafter transferred by the fiduciary, whether in payment of a personal debt of the fiduciary or otherwise, the transferee is not bound to inquire whether the fiduciary is committing a breach of his obligation as fiduciary in transferring the instrument, and is not chargeable with notice that the fiduciary is committing

a breach of his obligation as fiduciary unless he takes the instrument with actual knowledge of such breach or with knowledge of such facts that his action in taking the instrument amounts to bad faith.

§ 6. (Deposit in Name of Fiduciary as Such). If a deposit is made in a bank to the credit of a fiduciary as such, the bank is authorized to pay the amount of the deposit or any part thereof upon the check of the fiduciary, signed with the name in which such deposit is entered, without being liable to the principal, unless the bank pays the check with the actual knowledge that the fiduciary is committing a breach of his obligation as fiduciary in drawing the check or with knowledge of such facts that its action in paying the check amounts to bad faith.

§ 7. (Deposit in Name of Principal). If a check is drawn upon the account of his principal in a bank by a fiduciary who is empowered to draw checks upon his principal's account, the bank is authorized to pay such check without being liable to the principal, unless the bank pays the check with actual knowledge that the fiduciary is committing a breach of his obligation as fiduciary in drawing such check, or with knowledge of such facts that its action in paying the check amounts to bad faith.

§ 8. (Deposit in Fiduciary's Personal Account.) If a fiduciary makes a deposit in a bank to his personal credit of checks drawn by him upon an account in his own name as fiduciary, or of checks payable to him as fiduciary, or of checks drawn by him upon an account in the name of his principal if he is empowered to draw checks thereon, or of checks payable to his principal and indorsed by him, if he is empowered to indorse such checks, or if he otherwise makes a deposit of funds held by him as fiduciary, the bank receiving such deposit is not bound to inquire whether the fiduciary is committing thereby a breach of his obligation as fiduciary; and the bank is authorized to pay the amount of the deposit or any part thereof upon the personal check of the fiduciary without

being liable to the principal, unless the bank receives the deposit or pays the check with actual knowledge that the fiduciary is committing a breach of his obligation as fiduciary in making such deposit or in drawing such check, or with knowledge of such facts that its action in receiving the deposit or paying the check amounts to bad faith.

§ 9. Nothing herein contained shall in any way relieve a fiduciary who breaches his trust and causes any loss thereby of his liability under his bond, or of any civil or criminal liability provided for by law.

§ 10. The provisions of this Act shall not be retroactive.

§ 11. All laws or parts of laws, or acts or parts of acts, in conflict herewith are hereby repealed to the extent of such conflict.

Ordered that said bill be read the third time.

The constitutional provision as to the third reading of said bill at length being dispensed with, said bill was read the third time by its title and passed.

Resolved that the title thereof be as aforesaid.

Mr. Dorman of Rules Committee moved that the vote by which said bill was passed be reconsidered and that said motion lie on the table.

Said motion was agreed to.

A message was received from the Governor announcing that he returns to this House where it originated, without his approval and signature, a bill entitled:

H. B. 8. An Act to refund to the owner of a motor vehicle the license fees in case of loss by theft, etc.

Together with his objections to said bill and his reasons therefor.

(For bill see House Journal of February 20.)

The objections of the Governor and his reasons therefor are as follows:

VETO MESSAGE

HOUSE BILL No. 8

The object and purposes of this bill appear to be good, and I am confident its sponsors were in perfect good faith when they presented and piloted it through the House and Senate, but it appears to be open to abuse and will likely lead to fraud and corruption. It provides that the State "be required" in every case where there is loss by accidental fire, theft or unavoidable accident to an automobile or motor vehicle on which a license has been paid, to refund the proportion of the license tax which would correspond to the unexpired term of the license, to the end of the year.

The second paragraph of the Bill provides that this refund shall be made in every case where the automobile or motor vehicle "is damaged by accident," and "unfit for service." This would require a refund on licenses in every case where an automobile or truck is damaged, or where it is rendered unfit for service even temporarily.

The third section provides for the presentation of claim with proof on which the County Court Clerk is directed to refund the license money out of motor license money then in his hands. A dishonest public official could easily work out a system under this section by which he could take nearly all of the license tax money paid into his office; or, he could pay his political debts in the County by refunding to the various automobile owners their license tax. In addition to this the State would have to have an accountant visit regularly every County Clerk's office in order to take care of such cases. It would not be practicable for the State to send out on the country road a great distance from the County Seat to determine whether the alleged owner of a damaged car had actually lost the car through accidental damage. This would cost more than the State would get out of it. If this bill were

amended so as to allow the proof of loss to be submitted to the automobile department, at Frankfort, or the State Tax Department, and the refund, if any, to be paid here after the proof is considered here, it would not be so objectionable, but as now presented the State would be unable to successfully collect a license tax on automobiles and the expense of handling the business would be increased enormously.

But the most objectionable part of this bill is its failure to require the old license tags to be returned to the Clerk where a refund is made. As the bill now reads, the car owner could collect the money on the license and continue to use the tags or dispose of them to another, and the State would be defrauded out of large sums of money.

For these reasons I feel that the bill in its present form would not serve the State, and should not be approved. It is therefore vetoed.

FLEM D. SAMPSON, *Governor*
March 4, 1930. *Commonwealth of Kentucky*

Mr. Dorman of the Committee on Rules, moved that the House do now adjourn.

Said motion was agreed to.

And then the House adjourned.

WEDNESDAY, MARCH 5, 1930

The House was opened with prayer by the Reverend Father Edward G. Klosterman of the Roman Catholic Church, of Frankfort, Kentucky.

No lien of any kind or nature upon any bridge or bridges, approaches or real estate appurtenant thereto shall be given or granted in favor of any such bonds, but such bonds shall be secured by a first lien on the gross tolls and other revenues of the bridge or bridges in the project for which the bonds are issued.

§ 3. Inasmuch as all such bridges to be purchased or built by the State Highway Commission will form a part of the State Primary System of Highways and will benefit the entire State, and inasmuch as tolls on such bridges should as far as practicable be continued until the costs of all such

bridges shall be paid, it shall be the duty of the commission to couple or unite into one project for financing purposes all or as many of such bridges to be built or purchased as in its judgment are practicable to couple or unite, but not any bridge or bridges now in operation by the commission, so that the tolls and other revenue derived from all of the bridges thus coupled or united shall be continued until all of the bonds for the coupled or united bridges shall be paid with interest thereon and so that all such tolls shall be used for the payment of all such bonds and the interest thereon; the lien of the bonds for any such united project upon bridge tolls and other revenues shall be a lien upon the gross tolls and other revenues of all of the bridges in such project.

§ 4. The State Highway Commission may impose such conditions as to it may seem for the interest of the Commonwealth in any contracts to be made by it for the sale of such bonds, unless prohibited by law, and may assent in any such contract to reasonable conditions imposed upon the commission in its issuance and delivery of such bonds; and such conditions may embrace among other things a covenant of the commission that within the period the purchasers are required or permitted to accept and pay for bonds purchased but remaining undelivered, and for six months thereafter, the commission will not advertise for sale, sell or issue any bonds or other obligations payable from bridge tolls without the purchasers' consent; provided, however, that no such covenant shall extend beyond the biennial period in which the contract is made.

§ 5. In advertising for bids for such bonds it shall not be necessary to state the exact face amount thereof, provided the conditions are stated upon which such face amount may be determined prior to the delivery of any or all of the bonds; bids may be invited at the same time for the bonds of more than one bridge project, and a bid may cover more than one project.

§ 6. No contract shall be let or made for the purchase

or building of any such bridge or part thereof, and no bonds to pay any or all of the cost thereof shall be delivered, unless and until sufficient funds shall have been lawfully appropriated for the construction of a hard-surfaced highway or highways, unless such highway or highways shall then exist, connecting the approaches of the bridge, or the Kentucky approach of an interstate bridge, to a hard-surfaced highway or highways forming a part of the State Primary System of Highways; and if any contract for the sale of such bonds shall provide that the amount of bonds purchased shall be computed upon the basis of a traffic survey or estimate, and such survey or estimate shall be based upon the happening of certain conditions, no bonds to pay any or all of the cost of any bridge for which such bonds are to be issued shall be delivered until the happening of such conditions or the lawful appropriation of sufficient funds for the happening thereof, unless the original purchasers shall consent to such delivery.

§ 7. Pending the preparation of definitive bonds and with the consent of the purchasers thereof, the State Highway Commission may issue temporary bonds of the same face amount, date, maturity, interest rate and other details as the definite bonds except that no coupons need be attached to the temporary bonds, the interest upon which shall be payable under such conditions as the commission may determine, such temporary bonds to be exchangeable for definitive bonds when prepared and executed.

§ 8. No such bridge shall be built, purchased or operated nor shall any bridge tolls be charged or collected except so far as the same may be consistent with any applicable act of Congress or applicable order of any officer, commission or board of Government of the United States.

§ 9. The principal and interest of said bonds may be made payable either in lawful money of the United States or in gold coin of the United States of the present standard of weight and fineness, as the State Highway Commission may determine.

§ 10. Such bonds shall have all the qualities and incidents of negotiable instruments under the laws of the Commonwealth.

§ 11. It shall be lawful to provide in such bonds, that they or any of them may be called for redemption prior to maturity, on interest payment dates not earlier than one year after the date of such bonds, at a price or prices not exceeding 103 and accrued interest, under such conditions as may be fixed by the State Highway Commission prior to the issuance of the bonds.

§ 12. The State Highway Commission is hereby authorized to covenant in advance of the issuance of bonds for any project that while bonds of such project shall be outstanding, it will keep the bridge or bridges in such project adequately insured for the protection of the Commonwealth and the bondholders as their interests may appear, in companies satisfactory to the original purchasers of the bonds or their successors or assigns or nominees, under a so-called "all-risk coverage" policy or policies, either for the full insurable value or for the face value of bonds outstanding for such project, whichever may be the lessor amount, and that it will also carry and keep in force during the same period insurance policies in companies satisfactory to such purchasers, covering the use and occupancy of the bridge or bridges in such project or each of them, in such an amount as to provide an income for one year equal to at least one year's interest upon the bonds of such project then outstanding, the premium upon such policies to be paid from the State Road Fund unless other provision for such payment, but not out of bridge tolls and revenues, shall be made by law. The commission may nevertheless carry insurance of lessor extent or amount if adequate in their judgment and that of the original purchasers of the bonds.

§ 13. All bridges purchased or built in whole or in part from such bonds shall always be maintained, operated and

kept in repair by the State Highway Commission or other agency of the Commonwealth until such bonds shall be paid, and the cost thereof shall be paid from the State Road Fund unless other provision for such payment, but not out of bridge tolls and revenues, shall be made by law.

§ 14. The State Highway Commission may appropriate and pay from the State Road Fund any part of the cost of any bridge for which such bonds shall be issued.

§ 15. The State Highway Commission may lawfully covenant in any contract for the sale of any such bonds that at least twice a year after any bridge is placed in operation by the Commission which shall have been purchased or built in whole or in part from the proceeds of such bonds, the commission will cause audits of all bonds and accounts to be made by certified public accounts, showing the receipts and disbursements of bridge tolls, the purchase and redemption of bonds and the amounts deposited in banks and trust companies, reports of such audits to be open to the inspection of all persons inerested and copies thereof to be furnished the original purchasers of the bonds and the trustee hereinafter provided for.

§ 16. The State Highway Commission may covenant in connection with any issue of such bonds that as long as such bonds or any of them shall be outstanding it will not sell, mortgage or make any other disposition of the bridge properties or any of them for which such bonds are issued and that it will keep in repair, maintain and continuously operate the bridge or bridges in the project for which such bonds are issued.

§ 17. The State Highway Commission shall have power to issue new bonds in lieu of bonds mutilated, lost or destroyed under such terms and conditions as the commission may determine.

§ 18. In order to provide for the further protection of the Commonwealth and the holders of such bonds as well as

to provide reasonable limitations upon the exercise by individual bondholders of the right of action against the commission and other state officers for the enforcement of the privileges and rights of bondholders, each issue of such bonds shall be further secured by a trust indenture made by and between the State Highway Commission and a trustee, which shall be a trust company, or bank having the powers of a trust company as to trusts, having its principal office in the Commonwealth of Kentucky, and shall at the time it begins to function as such trustee have a combined capital and surplus of at least one million dollars, and shall be satisfactory to the original purchasers of the bonds. Said trust indenture may contain those provisions customarily found in trust agreements securing the bonds and debentures of corporations, if not prohibited by law, and shall set forth the duties and covenants of the commission in repect of bridges to be hereafter constructed or purchased and the conservation and application of funds and the insurance of moneys on hand or on deposit and the rights and remedies of the trustee and the holders of the bonds, restricting in reasonable manner the individual right of action of bondholders in favor of action in their behalf by the trustee and/or such purchasers.

§ 19. Inasmuch as the State Highway Commission passed a resolution on January 8, 1930, accepting the bid of certain investment bankers for revenue bonds for the purchase or building of certain bridges, received pursuant to a notice published and prospectus issued by the commission, it shall be lawful for the commission, if in its judgment the best interests of the Commonwealth will be served thereby, to enter into a contract with said bankers by which bonds for said bridges may be issued in conformity with this Act insofar as said bankers may consent thereto. If said bankers shall waive any right they may have to purchase bonds for the three certain bridges embraced in their said bid which are now operated by the commission, such contract may embrace bonds

to pay all or part of the cost of any additional bridge or bridges which the commission shall then or thereafter, but not subsequent to December 31, 1930, deem it practicable and for the interest of the Commonwealth to couple or unite for financing purposes, as hereinabove provided, with any or all of the remaining bridges embraced in the contract hereby authorized. The sale of bonds under any such contract shall be at such price that the interest yield basis will not be more than the average interest yield basis upon which the bid accepted by said resolution was made, such interest yield basis to be computed by the State Highway Engineer according to standard tables of bond values. The total amount of bonds sold under such contract, including those for additional bridges which the commission shall deem it practicable and for the interest of the Commonwealth so to couple or unite, shall not exceed by more than four million dollars the amount of bonds for which said bid accepted January 8, 1930, was made; such limitation, however, shall not apply to any additional bonds which the commission may issue under such contract to pay the total instead of only one-half the cost of any bridge embraced in said bid.

§ 20. All the powers and duties of the State Highway Commission in relation to the building, purchase and operation of such bridges and the issuance of such bonds shall be powers and duties of the successor or successors of said commission from time to time and of any officer, board or commission to whom or to which any such power or duty shall be transferred by or in accordance with law; and wherever reference is herein made to the purchasers of bonds such reference shall be deemed made to the successors, assigns and nominees of the purchasers.

§ 21. The powers conferred by this Act are supplemental to all other powers of the commission except where in conflict therewith.

§ 22. The sections and provisions and parts thereof of

this Act are separable and are not matters of mutual essential inducement, and it is the intention to confer the whole or any part of the powers herein provided for; and if any such sections or provisions or parts thereof are for any reason illegal, it is the intention that the remaining sections and provisions or parts thereof shall remain in full force and effect.

§ 23. Inasmuch as the welfare of the Commonwealth demands the immediate building and purchase of bridges throughout the Commonwealth under conditions which will permanently free such bridges from tolls in the shortest practicable time, an emergency is hereby declared to exist and therefore this act shall take effect immediately from and after its passage and approval by the Governor as provided by law.

Such order shall be served upon the owner or user of the boiler, personally or by mail, and any owner or user failing to comply with such order within a time to be specified therein, which shall be not less than ten days from the service of the order if served personally, and not less than fifteen days from the mailing thereof, if served by mail, shall be liable to a penalty of fifty dollars for each day's neglect thereafter.

Any objections to the rule or order not raised in the petition shall be deemed waived. The Board may join in one proceeding all petitions alleging invalidity or unreasonableness of substantially similar rules or orders. The filing of such petition shall operate to stay all proceedings under such rule or order until the determination of such review. The Board shall order a hearing if necessary to determine the issues raised, or if the issues have been considered in a prior proceeding the Board may, without hearing, confirm its previous determination. (b) If the action is an appeal from a determination of the Board, the Board shall be required to file with the clerk of the court a certified copy of the record of its hearing in the matter. The court, after due consideration, may refer any issue in such action back to the Board for further consideration.

(c) Every rule made pursuant to the provisions of this Act or order directing compliance therewith shall be valid unless declared invalid in a proceeding brought under the provisions of section eleven.

(d) Except as provided in this section, no court shall have jurisdiction to review or annul, restrain or interfere with the enforcement of any rule or order of the Board made in or to secure compliance with the provisions of this Act. Provided, however, the Board shall act within the powers, jurisdiction and authority invested by the provisions of this Act.

(e) Every rule or order shall in prosecution or action to impose a penalty for its violation be deemed valid unless prior thereto such rule or order has been revoked or modified by the Board or annuled by the court pursuant to section eleven and this section, or unless such proceeding is pending,

in which case the prosecution or action shall be stayed by the court pending final determination thereof.

(f) If prosecution or action is commenced against a defendant who has not previously been served with an order by the Board, to comply with a provision of this Act or rule of the Board, or who has been served with such an order but has not had a reasonable opportunity to comply therewith, or if within five days the defendant commences proceedings under the provisions of sections eight, eleven or twelve, the prosecution of action shall be stayed as if such proceedings were pending at time it was commenced.

§ 11. Review of Rule or Order by Kentucky Industrial Safety Board: Any person in interest or his duly authorized agent may petition the Kentucky Industrial Safety Board for a review of the validity or reasonableness of any rule or order made under the provisions of this Act. The petition shall be verified, shall be filed with the Board and shall state the rule or order proposed to be reviewed and in what respects it is claimed to be invalid or unreasonable. Any objections to the rule or order not raised in the petition shall be deemed waived. The Board may join in one proceeding all petitions alleging invalidity or unreasonableness of substantially similar rules or orders. The filing of such petition shall operate to stay all proceedings under such rule or order until the determination of such review. The Board shall order a hearing if necessary

to determine the issues raised, or if the issues have been considered in a prior proceeding the Board may, without hearing, confirm its previous determination. Notice of the time and place of hearing shall be given to the petitioner and to such other persons as the Board may determine. If the Board finds that the rule or order is invalid or unreasonable it shall revoke or amend the same. The decision of the Board shall be final unless within thirty days after it is filed one of the parties commences an action as provided in section twelve.

§ 12. Review of Rule or Order of Kentucky Industrial Safety Board by Court: (a) Any person in interest or his duly authorized agent may bring an action in the Circuit Court of the county in which such person resides against the Kentucky Industrial Safety Board to determine the validity and reasonableness of any provision of this Act or of the rules made in pursuance thereof or of any order directing compliance therewith; provided, that no such action to determine the validity and reasonableness of any rule or order shall be brought except as an appeal from the determination of the Board as provided in section eleven.

(b) If the action is an appeal from a determination of the Board, the Board shall be required to file with the clerk of the court a certified copy of the record of its hearing in the matter. The court, after due consideration, may refer any issue in such action back to the Board for further consideration or may enter a final order declaring any rule or order of the Board unreasonable, invalid, and unenforceable. Either party may appeal to the Court of Appeals from the order of the Circuit Court, and the Court of Appeals shall have the same power as the Circuit Court. All appeals shall be in the manner provided by the Civil Code of Practice and procedure.

(c) Every rule made pursuant to the provisions of this Act or order directing compliance therewith shall be valid unless declared invalid in a proceeding brought under the provisions of section eleven.

(d) Except as provided in this section, no court shall have jurisdiction to review or annul, restrain or interfere with the enforcement of any rule or order of the Board made in or to secure compliance with the provisions of this Act. Provided, however, the Board shall act within the powers, jurisdiction and authority invested by the provisions of this Act.

(e) Every rule or order shall in prosecution or action to impose a penalty for its violation be deemed valid unless prior thereto such rule or order has been revoked or modified by the Board or annuled by the court pursuant to section eleven and this section, or unless such proceeding is pending, in which case the prosecution or action shall be stayed by the court pending final determination thereof.

(f) If prosecution or action is commenced against a defendant who has not previously been served with an order by the Board, to comply with a provision of this Act or rule of the Board, or who has been served with such an order but has not had a reasonable opportunity to comply therewith, or if within five days the defendant commences proceedings under the provisions of sections eight, eleven or twelve, the prosecution of action shall be stayed as if such proceedings were pending at time it was commenced.

§ 13. Duty to Furnish Information; Facilitate Inspections and there Shall be no Interference with Members of the Kentucky Industrial Safety Board, its Officers, Agents or Employees: Any person, employer, owner, operator, manager or lessee of any place of employment affected by the provisions of this Act or his agent, superintendent, subordinate or employee, and any person employing or directing any labor affected by the provisions of this Act shall, when requested by the Kentucky Industrial Safety Board furnish any information in his possession or under his control which the Board is authorized to require; shall answer truthfully all questions authorized to be put to him; shall admit the Board, its officers,

agents or employees during reasonable hours to any place which is affected by the provisions of this Act for the purpose of making inspection or enforcing the provisions thereof, the rules and orders of the Board and shall render reasonable assistance necessary for the proper inspection and compliance therewith. No person shall interfere with, obstruct or otherwise hinder any member of the Board, its officers, agents or employees in the performance of their duties.

§ 14. Process to be in Name of Kentucky Industrial Safety Board: All rules, orders or notices shall be issued by and in the name of the Kentucky Industrial Safety Board by the secretary thereof, or by any other officer, agent or employee thereunto duly authorized by the Board.

§ 15. Powers and Duties of the Secretary of the Kentucky Industrial Safety Board: (a) The secretary of the Kentucky Industrial Safety Board shall be the administrative and supervising officer of the Board and shall enforce the provisions of this Act and the rules and orders of the Board.

(b) The secretary shall cause proper inspections to be made of places of employment, investigations to be made of industrial accidents and conditions affecting the life, health and safety of men, women and children employed in places of employment and report to the Board thereon.

(c) He shall propose to the Board such rules or such changes in rules as he may deem advisable.

(d) He should make a biennial report to the General Assembly of the work performed by the Board and its employees and of all matters handled by the Board, and of all fees collected and expenditures made.

(e) The secretary, by and with the advice and approval of the Board, shall employ and fix the salaries or wages of such qualified and competent employees as are required to perform the duties imposed by the provisions of this Act; provided, however, no salary or wage of any person employed

under the provisions of this section, shall exceed $3,000.00 per annum. All salaries and wages shall be paid monthly.

§ 16. Penalties for the Violation of this Act: Any person or employer who suffers, permits or violates any of the provisions of this Act, for which a specific penalty is not herein imposed, or rule or order of the Board shall be deemed guilty of a misdemeanor and on conviction thereof shall be punished by a fine of not more than two hundred dollars and not less than ten dollars for each offense; each day's offense or failure to comply with the provisions of this Act, rule or order of the Board, shall be considered as a separate offense.

§ 17. Appropriation: There is hereby appropriated for the use and benefit of Kentucky Industrial Safety Board all of the fees and penalties collected under the provisions of this Act, except fees allowed by law to state officers and courts for commissions in the enforcement of the penal provisions of this Act. There is hereby further appropriated for each of the fiscal years beginning July 1, 1930, and 1931, for the use and benefit of the Board out of the excess of the funds collected from the tax on premiums paid to insurance carriers writing compensation insurance in Kentucky not required for the maintenance of the Workmen's Compensation Board, not to exceed the sum of Twenty-five Thousand Dollars ($25,000.00). All of said appropriation, except as expressly limited in this Act, may be used to pay the salaries, wages and expenses of employes of said Board, the per diem and expenses of said Board, and all other expenses incident to the maintenance and operation of said Board and the operation and enforcement of this Act.

§ 18. Act to be Construed Liberally: This Act shall be construed liberally and if any section or part of any section be declared unconstitutional in whole or in part it shall not affect the other sections of this Act, it being the intention of the General Assembly in enacting this bill to enact each section separately.

§ 19. An emergency is hereby declared to exist, therefore this Act shall become effective immediately upon enactment.

Mr. Dunn offered the following Amendment to said Substitute, viz.:

Amend Committee Substitute for H. B. 150 Section 5, paragraph b, by striking out the following:

"The two members of the Board who are to represent the employees shall be appointed from a list of ten names submitted to the Commissioner by the Chairman of the State Legislative Boards of the Brotherhood of Railroad Trainmen, Order Railway Conductors, Brotherhood of Railway Firemen and Enginemen, Brotherhood of Railway Engineers and the Kentucky State Federation of Labor."

And inserting in lieu thereof the following:

"The two members of the Board representing employees shall be appointed from the membership of bona-fide recognized labor organizations. The two members of the Board representing employers shall be appointed from the membership of recognized organizations of employers."

Resolved that the title thereof be as amended.

Mr. Dorman of the Committee on Rules, moved that the vote by which said bill was passed be reconsidered and that said motion be laid on the table.

Said last anmed motion was agreed to.

At the instance of the Committee on Rules, the House took up for consideration from the Orders of the Day a bill entitled:

H. B. 535. An Act to amend and re-enact Sec. 3096 of the Kentucky Statutes, relating to the improvement of streets, public ways, grounds and sidewalks in cities of the second class.

Said bill is as follows, viz.:

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

§ 1. That section 3096 of the Kentucky Statutes be, and the same hereby is, amended and re-enacted so that said section, as amended, will read as follows:

3096. The general council or board of commissioners may, by ordinance, provide for the improvement of the streets, alleys and other public ways and sidewalks (including curbing and guttering) or parts thereof, in the manner herein set out. The improvement of any public way or sidewalk by original construction, or reconstruction, or by resurfacing upon a foundation already in place, shall be deemed an improvement within the provisions of this act, provided, however, that in cities having a general council consisting of two boards, no ordinance for the original improvement of any public street or sidewalk as contemplated in this section shall pass both boards of said general council on the same day, but at least two weeks shall elapse between the passage of any such ordinance from one board to the other. The improvement of

public ways and sidewalks (including curbing and guttering), except as hereinafter provided, shall be made at the exclusive cost of the owner of real estate abutting on such improvement to be apportioned among and assessed upon the lots or parcels of real estate abutting on such improvement according to the number of front or abutting feet, and a tax shall be levied upon such lots or parcels of real estate for the payment of the cost assessed thereon, which tax shall be due and payable at the city treasurer's office upon the completion of the work and acceptance thereof by the general council or board of commissioners, and no property shall be exempt from such improvement tax. Any such tax which is not paid within thirty days after the same becomes due, shall have added thereto a penalty of ten per cent of the amount of the tax. There shall be a lien upon such lots or parcels of real estate, for the part of the cost of such improvements so assessed thereon, and the same shall bear interest at the rate of six per cent per annum from the time of the assessment until paid. And any such tax or assessment which is not paid within thirty days after the same becomes due shall, together with interest and penalties be placed upon the tax duplicate and tax bills with other taxes of persons liable for such special assessments, and the tax bills for such special assessments may in addition to the remedies given in this act be sold and collection thereof enforced in the manner provided by law for the collection of other municipal taxes. Any assessment for any street improvement as provided in this section which exceeds one-half of the value of the lot or parcel of real estate upon which the assessment is made shall be void as to such excess, but the improvement shall be taken into consideration in fixing the value of such real estate, and the general council or board of commissioners shall provide for the payment of any such excess out of the general fund. When in any such city, having therein a street railway, the railway company is required by law or by its franchise or by any contract with

the city, to pave or improve any part of the streets or alleys of the city, proposed to be improved, the cost of paving such portion of such streets or alleys shall be assessed against such railway company and a tax shall be levied upon all property, assets and franchises of such company in the city for the payment thereof. Such tax shall constitute a first lien upon all the property, assets and franchises of all kinds whatsoever, of such company within the corporate limits of the city, and shall be due and payable at the same time and in the same manner and shall bear like interest as the taxes assessed against the abutting property. Such railway company shall have the right to construct its own part of such proposed improvement, and, if it shall do so, no tax shall be assessed against such company; provided, however, that such company shall, before the letting of the contract for such improvement, elect, by written request presented to the general council, or the board of commissioners, to construct its part of such improvement, and shall execute a bond to the city with good and sufficient surety to be approved by the mayor, conditioned that it will do the work of improving such part of the street with such material and according to such plans and specifications, and within such time, and subject to such provisions, as the ordinance therefor may prescribe. The city shall pay the cost of the improvement of intersections with other public ways, including one-half of the width of the street or alley, being improved, opposite other streets or alleys, which run into, but do not cross the street or alley so being improved, and of that proportion of any street abutting upon property belonging to the city. The city auditor shall keep in his office, in a book to be provided for that purpose, a record of all assessments of local taxes, as provided in this section, showing the name and portion of the street on which the improvement is made, the character of the improvement, and the names of the persons against whose property the assessments are made. Such record shall be subject to inspection by any

person desiring to inspect the same and shall be conclusive evidence and notice to all persons of such assessments and the liens created thereby. Upon payment of any improvement tax to the treasurer, he will report the same to the auditor, who will make proper entry thereof in the record book herein provided for, whereupon the lien for such tax shall stand released. The auditor shall carefully keep a separate account of the fund arising from assessments for each particular improvement and no proceeds arising from assessment for one improvement shall be diverted to the payment of any improvement whatever.

The proceeds shall, in each case, constitute a separate special fund for the payment of the improvement warrants issued for the particular work for which the assessment is made, or for the security and payment of the improvement bonds, if any are issued, as provided in section 3102 for such improvement. The general council or board of commissioners may provide by ordinance that monthly estimates be made of the amount of work done on any such improvement, and may issue to the contractor improvement warrants therefor to the extent of 65 per cent of the estimate, bearing not exceeding 6 per cent per annum interest from date of issue. Such warrants shall be issued by the city treasurer, or the commissioner of finance upon order of the general council or board of commissioners. They shall be negotiable, and shall constitute a lien on the local taxes levied for such improvement and shall be payable at the office of the city treasurer without notice to the holder thereof upon completion and acceptance of the improvement out of the first collection of such local taxes or out of the proceeds of the sale of any improvement bonds issued in anticipation thereof. The interest on such improvement warrants shall be estimated and assessed as a part of the cost of the improvement for which the same are issued, and where the general council or board of commissioners fail to provide by or-

dinance that monthly estimates be made of the amount of work done on any such improvement, and fail to issue to the contractor improvement warrants thereof to the extent of 65 per cent of the estimate, and in all cases where they do provide by ordinance that monthly estimates be made of the amount of such work done on said improvement to the extent of 65 per cent of the estimate, the general council or board of commissioners after the acceptance of the work of said improvement, and the confirmation of the engineer's final estimate of the cost thereof, shall issue to the contractor improvement warrants for the full amount of the final estimate or assessment for said improvement, bearing not exceeding six per cent per annum from date of issue; such warrants shall be issued by the city treasurer or commissioner of finance upon order of the general council or board of commissioners; said warrants shall be negotiable and constitute a lien on the local taxes levied for such improvements, and shall be payable at the office of the city treasurer or commissioner of finance without notice to the holder thereof out of the collection of such local taxes, and interest upon such improvement warrants shall be estimated and assessed as a part of the cost of the improvement for which the same are issued. The general council or board of commissioners of any city of the second class may provide by general ordinance that such city shall pay part, and if so, what part of the cost of the improvement of streets, alleys and other public ways (excluding sidewalks of such cities.) When such provision is made, it shall be uniform and shall thereafter apply to the improvement of all streets, alleys and public ways in the city, (excluding sidewalks), and such general provision shall not thereafter be changed or repealed except at intervals of 10 years or more. Any street, alley or other public way which has been improved or reconstructed with brick, granite, asphalt, concrete, or other improved material or paving, since March 1, 1909, or which may hereafter be improved or reconstructed with brick, granite,

asphalt, concrete, or other improved material or paving, entirely at the expense of the abutting property owner, as provided herein, shall not for a period of fifteen years, after such improvement or reconstruction be reconstructed or resurfaced upon a foundation aleady in place, except at the sole expense of the city.

§ 2. All laws, acts and parts of acts in conflict herewith are to the extent of any such conflict hereby repealed.

Ordered that said bill be read the third time.

The constitutional provision as to the third reading of said bill at length being dispensed with, said bill was read the third time by its title and passed.

Said bill is as follows, viz.:

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

§ 1. That in order to protect the agricultural and horticultural crops of the Commonwealth from the ravages of the European corn borer (Pyrausta oubilaslis) that may have been or may hereafter be within the Commonwealth which would seriously and destructively infest any area in the State in which it may be found, therefore, the Department of Agri-

culture shall adopt and carry out such control measures as are deemed advisable, and may cooperate with the United States Department of Agriculture in the control of this pest.

§ 2. The Department of Agriculture is authorized to promulgate quarantines and quarantine restrictions covering areas within the State affected by the said pest and areas within the State adjacent thereto, and may adopt, issue, and enforce rules and the regulations supplemental to such quarantines for the control of this pest. Under such quarantine, the Department of Agriculture or its authorized agents may prohibit and prevent the movement within the State without inspection, or the shipment or transportation within the State, of any agricultural or horticultural product, or any other material of any character whatsoever, capable of carrying this pest in any living state of its development; and, in the enforcement of such quarantine, may intercept, stop, and detain for official inspection any person, car, vessel, boat, truck, automobile, aircraft, wagon, or other vehicle or carriers whether air, land, or water, or any container believed or known to be carrying the said insect in any living state of its development or any such material in violation of said quarantines or of the rules or regulations issued supplemental thereto, and may seize, possess, and destroy any agricultural or horticultural product or other material of any character whatsoever, moved, shipped, or transported in violation of such quarantine, or the rules and regulations supplemental thereto.

§ 3. For the purpose of this act, the Department of Agriculture, or its authorized agents, shall have free access within reasonable hours to any farm, orchard, garden, elevator, warehouse, building, cellar, freight or express office or car, freightyard, vehicle, boat, container or any other place which, for probable cause it may be necessary or desirable for such authorized agents to enter in carrying out the provisions of this act. It shall be unlawful to deny such access to such authorized agents or to hinder, thwart, or defeat such inspec-

tion or entrance by misrepresentation or concealment of facts or conditions or otherwise.

§ 4. Any person, copartnership, association, or corporation violating any provision of a quarantine promulgated under the authority of this act, or of any rules and regulations issued supplemental thereto, shall be subject to a fine of not less than twenty-five dollars nor more than one hundred dollars for each offense, to be collected by summary conviction before any mayor, magistrate or justice of the peace, as like fines are now by law collected, and in case of non-payment of said fine, shall be imprisoned in the county jail for a period not exceeding five days; Provided that any person so convicted shall have the right of appeal, as in other cases of summary conviction. The fines collected under this act shall be paid to the Department of Agriculture and by it paid into the State Treasury for the use of the Commonwealth.

§ 5. Whatever treatment or destruction of any agricultural or horticultural product, whether in field, feed lot, place of assemblage or storage, or elsewhere, or whenever any special type of plowing or other farm operation is required under the provisions of any rule or regulation issued under the authority of this act, the owner or person having charge of such material or land shall, upon due notice from the Department of Agriculture, or its authorized agents, and within the time limit provided, cause the destruction or treatment of such material or take the action so required, in the manner designated by such notice. In case the owner or person in charge of such material shall refuse or neglect to carry out such instructions within the time limit provided the Department of Agriculture, or its authorized agents, may take the action through the legally constituted authorities so required and the expense thereof shall be assessed, collected, and enforced as taxes are collected and enforced against the owner of the premises upon which such expense was incurred. The amount of such expense when collected shall be paid to the

Department of Agriculture and by it paid into the State Treasury.

§ 6. Twenty-Five Thousand ($25,000.00) Dollars, shall be set aside as an emergency fund for each year of the next biennium to be used by the State Department of Agriculture at such times as the State Entomologist shall notify the Department of the existence of such infestation within the borders of this Commonwealth and that in his judgment precautionary measures should be employed. And that the Commissioner of Agriculture shall be further empowered to employ such help and promulgate and enforce such rules or regulations as in his discretion will be necessary to meet existing conditions and needs.
